Guten Tag

Dear customers and business partners,

It was a difficult two years for everyone due to the ongoing pandemic disruptions and we had to be agile to continue serving our customers. I am pleased that our 25 years of experience in Asia Pacific has allowed us to build our organisation - people and resources - local warehouses, harnessing workshops and factories, which have made our supply chain more robust. More importantly we never let the pandemic stop our innovation machinery.

I am delighted to present our all-new Asia Pacific catalogue 2022 that brings together all the product ideas that have been inspired by you - our customers in the Indo Asia Pacific region. The products were developed by our R&D teams in Asia and sometimes in collaboration with the R&D team in Germany too. The products in this catalogue, complement the range in our main global catalogue to provide you with an unrivalled range of connectivity components and solutions.

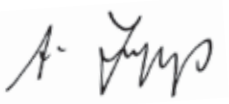
This catalogue, created in the exact same format as our trusted global catalogue, proven by years of use by our customers everywhere, guides you through our enormous range of reliable products, covering virtually the entire world of connection technology and applications. We hope you like the layout and design, and that you can find the relevant products and information for your requirements in an instant.

As a successful global player, we enjoy a strong position in international markets and can help our customers wherever they are. This catalogue is part of that. You can also choose to browse our high-quality branded products either in printed form or online. Click, flip through or swipe: the decision is yours.

Our company has long been characterised by continuity and progressive thinking. One example of this is our management team, which has now welcomed the third generation of the LAPP family. This is a strong signal of how we intend to remain a reliable partner in future. A partner who focuses on helping you remain successful in the long term – even through these unprecedented times. LAPP is there for you wherever you are in the world. No matter where you contact us and what you order from us, you will recognise us by our consistent company logo: simply LAPP. That is why, as a connectivity technology pioneer, we provide you with the solutions for a successful future – perfectly harmonised and ready for the challenges of the digital world. I hope you enjoy finding out more about our products.

Thank you very much for your trust and loyalty over the past years.

Yours sincerely,

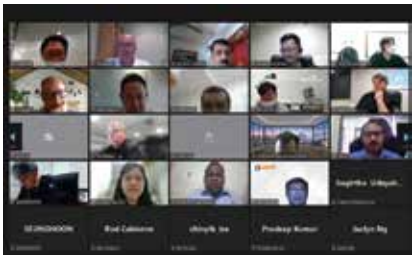


Andreas Lapp

From left: Andreas Lapp, Matthias Lapp, Ursula Ida Lapp, Alexander Lapp, Siegbert Lapp.

Family

We evolve to serve you



Family business and global player

LAPP is both. The history of our company has been one of success and expansion ever since it was founded in 1959 by Ursula Ida and Oskar Lapp. It remains resolutely family-owned to this day. We safeguard our success by staying close to our customers and markets, maintaining our innovative strength and brand quality, and being a reliable partner. Despite the COVID-19 pandemic, we remain committed to providing our customers with the best service in the challenging situation, to find quick, simple and flexible solutions wherever possible.

Success built on family values

At LAPP, we maintain values that promote cooperation and enable relationships with employees, suppliers and customers based on partnership and trust. Good relations and mutual respect are key elements of our company culture and a central plank of company policy. We know that our successful business development of the last decades is down in particular to our 4,650 skilled and dedicated staff around the world, as well as the reliable partnership with our customers.

With 18 production facilities, over 44 sales companies and hundreds of dedicated consultants, we are always close to the individual needs and challenges of our customers all over the globe. We are constantly developing our products and system solutions, setting standards in safety, quality and functionality. This is why we are one of the world's leading manufacturers of integrated solutions and branded products in cable and connection technology. As our success story enters its third generation, we are aware of our duty to the future.

Driven by the innovative and enterprising spirit of its founder Oskar Lapp, LAPP has been active in the Asia Pacific region for over 25 years. Thanks to our customers' growing support and trust, we have extended our reach with locally-based factories, design teams and a close network of partners, to give you the same outstanding service anywhere.

Together, our R&D and production teams in Asia work seamlessly to meet specific customer requests and obtain local quality standards and approvals. As economies in the region grow closer, we are proud to compile in one book, all the products designed and manufactured in Asia to complement our portfolio of over 20,000 global products.

Partnering with LAPP gives you access to not just quality cables and connectors, but also quick delivery times worldwide and advanced system solutions. With over 1,000 employees across Asia – of whom 330 are directly supporting and servicing our customers – we are able to bring our technical expertise even closer to you.

LAPP as a Company

We mean business

Count on LAPP experts and project teams to provide complete management of highly complex products, such as optimum cable, service and connection solution.

We help our customers not only with a wide product range, but also precise execution of delivery and logistics, with detailed attention to every phase, guiding you from start to success. Our culture of family values means business as we know your specific applications and remain as your project contact person from day one through to completion.

- **Increased efficiency**
- **Local service**
- **Complete management**

Industrial Communication

We connect industry to the future

Ensuring future competitiveness, LAPP facilitates the transition to smart factories with innovative connection solutions and complete industrial infrastructure from a single source.

At LAPP, we focus on the customer and provide them with exactly the solution that will make them more competitive, offering advice that is independent of any specific protocol and technology. Not only do we actively shape the market, our customers also benefit from our know-how in both cable solutions as well as manufacturing expertise across industries. Tap on our local presence as our experienced teams are present on five continents – all with the usual high LAPP quality, with access to LAPP service and logistics centres.

- **Quality for your safety**
- **High-level expertise**
- **Tailored complete solutions**

Mobility

Rail is the future

LAPP supplies powerful connection technology with short lead times for the railway industry of tomorrow.

Compared to up to four months' delivery times for railway-specific products for our competitors, our worldwide subsidiaries and stocks mean goods can reach customers within a few days. LAPP meets standards of quality and safety with its TRAIN division, which specialises in solutions for the railway industry. We supply cable types for almost all applications in railway vehicles of all kinds: from the coupling to the drive motor and the door automation to ventilation and toilets. Tailored and with no minimum order quantity.

Our ÖLFLEX® TRAIN, ETHERLINE® TRAIN and UNITRONIC® TRAIN cables are exceptionally resistant to heat, oil, acid and UV radiation and also exhibit the highest possible mechanical robustness. The production site for the ÖLFLEX® TRAIN is certified in compliance with the International Railway Industry Standard (IRIS) and In terms of fire protection, for example, almost all LAPP products for the railway industry meet the highest hazard level Hazard Level 3 (HL3) in the international standard EN-45545-2.

- **Rapid availability**
- **Cable quality that meets the highest standards**

Renewable energy

Powering to a brighter future

From solar photovoltaics to wind and hydro energy, LAPP has been supplying specialised solutions for markets in the energy revolution and powering the world's leap towards clean, green energy. Recognising potential early on, our next-generation cables and accessories are made for wide-ranging requirements and withstand a variety of harsh environmental elements.

ÖLFLEX® CONNECT

System solutions made by LAPP

With ÖLFLEX® CONNECT, we completed the step from component supplier to system supplier, offering complete solutions from a single source – from specialised cable assemblies and industry-standard servo connections to complex high-speed drag chain systems. We are constantly expanding our engineering, production and assembly capacities around the world.

The benefits for you:

- No capital expenditure for own production facilities
- Lean supply base leads to lower operating costs
- Low inventory levels thanks to complete assemblies
- Excellent functional reliability

ÖLFLEX® CONNECT CABLES

www.lappkabel.com/oelflexconnect

Cable systems made by LAPP
Our product range stretches from single cores and multicore cables through to EMC-shielded cables, all of which can be fitted with a wide selection of crimp contacts, connectors and housings. We also offer highly flexible and durable spiral cables in premium quality, as well as glass fibre assemblies, which we can produce, test and deliver in both standard and custom lengths.

Our comprehensive range of services:
- Cable cutting as required
- Unwinding with specified bending radius
- Stripping, crimping, heat shrinking
- Markings & printings
- Testing

ÖLFLEX® CONNECT CHAIN

Power chain systems made by LAPP
When it comes to assembled drag chains, you can benefit from our extensive know-how and many years of experience.

basic chain | core chain | extended chain

basic chain
Nylon or steel drag chains with highly flexible cables, cable protection conduits, hydraulic or pneumatic hoses with **no termination** such as connectors or flanges

core chain
Nylon or steel drag chains with highly flexible cables, cable protection conduits, hydraulic or pneumatic hoses **including termination** (connectors, flanges)

extended chain
Nylon or steel drag chains with highly flexible cables, cable protection conduits, hydraulic or pneumatic hoses **including termination** (connectors, flanges) **and functional units** such as towing arms or supporting structures

ÖLFLEX® CONNECT SERVO

Servo systems made by LAPP
As a leading manufacturer of assembled servo cable systems, we offer solutions for all industry standards for customers from different areas of me chanical engineering and drive systems. These range from the cost-effective basic line for applications free of aggressive environmental influences, to the core line that is specially designed for dynamic applications, right up to the highly dynamic performance class of the extended line. LAPP therefore offers the right solution for every set of requirements.

basic chain | core chain | extended chain

Service & Quality

Uncompromising quality – worldwide
With the same values of quality and precision around the world, you will always be on the safe side with branded products from LAPP. At our R&D laboratories in Korea, China, India and Singapore, we put our products through their paces with the same stringent tests as we do in Germany. Here we simulate all kinds of movements to determine the service life of cables and wires as well as test for flame resistance according to the relevant standards. The result: uncompromising quality from LAPP.

Customised solutions
Our teams in Asia understand the requirements in respective markets and can bring their technical expertise to provide customised solutions for challenging requirements. Whether it's a standard product or a customised special production: every product launched has undergone a demanding development process. Only once the prototypes have been thoroughly tried and tested does production begin.

Perfect projects
We turn challenging projects into success stories. That is what drives us. From fibre optic networks and control cables to power supply, you can put your trust in the infrastructure and product expertise of our outstanding project teams. Benefit from expert consulting and an all-round service that leaves nothing to be desired.

With the benefit of local market expertise, we work together closely – to understand what you need, create a precise schedule, develop the right solution for your specific requirements, clarify delivery times and product details, and coordinate logistics. Protect your resources, benefit from our expertise, and reap the rewards.

Logistics

With our Asia Pacific network of 5 major warehouse locations and additional service points across India, our ASEAN presence and stocking partners, plus a global warehouse of 70,000 m2 of storage space in Germany alone, we hold the stocks for all you need – anytime, all the time.

Reliably connecting the world

Who actually likes waiting for a product or service? We won't leave you hanging – we offer speedy delivery to anywhere in the world. After all, we have a close-knit network of logistics centres. With the finest in high-tech quality, we guarantee a smooth delivery service.

Logistic Services

Find out about our range of logistic services. Simple length cutting straight from our drum packaging, scheduled order, special packaging or special import documentation, customised labels and much more. If you can't find an appropriate solution for your needs, we are happy to advise you personally.

8 Brands

Uncompromising quality — worldwide

ÖLFLEX®
Power and control cables

ÖLFLEX® has become synonymous with power and control cables. Our flexible and oil-resistant cables satisfy the highest demands and can withstand even the very toughest conditions.

