REVIEW OF 2020 AND OUTLOOK FOR 2021

The year 2020 has presented new challenges for all of us. We have not yet overcome the Corona pandemic, but there is cause for hope. Some pharmaceutical companies have developed promising vaccine candidates. While producing vaccines, the Serum Institute of India, world's largest maker of vaccines, could play an important role. On its own risk the institute has already started to produce a vaccine, which is in the testing phase.

Despite the hope for a vaccine, the Corona pandemic will keep us busy next year as well. That is why we have decided not to have a regular wine festival in Mumbai, but a virtual version of it. This format offers many new opportunities and chances. We would be glad, if we could welcome you as our partner our guest at the virtual wine festival "Stuttgart meets Mumbai".

I am glad that the Indo-German exchange did not come to a standstill in 2020. The Indian Film Festival in Stuttgart and the India Summer Days in Karlsruhe are great examples of successful online events. Within the first "Long Night of Consulates" in Stuttgart we presented our work and projects to the citizen of Stuttgart. I am glad that numerous people used this opportunity and visited our information stall. In addition, we have organized various online events in the last months like virtual German-Indian Round Table or company visits for Indian delegations.

I am wishing you a peaceful Christmas season and all the best for the year 2021! Please take care!

Yours sincerely,

Andreas Lapp
Honorary Consul of the Republic of India for
Baden-Wuerttemberg and Rhineland-Palatinate

NEW FORMS OF INDO-GERMAN SCHOOL EXCHANGE

When face-to-face learning was suspended in mid-March due to Covid-19, the education sector itself started to develop its online teaching system and has come up with innovative and mind-boggling ideas in order to avoid disruption in education and learning.

Teacher Training College Stuttgart at TDI International School Sonipat in November 2019

Propelled by the exchange coordinator Angelika Hoff, Teacher Trainer of English as a Foreign Language at Teacher Training College Stuttgart, Germany, students of TDI International School, Sonipat, Haryana, have received the opportunity of being taught the German language by young and motivated native German trainee teachers through online video conferences.

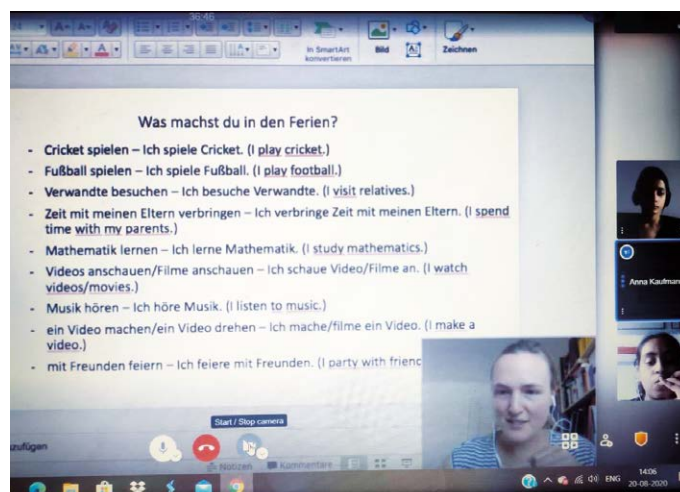

In summer 2020, Angelika Hoff and about 20 trainee teachers have conducted online live and interactive German classes with the students of TDI International School and thus promoted acceptance and understanding of an array of different cultural perspectives by offering excellent insights into Germany and its culture.

Moreover, in the academic year 2020/2021 a virtual teacher exchange, in which 11 teacher trainees from Teacher Training College Stuttgart will be paired up with 11 teachers from TDI International School and virtually invite each other to their lessons, will take place.

By organizing Indian exchange programmes Teacher Training College Stuttgart has played a key role in motivating young teachers to start their own Indian exchange once they have completed their training, thus promoting Indo-German friendship all over the state of Baden-Wuerttemberg through many newly established student exchange programmes in Germany's Southwest.
