

Music highlight helps create connections

LAPP is the exclusive connectivity partner of jazzopen stuttgart 2023

Stuttgart, January 26, 2023 - Clear the stage for LAPP. For the first time, the world market leader for integrated solutions in the field of cable and connection technology is the exclusive connectivity partner of jazzopen stuttgart 2023.

The renowned music festival jazzopen stuttgart, which takes place from July 13 to 23, is the third largest jazz & beyond event in Europe. Every year, it brings together national and international stars of the scene in Stuttgart's state capital. For the family-owned company with its headquarters in Stuttgart, the event is a good opportunity to share the LAPP brand with a large audience, both regionally and internationally, and to bring it to life.

"By sponsoring this top-class jazz & beyond festival, we want above all to reaffirm our ties to Stuttgart and the region. In addition, it is a good platform to increase awareness of our company and support us in attracting specialists and managers", emphasizes Matthias Lapp, CEO of Lapp Holding SE.

No jazzopen without connection solutions

In the Light & Sound sector, LAPP's connectivity solutions have been providing breathtaking stage experiences all over the world for many years. "Without connection solutions, without cables that bring music and light to life, there would be no jazzopen. Just like LAPP, the festival stands for high standards and quality, for internationality in the heart of Stuttgart," adds Karl Heckl, CSO LA EMEA at U.I. Lapp GmbH.

About LAPP:

Headquartered in Stuttgart, Germany, LAPP is a leading supplier of integrated solutions and branded products in the field of cable and connection technology. The company's portfolio includes standard and highly flexible cables, industrial connectors and screw technology, customised system solutions, automation technology and robotics solutions for the intelligent factory of the future, as well as technical accessories. LAPP's core market is in the industrial machinery and plant engineering sector. Other key markets are in the food industry, logistics, as well as the energy and the mobility sector.

The company was founded in 1959 and is still fully owned by the founding family to this day. In the 2020/21 financial year, it generated a consolidated turnover of EUR 1,423 million. LAPP (including its non-consolidated companies) currently employs approximately 4,586 people across the world, produces at 21 international sites and has over 44 sales companies. LAPP also cooperates with around 100 international offices.