UNITRONIC®
Data communication systems

Our high-quality UNITRONIC® data network cables and field bus components provide a forward-looking solution for all applications in industrial machinery and plant engineering. From transmission of simple control signals to field bus signals in complex network structures – we offer a dependable cabling and connection solution for almost every situation.

ETHERLINE®
Data communication systems for ETHERNET technology

Our ETHERLINE® branded products open up a secure, fast and reliable path to the future of Ethernet appliacations, e. g. PROFINET®. The systems are made up of durable and robust cables and connection components for passive and active network technology, and deliver an effective solution for almost any application, particularly in an industrial environment.

HITRONIC®
Optical transmission systems

HITRONIC® fibre optic cables make transmitting large data volumes easy: fault free, bug proof and at almost light speed. Even electromagnetic radiation does not interfere with the transmission. The HITRONIC® range includes the ideal solution for indoor or outdoor use, for demanding conditions, and even for use in power chains.

EPIC®
Industrial connectors

EPIC® industrial connectors can be found everywhere in industrial machinery and plant engineering, for measuring, control and drives. EPIC® is a flexible system of housings, inserts and contacts: all extremely robust, absolutely safe and simplicity itself to assemble.

SKINTOP®
Cable glands

Simply feed in the cable and twist. That's it. Our SKINTOP® cable glands provide secure connections in no time. The universal systems are simple but effective. They secure and centre the cable, hermetically seal it and guarantee optimum strain relief.

SILVYN®
Protective cable conduit systems and cable carrier systems

The universal range of SILVYN® protection and guidance systems protect cables effectively against dust, moisture, mechanical, thermal and chemical influences. The versatile SILVYN® CHAIN range of energy supply chains also protects and guides cables in dynamic applications.

FLEXIMARK®
Marking systems

The requirement: permanent marking. The solution: FLEXIMARK®. These sophisticated systems mean that a clear overview inside a control cabinet is no longer just a pipe dream. From simple labels for manual marking through to electronic markings, the FLEXIMARK® range is guaranteed to be permanent.

ÖLFLEX®

Power and control cables

ÖLFLEX® has become synonymous with power and control cables. Our flexible and oil-resistant cables satisfy the highest demands and can withstand even the very toughest conditions.

Application range

- Industrial machinery, machine tools, plant and equipment engineering
- Measurement, control, heating and air conditioning systems
- Wind power and photovoltaic systems
- Public buildings, airports and stations
- Medical technology, chemical industry, composting plants and sewage works
- Food and beverage industry
- Power drive systems
- Robot applications
- Railway applications

ÖLFLEX® 100 I

ISI marked PVC cable

Info

- ISI marked cable

Benefits

- Space-saving installation due to small cable diameter
- High electrical performance due to 3 kV test voltage

Application range

- Plant engineering and installation, Industrial machinery
- Power circuit for Air conditioning installations
- Main power circuit to individual apartments
- Dry or damp interiors under medium mechanical load conditions
- For fixed installation as well as occasional flexing at free, non-continuously recurring movement without tensile load

Product features

- Flame retardant: According to IEC 60332-1 / IS 10810-53

Norm references / Approvals

- IS:694:2010

Product Make-up

- Conductor : Bare copper wires of fine strands
- Insulation : PVC
- Outer Sheath:
  i) PVC
  ii) PVC FR-LSH

Technical data

Core identification code
Coloured

Conductor stranding
Bare copper, fine wire strand class 5 in acc. to IS 8130-1984

Minimum bending radius
Occasional fixing Installation: 15 x cable OD, Fixed installation: 4 X Cable OD

Nominal voltage
UM : 1100, Up to and including 1100 V in acc. to IS 694:2010

Temperature range
-15°C up to +70°C

ÖLFLEX® 100 I CY

Colour coded screened PVC power and control cable

Info

- EMC - Compliant

Benefits

- EMC Compliant
- High electrical performance due to 4 kV test voltage

Application range

- Plant engineering and installation, Industrial machinery
- Power circuit for Air conditioning installations
- Main power circuit to individual apartments
- Fixed Installation
- For fixed installation as well as occasional flexing at free, non-continuously recurring movement without tensile load

Product features

- Flame retardant: According to IEC 60332-1

Product Make-up

- Conductor : Bare copper wires of fine strands
- Insulation : PVC
- Inner Sheath : PVC
- Copper braid with approx. 65% coverage
- Outer Sheath:
  i) PVC
  ii) PVC FR-LSH

ÖLFLEX® 100 I SY

Colour coded PVC power and control cable with steel wired braiding

Info

- Steel wire Braiding for extra mechanical protection

Benefits

- Extra mechanical protection due to braided steel wire
- High electrical performance due to 4 kV test voltage

Application range

- Plant engineering and installation, Industrial machinery
- Power circuit for Air conditioning installations
- Main power circuit to individual apartments
- Area with high mechanical stress
- Fixed installation

Product features

- Flame retardant: According to IEC 60332-1

Product Make-up

- Conductor : Bare copper wires of fine strands
- Insulation : PVC
- Inner Sheath : PVC
- Steel wire braid
- Outer Sheath:

CE

YSLCY

PVC insulated/sheathed and numbered cores

Info

- EMC environment
- Slim and light, without inner sheath

Benefits

- Space saving due to small cable diameter

Application range

- Used as a connection cable for measuring, monitoring and control connections in industrial machineries, heating and air refrigeration systems, office equipment, etc.
- Dry or damp interiors under medium mechanical load conditions
- Fixed installations as well as for occasional flexing at free, non-continuously recurring movement without tensile load
- Suitable in EMC-critical environments

