

SINGLE CORE SOLUTIONS

TRONIC Box solutions

The **TRONIC box** is the perfect solution for storing, transporting and handling single cores. The **TRONIC Single core box** is usually used in combination with a compatible single core cart.

	Article number	Article description	Capacity
	85001632	TRONIC	1 coil
	85001624	TRONIC Single core cart 12	12 single cores
	85001629	TRONIC Single core cart 48	48 single cores
	85001633 85001630	Holder measuring meter 48 Measuring meter 48	

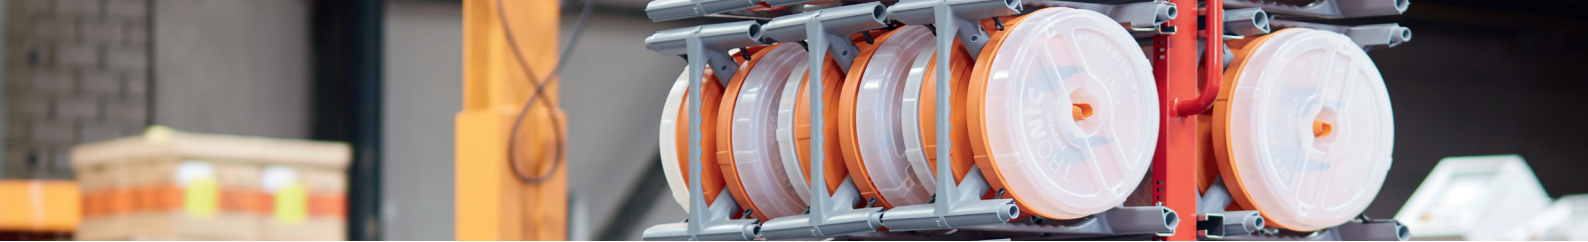

TRONIC Module solutions

The **TRONIC Module** consists of two **TRONIC Single core boxes** connected due to a rack. The frame design of the **TRONIC Modules** enables them to be stacked with other TRONIC Modules. Furthermore it supports the process of cutting single cores.

	Article number	Article description	Capacity
	85001625	TRONIC Module	2 single cores
	85001621	TRONIC Module Single core cart 6x2	12 single cores
	85001622	TRONIC Module Single core cart 18x2	36 single cores
	85001623	Measuring meter 18	

Advantages single core solutions

- Easy to **remove** and **refill** the boxes
- Cutting of single cores in a **horizontal position**
- Easy to **unwind** and **wind up** the cable
- **Product protection** (from damage)
- **Space-saving** as hung on a pole
- **Stacking capability** (horizontal storage) of the TRONIC Module
- **Labelling** of the TRONIC Modules possible

Optimized coil lengths for single core solutions

In order to ensure You an optimized process as a complete solution we offer following lengths items that are perfectly adjusted to our **TRONIC solutions**:
