## Efficient handling of cable drums and cable coils

### „ROLL IT“ – HANDLING SOLUTION FOR CABLE DRUMS

#### Drum cardboard

Transport, storage and unwinding solution as a cardboard packaging construction for drums with a maximum flange diameter of 40 cm and a maximum weight of 30 kg.

#### Benefits:

- Simple unwinding directly from the box
- The cardboard can be ordered filled or unfilled
- Stackable
- Dispenser solution (reusable)
- Manual transport by means of carrier handles possible
- Simple disposal
- Cardboard provides protection against damage and soiling

#### Spooling pallet

Transport, storage and unwinding solution as a pallet construction with integrated rollers for drums with a maximum flange diameter of 90 cm and a maximum weight of 500 kg.

#### Benefits:

- By using the rolls the unwinding of the cable directly from the pallet is possible in a simple way
- The pallet can be ordered filled or unfilled
- Pallet can be picked up from all four sides by the forklift
- No need to move the drum thus reducing any risk of damage
- Reusable
- Suitable for export as IPPC treated

## RACK SYSTEMS FOR STORING OF SINGLE CORE CABLES

TRONIC Module Single core cart 18x2

### Single core cart

#### Benefits:

- Mobile solution enables the processing of goods directly on site
- Simple placement of coils (short set-up times)
- More flexible storage capacity
- Different Single core cart solutions for variable amount of Tronic modules
- Cable conflation possible directly from the single core cart
- Clean and well organized storage system
- Kanban capable