Product features

- Flame-retardant acc. to IEC 60332-1-2
- With or without protective conductor gn/ye

Product Make-up

- Fine strands of bare copper wires
- PVC core insulation
- Plastic foil wrapping
- Tinned copper wire screen braiding
- PVC outer sheath, grey or black

Technical data

Classification
ETIM 5.0 Class-Description: Control cable
ETIM 5.0 Class-ID: EC000104

Core identification code
Black core with white numbers

Conductor stranding
Fine wire acc. to IEC 60228 Cl.5

Minimum bending radius
Occasional flexing: 25 x outer diameterFixed installation: 12 x outer diameter

Nominal voltage
U_0/U: 300/500 V

Protective conductor
G = with protective conductor GN/YE;
X = without protective conductor

Temperature range
Fixed installation: -20°C to +70°C

NEW

LV (N)2XY FR

Info

- Low voltage power and control cable
- Stranded copper conductor According to IEC60228 Cl.2
- Unarmoured, XLPE Insulation, PVC Outer sheath cable

Benefits

- Maintain high insulation resistance for heat and moisture exposed environments
- Applied to copper conductor, which is conductivity rate than aluminum conductor
- Easy installation due to small cable diameter
- High flame retardancy cable

Application range

- For main power distribution and lighting circuits in residential, industrial and commercial areas
- Fixed for power and control circuits and applicable for the connection of telecom power supply
- Cable tray and wiring board in factory

Product features

- Flame retardant according to IEC 60332-1-2 and IEC 60332-3-24 (CAT.C)
- Cable material according to IEC 60502-1
- Cable test according to IEC 60811

Norm references / Approvals

- Cable design according to IEC 60502-1
- Conductor design according to IEC60228 class 2

Product Make-up

- Conductor : Stranded made of bare copper
- Core insulation: Cross-Linked Polyethylene (XLPE)
- Core insulation colour : Core Identification code according to VDE 0293-308
- Outer sheath : Polyvinyl Chloride (PVC, ST2)
- Outer sheath colour: Black

Technical data

Conductor stranding
Stranded made of bare copper wire (Design acc.to IEC60228 Cl.2)

Minimum bending radius
Fixed installation: 8 x cable diameter

Nominal voltage
AC U_0/U: 0.6/1 KV

Temperature range
-15° C up to +90 °C max. conductor temperature

NEW

LV (N)2XYRY FR

Info

- Low voltage power and control cable
- Stranded copper conductor According to IEC60228 Cl.2
- Armoured, XLPE Insulation, PVC Inner / Outer sheath cable

Benefits

- Maintain high insulation resistance for heat and moisture exposed environments
- Applied to copper conductor, which is conductivity rate than aluminum conductor
- Easy installation due to small cable diameter
- High flame retardancy cable

Application range

- For main power distribution and lighting circuits in residential, industrial and commercial areas
- Fixed for power and control circuits and applicable for the connection of telecom power supply
- Cable tray and wiring board in factory

Product features

- Flame retardant according to IEC 60332-1-2 and IEC 60332-3-24 (CAT.C)
- Cable material according to IEC 60502-1
- Cable test according to IEC 60811

Norm references / Approvals

- Cable design according to IEC 60502-1
- Conductor design according to IEC60228 class 2

Product Make-up

- Conductor : Stranded made of bare copper
- Core insulation: Cross-Linked Polyethylene (XLPE)
- Core insulation colour : Core Identification code according to VDE 0293-308
- Inner sheath : Polyvinyl Chloride (PVC, ST2)
- Armoured : Aluminium wire (Single core) or Galvanized wire (Multi core)
- Outer sheath : Polyvinyl Chloride (PVC, ST2)
- Outer sheath colour: Black

Technical data

Conductor stranding
Stranded made of bare copper wire (Design acc.to IEC60228 Cl.2)

Minimum bending radius
Fixed installation: 10 x cable diameter

Nominal voltage
AC U_0/U: 0.6/1 KV

Temperature range
-15° C up to +90 °C max. conductor temperature

NEW

H05RR-F / 60245 IEC 53(YZ) / YZ

Rubber cable for light mechanical stress and handheld devices used in households, kitchens, offices

Info

- CCC and VDE dual certified

Application range

- Hand-held and power supply devices
- For dry and damp interiors, only temporary use outdoors; not for industrial/commercial or agricultural facilities; not suitable for supplying industrial power tools
- Light and sound applications
- Light duty rubber-sheath cable
- For light workshop devices with light stress

Product features

- Flame-retardant in acc. to IEC 60332-1-2

Norm references / Approvals

- <VDE> cable type certification in acc. to EN 50525-2-21
- CCC cable type certification in acc. to GB/T 5013.4 or JB/T 8735.2
- Complies with IEC 60245.4

Product Make-up

- Fine strands of bare copper wires
- Rubber type EI4 core insulation
- Rubber type EM3 outer sheath, black

Technical data

Core identification code
acc. to VDE 0293-308

Conductor stranding
Fine wire acc. to IEC 60228 Cl. 5

Minimum bending radius
6 x cable diameter

Nominal voltage
U_0/U: 300/500 V

Test voltage
2000 V

Protective conductor
G = with GN-YE protective conductor
X = without protective conductor

Temperature range
-25°C up to +60°C

NEW

H05RN-F / 60245 IEC 57(YZW)

Rubber cable for handheld devices and chains of decorative lights

Info

- CCC and VDE dual certified

Application range

- For supplying devices in households, kitchens or offices under light mechanical stress; handheld inspection lamps
- For dry and damp interiors, as well as for limited outdoor use
- Medium duty rubber-sheath cable
- For lightweight workshop tools subject to medium loads

