**Delivery:**

Delivered in different lengths. Character holders with a length of 5m and over are delivered in a box for easier handling.

**Mounting:**

FLEXIMARK® Character holders are used for both cable and component marking. You simply punch the holes for cable ties or screws as you need them.

**Other product data:**

ETIM Classification: EC001288

**Advantages:**

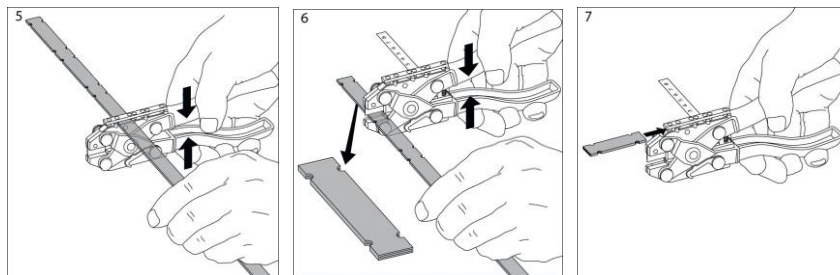

- Flexible and durable marking when you need it
- Easy marking on site together with 3M™ DYMO™ Industrial marking labels and different FLEXIMARK® Marking systems
- Halogen free material
- Cable and component marking for indoor and outdoor
- Mounted with one or two cable ties for cable marking and with screws for component marking

**Storage:**

Cool and dry in original packaging

**Related products:**

With the FLEXIMARK® Plier for Character holders you can both cut your holders into desired length, punch both holes for cable tie mounting and center hole for screw mounting.

FLEXIMARK® Character holders are used together with 3M™ DYMO™ Industrial marking labels (vinyl, polyester, glue-free, nylon) or different FLEXIMARK® Marking systems. All of the related products are available in our assortment.