Product features

- Flame-retardant in acc. to IEC 60332-1-2
- Oil-resistant according to EN 60811-404

Norm references / Approvals

- <VDE> cable type certification in acc. to EN 50525-2-21
- CCC cable type certification in acc. to GB/T 5013.4
- Complies with IEC 60245.4

Product Make-up

CE

LAPP KABEL X01N2-D

Info

- Arc welding cable acc. to EN-50525-2-81

Application range

- For transmitting high currents from the electric welding device to the welding tool
- Can be used in dry or damp rooms

Product features

- Flame retardant acc. to IEC 60332-1-2

Product Make-up

- Fine strands of bare copper wires
- Stranding approximately corresponds to class 6 for up to 95 mm², and class 5 for sizes from 120 mm²
- Separator made of PET tape
- EPR compound covering, type EM5
- Covering colour in black or orange

Technical data

Minimum bending radius
12 x cable diameter

Nominal voltage
U_0/U: 100/100 V

Test voltage
1000 V

Temperature range
-25°C to +85°C

ÖLFLEX® INSTRUM RE-2X(ST)Y

Info

- Un-armoured XLPE insulation
- Overall Screen

Application range

- For communication, data and voice transmission signal in industrial process manufacturing plants
- Oil and Gas industry
- Petrochemical industry
- Generally used for indoor installation and suitable for wet and damp areas
- The Blue outer sheath is suitable for use with Group 2 Intrinsically Safe (IS) systems in hazardous areas where the voltage range is <50 VAC / <75 VDC

Product features

- Flame retardant in acc. to IEC 60332-3-24

Norm references / Approvals

- Based on EN 50288-7

Product Make-up

- Stranded plain annealed copper wires
- XLPE core insulation
- Pairs are collectively screened with aluminium polyester tape
- Tinned copper drain wire
- PVC outer sheath, black or blue

ÖLFLEX® INSTRUM RE-2X(ST)YRY

Info

- Armoured XLPE insulation
- Overall Screen

Application range

- For communication, data and voice transmission signal in industrial process manufacturing plants
- Oil and Gas industry
- Petrochemical industry
- Generally used for indoor installation and suitable for wet and damp areas
- The Blue outer sheath is suitable for use with Group 2 Intrinsically Safe (IS) systems in hazardous areas where the voltage range is <50 VAC / <75 VDC

Product features

- Flame retardant in acc. to IEC 60332-3-24

Norm references / Approvals

- Based on EN 50288-7

Product Make-up

- Stranded plain annealed copper wires
- XLPE core insulation
- Pairs are collectively screened with aluminium polyester tape
- Tinned copper drain wire
- PVC inner sheath, black
- PVC outer sheath, black or blue
- Galvanized steel wire armoured

Technical data

Classification
ETIM 5.0 Class-Description: Control cable

CE

ÖLFLEX® INSTRUM RE-Y(ST)Y PiMF

Info

- Un-armoured PVC (V-90HT) Heat Resistant
- Individual and Overall Screen

Application range

- For communication, data and voice transmission signal in industrial process manufacturing plants
- Oil and Gas industry
- Petrochemical industry
- Generally used for indoor installation and suitable for wet and damp areas
- The Blue outer sheath is suitable for use with Group 2 Intrinsically Safe (IS) systems in hazardous areas where the voltage range is <50 VAC / <75 VDC

Product features

- Flame retardant in acc. to IEC 60332-3-24

Norm references / Approvals

- Based on EN 50288-7

Product Make-up

- Stranded plain annealed copper wires
- PVC (V-90HT) core insulation
- Pairs are individually and collectively screened with aluminium polyester tape
- Tinned copper drain wire
- PVC outer sheath, black or blue

Technical data

Classification
ETIM 5.0 Class-Description: Data cable
ETIM 5.0 Class-ID: EC000104

Core identification code
Pair: black and white
Multipair: black and white with numbers

Conductor stranding
acc. to BS 6360 / IEC 60228 Cl. 2

Minimum bending radius
6 x cable diameter

Nominal voltage
500 V
< 50 VAC / < 75 VDC for Intrinsically Safe (IS) circuits application

Temperature range
-30°C to +105°C

Info

- Armoured PVC (V-90HT) Heat Resistant
- Overall Screen

Application range

- For communication, data and voice transmission signal in industrial process manufacturing plants
- Oil and Gas industry
- Petrochemical industry
- Generally used for indoor installation and suitable for wet and damp areas
- The Blue outer sheath is suitable for use with Group 2 Intrinsically Safe (IS) systems in hazardous areas where the voltage range is <50 VAC / <75 VDC

Product features

- Flame retardant in acc. to IEC 60332-3-24

Norm references / Approvals

- Based on EN 50288-7

Product Make-up

- Stranded plain annealed copper wires
- PVC (V-90HT) core insulation
- Pairs are collectively screened with aluminium polyester tape
- Tinned copper drain wire
- PVC inner sheath, black
- PVC outer sheath, black or blue
- Galvanized steel wire amoured

CE

ÖLFLEX® INSTRUM RE-Y(ST)YRY PiMF

Info

- Armoured PVC (V-90HT) Heat Resistant
- Individual and Overall Screen

Application range

- For communication, data and voice transmission signal in industrial process manufacturing plants
- Oil and Gas industry
- Petrochemical industry
- Generally used for indoor installation and suitable for wet and damp areas
- The Blue outer sheath is suitable for use with Group 2 Intrinsically Safe (IS) systems in hazardous areas where the voltage range is <50 VAC / <75 VDC

Product features

- Flame retardant in acc. to IEC 60332-3-24

Norm references / Approvals

- Based on EN 50288-7

Product Make-up

- Stranded plain annealed copper wires
- PVC (V-90HT) core insulation
- Pairs are individually and collectively screened with aluminium polyester tape
- Tinned copper drain wire
- PVC inner sheath, black
- PVC outer sheath, black or blue
- Galvanized steel wire amoured

Technical data

Classification
ETIM 5.0 Class-Description: Data cable
ETIM 5.0 Class-ID: EC000104

Core identification code
Pair: black and white
Multipair: black and white with numbers
Multicore: black with numbers

Conductor stranding
acc. to BS 6360 / IEC 60228 Cl. 2

Minimum bending radius
10 x cable diameter

Nominal voltage
500 V
< 50 VAC / < 75 VDC for Intrinsically Safe (IS) circuits application

Temperature range
-30°C to +105°C

ÖLFLEX® VSD ULTRA YSLCY

EMC-optimised cable for variable speed drives, double screened

Info

- Rated voltage U0 /U: 0.6/1 kV

Benefits

- High power transmission for large drives
- Symmetrical 3+3 Version supports the reduction of damaging bearing currents
- Suitable for outdoor use

Application range

- Connecting cable between frequency converter and motor
- In dry, damp or wet interiors

Product features

- Flame-retardant according IEC 60332-1-2

Norms references / Approvals

- Based on VDE 0276-603, HD 603 S1, AS/NZS 5000.1

Product Make-up

- Fine-wire, bare copper conductor
- Core insulation: PVC
- Cores twisted concentrically (symmetrically splitted protective conductor of 3+3 version is gusset-filling divided between the power cores)
- Screening: wrapping of copper foil in combination with tinned copper braiding
- PVC outer sheath, black

Technical data

Conductor stranding
Fine wire according to VDE 0295 Class 5/ IEC 60228 Class 5

Minimum bending radius
Fixed installation: 4 x outer diameter

Nominal voltage
U_0/U: 0.6/1kV

Test voltage
4000 V

Temperature range
Fixed installation: -15°C to +90°C

ÖLFLEX® CLEANROOM FD 8661 MC

Info

- Low voltage power and control cable for CLEANROOM
- Improved characteristic in the moving performance

Benefits

- High performance moving solution
- Zero particle emission at moved chain application
- Easy installation due to small cable diameter

Application range

- In power chains or moving machine parts
- Suitable for use in measuring, control and requlating circuits
- Assembly lines, production lines, in all kinds of machines
- High mechanical stress in CLEANROOM conditions

Norm references / Approvals

- CLEANROOM classification for IPA Class 1

Product features

- Low-adhesive surface
- No dust emission

Product Make-up

- Conductor : Extra-fine wire strand made of class 6 tinned copper or bare copper wires
- Core insulation : TPE compound
- Core insulation colour : White
- Outer sheath : TPV compound
- Outer sheath colour : Black

Technical data

Conductor stranding
extra flexible tinned copper strands according to class 6 up to 0.34 mm² and extra flexible bare copper strands for cross section over 0.34mm²

Minimum bending radius
For flexible use: 7.5 x outer diameter
Fixed installation: 4 x cable diameter

Rated voltage
300/500 V

Test voltage
1500 V

Temperature range
Flexing: -30°C up to +80 °C

ÖLFLEX® CLEANROOM FD 8661 TP D

Info

- Low voltage power and control cable for CLEANROOM
- Improved characteristic in the moving performance

Benefits

- High performance moving solution
- Zero particle emission at moved chain application
- Easy installation due to small cable diameter

Application range

- In power chains or moving machine parts
- Suitable for use in measuring, control and requlating circuits
- Assembly lines, production lines, in all kinds of machines
- High mechanical stress in CLEANROOM conditions

Norm references / Approvals

- CLEANROOM classification for IPA Class 1

Product features

- Low-adhesive surface
- No dust emission

Product Make-up

- Conductor : Extra-fine wire strand made of class 6 tinned copper or bare copper wires
- Core insulation : TPE compound
- Core insulation colour : White
- Twist Pair structure
- Wapping of Teflon tape
- Spiral shield made of tinned copper wires
- Outer sheath : TPV compound
- Outer sheath colour : Black

Technical data

Conductor stranding
extra flexible tinned copper strands according to class 6 up to 0.34 mm² and extra flexible bare copper strands for cross section over 0.34mm²

Minimum bending radius
For flexible use: 7.5 x outer diameter
Fixed installation: 4 x cable diameter

Rated voltage
300/500 V

Test voltage
1500 V

Temperature range
Flexing: -30°C up to +80 °C

ÖLFLEX® FIRE 6387 SC

Fire resistant cables

Info

- Fire test certified and approved to BS 6387 Cat. CWZ
- Conforms to SS 299 PLS Class 1A
- Single-core power cable, 0.6/1 kV

Application range

- Specially designed to be use for wiring applications in critical life safety system in public and industrial buildings such as airports, hotels, hospitals, subways, train stations, etc.
- In building management systems, emergency lightings, standby power supplies, lifts and elevators
- Plant engineering and construction, industrial machinery, power station

Product features

- Flame retardant acc. to IEC 60332-1-2 and to IEC 60332-3-22
- Halogen free acc. to IEC 60754-1
- Acid and corrosive gases acc. to IEC 60754-2
- Smoke density test acc. to IEC 61034

Norm references / Approvals

- Fire test certified and approved to BS 6387 Cat. CWZ
- Conforms to SS 299 PLS Class 1A
- Approved to IEC 60332-3-22 Cat. A

Product Make-up

- Stranded plain annealed copper wire
- Mica based fire resistance tape
- LSHF insulation - flame retardant
- Colour: orange

Technical data

Classification
ETIM 5.0 Class-Description: Low voltage power cable
ETIM 5.0 Class-ID: EC000057

Conductor stranding
acc. to IEC 60228 Cl. 2

Minimum bending radius
10 x cable diameter

Nominal voltage
U_0/U: 600/1000 V

Temperature range
-15°C to +85°C

Article number	Conductor cross-section (mm^2)	Outer diameter [mm]	Copper index (kg/km)	Weight (kg/km)

ÖLFLEX® FIRE 6387 SC TWISTED

Fire resistant cables

Application range

- Specially designed to be use for wiring applications in critical life safety system in public and industrial buildings such as airports, hotels, hospitals, subways, train stations, etc.
- In building management systems, emergency lightings, standby power supplies, lifts and elevators

Product features

- Flame retardant acc. to IEC 60332-1-2 and to IEC 60332-3-22
- Halogen free acc. to IEC 60754-1
- Acid and corrosive gases acc. to IEC 60754-2
- Smoke density test acc. to IEC 61034

Norm references / Approvals

- Fire test certified and approved to BS 6387 Cat. CWZ, and SS 299 PLS Class 1A, reference to FR-6387 SC 1x1.5mm2 , PN: 3806502

Product Make-up

- Stranded plain annealed copper wire
- Mica based fire resistance tape
- LSHF insulation - flame retardant
- 2 single-core wire twisted together
- Colour: Black/Red

Info

- Fire test certified and approved to BS 6387 Cat. CWZ, and SS 299 PLS Class 1A, reference to FR-6387 SC 1x1.5mm^2, PN: 3806502
- 2 single-core wire twisted, 0.6/1kV

ÖLFLEX® FIRE 6387 MC

Fire resistant cables

Info

- Fire test certified and approved to BS 6387 Cat. CWZ
- Conforms to SS 299 PLS Class 1A
- Multicore power cable, 0.6/1 kV

Application range

- Specially designed to be use for wiring applications in critical life safety system in public and industrial buildings such as airports, hotels, hospitals, subways, train stations, etc.
- In building management systems, emergency lightings, standby power supplies, lifts and elevators
- Plant engineering and construction, industrial machinery, power station

Product features

- Flame retardant acc. to IEC 60332-1-2 and to IEC 60332-3-22
- Halogen free acc. to IEC 60754-1
- Acid and corrosive gases acc. to IEC 60754-2
- Smoke density test acc. to IEC 61034

Norm references / Approvals

- Fire test certified and approved to BS 6387 Cat. CWZ
- Conforms to SS 299 PLS Class 1A
- Approved to IEC 60332-3-22 Cat. A

Product Make-up

- Stranded plain annealed copper wire
- Mica based fire resistance tape
- XLPE insulation
- LSHF outer sheath
- Colour: orange

ÖLFLEX® CLEANROOM FD 8110

Info

- Low voltage power and control cable for CLEANROOM
- Stranded copper conductor according to IEC60228 Cl.6
- Unarmoured, PVC Insulation, PVC Outer sheath cable

Benefits

- Cost-effective solution
- Zero particle emission at moved chain application
- Easy installation due to small cable diameter
- Well-proven and reliable

Application range

- In power chains or moving machine parts
- Suitable for use in measuring, control and requlating circuits
- Assembly lines, production lines, in all kinds of machines
- CLEANROOM

Norm references / Approvals

- CLEANROOM classification for IPA Class 1

Product features

- Flame retardant according to IEC 60332-1-2
- Low-adhesive surface
- Power Chain application

Product Make-up

- Conductor : Extra-fine wire strand made of bare copper wires (class 6)
- Core insulation : Polyvinyl Chloride
- Core insulation colour : Black
- Outer sheath : Polyvinyl Chloride
- Outer sheath colour : Black

Technical data

Conductor stranding
Stranded made of bare copper wire (Design acc.to IEC60228 Cl.6)

Minimum bending radius
For flexible use: 7.5 x outer diameter
Fixed installation: 4 x cable diameter

Rated voltage
300/500 V

Test voltage
4000 V

Temperature range
Flexing: 0°C up to +70 °C
Fixed installation: -40°C up to +80°C

ÖLFLEX® CLEANROOM FD 8110 C

Info

- Low voltage power and control cable for CLEANROOM
- Stranded copper conductor according to IEC60228 Cl.6
- Sheidled, PVC Insulation, PVC Outer sheath cable

Benefits

- Cost-effective solution
- Zero particle emission at moved chain application
- Easy installation due to small cable diameter
- Well-proven and reliable

Application range

- In power chains or moving machine parts
- Suitable for use in measuring, control and requlating circuits
- Assembly lines, production lines, in all kinds of machines
- CLEANROOM

Norm references / Approvals

- CLEANROOM classification for IPA Class 1

Product features

- Flame retardant according to IEC 60332-1-2
- Low-adhesive surface
- Designed for travel distances up to 10 meters, traval speeds up to 10 m/s

Product Make-up

- Conductor : Extra-fine wire strand made of bare copper wires (class 6)
- Core insulation : Polyvinyl Chloride
- Core insulation colour : Black
- Tinned-copper braiding
- Outer sheath : Polyvinyl Chloride
- Outer sheath colour : Black

Info

- Low voltage power and control cable for CLEANROOM
- Improved characteristic in the moving performance

Benefits

- High performance moving solution
- Zero particle emission at moved chain application
- Easy installation due to small cable diameter

Application range

- In power chains or moving machine parts
- Suitable for use in measuring, control and requlating circuits
- Assembly lines, production lines, in all kinds of machines
- High mechanical stress in CLEANROOM conditions

Norm references / Approvals

- CLEANROOM classification for IPA Class 1

Product features

- Low-adhesive surface
- No dust emission

Product Make-up

- Conductor : Extra-fine wire strand made of class 6 tinned copper or bare copper wires
- Core insulation : TPE compound
- Core insulation colour : White
- Outer sheath : TPV compound
- Outer sheath colour : Black

Technical data

Conductor stranding
extra flexible tinned copper strands according to class 6 up to 0.34 mm² and extra flexible bare copper strands for cross section over 0.34mm²

Minimum bending radius
For flexible use: 7.5 x outer diameter
Fixed installation: 4 x cable diameter

Rated voltage
300/500 V

Test voltage
1500 V

Temperature range
Flexing: -30°C up to +80 °C

ÖLFLEX® CLEANROOM FD 8661 MC D

Info

- Low voltage power and control cable for CLEANROOM
- Improved characteristic in the moving performance
- Spiral copper shield

Benefits

- High performance moving solution
- Zero particle emission at moved chain application
- Easy installation due to small cable diameter
- Copper shielding protects against electomagnetic interference

Application range

- In power chains or moving machine parts
- Suitable for use in measuring, control and requlating circuits
- Assembly lines, production lines, in all kinds of machines
- High mechanical stress in CLEANROOM conditions

Norm references / Approvals

- CLEANROOM classification for IPA Class 1

Product features

- Low-adhesive surface
- No dust emission

Product Make-up

- Conductor : Extra-fine wire strand made of class 6 tinned copper or bare copper wires
- Core insulation : TPE compound
- Core insulation colour : White
- Wapping of Teflon tape
- Spiral shield made of tinned copper wires
- Outer sheath : TPV compound
- Outer sheath colour : Black

Technical data

Conductor stranding
extra flexible tinned copper strands according to class 6 up to 0.34 mm² and extra flexible bare copper strands for cross section over 0.34mm²

Minimum bending radius
For flexible use: 7.5 x outer diameter
Fixed installation: 4 x cable diameter

Rated voltage
300/500 V

Test voltage
1500 V

Temperature range
Flexing: -30°C up to +80 °C

ÖLFLEX® CLEANROOM FD 8661 TP D FR

Info

- Low voltage power and control cable for CLEANROOM
- Improved characteristic in the moving performance

Benefits

- High performance moving solution
- Zero particle emission at moved chain application
- Easy installation due to small cable diameter

Application range

- In power chains or moving machine parts
- Suitable for use in measuring, control and requlating circuits
- Assembly lines, production lines, in all kinds of machines
- High mechanical stress in CLEANROOM conditions

Norm references / Approvals

- CLEANROOM classification for IPA Class 2

Product features

- Low-adhesive surface
- No dust emission
- IEC 60332-1-2 flame retardant

Product Make-up

- Conductor : Extra-fine wire strand made of class 6 tinned copper or bare copper wires
- Core insulation : TPE compound
- Core insulation colour : White
- Twist Pair structure
- Wapping of Teflon tape
- Outer sheath : TPV compound
- Outer sheath colour : Black

Technical data

Conductor stranding
extra flexible tinned copper strands according to class 6 up to 0.34 mm² and extra flexible bare copper strands for cross section over 0.34mm²

Minimum bending radius
For flexible use: 7.5 x outer diameter
Fixed installation: 4 x cable diameter

Rated voltage
300/500 V

Test voltage
1500 V

Temperature range
Flexing: -30°C up to +80 °C

NEW

ÖLFLEX® SOLAR AL FLEX

Info

- Fine-wired aluminum conductor according to ISO 6722, IEC 60228 Class 5.
- Lightweight and economical solar cable.

Benefits

- Less expensive alternative compared to copper conductor
- Easy installation due to light weight aluminum conductor
- Flexible aluminum conductors (class 5 grade) for high workability.
- Insulation and sheath compounds meeting EN 50618 standard. High durability due to high insulation resistance and thermal stability.

Application range

- For cabling between solar modules and as extension cable between module strings
- Gable and flat roof photovoltaic systems
- Photovoltaic plants and solar parks

Product features

- Weathering/UV-resistance according to HD 605/A1. Ozone resistance according to EN 50396
- Flame retardant according to IEC 60332-1-2
- Halogen free according to EN 50267-2-1/-2 & EN 60684-2
- Acid and alkaline resistance according to EN 60811-2-1
- Low smoke density according to EN 61034-2

Norm references / Approvals

- Cable design according to EN 50618
- Conductor design according to ISO 6722-2-B & IEC 60228

Product Make-up

- Conductor: Fine-wire strands of aluminum
- Core insulation: Electron beam cross-linked Polyolefin (XLPO)
- Core colour: White
- Outer sheath : Electron beam cross-linked Polyolefin (XLPO)
- Outer sheath colour: Black & Black with red or blue stripe

Technical data

Conductor stranding
Fine-wire strands of aluminum
Conductor design acc. to ISO 6722-2-B
Resistance acc. to IEC 60228 Cl.5

Minimum bending radius
Fixed installation: 5 x cable diameter

Nominal voltage
DC 1500 V

Temperature range
Fixed installation: -40 °C up to +120°C
max. conductor temperature

NEW

LAPP KABEL 0.6 / 1KV TFR-CV / AL

Info

- Lightweight and economical power cable with aluminum conductor to meet IEC 60502-1 specifications

Benefits

- Less expensive alternative compared to copper conductor
- Easy installation due to light weight aluminum conductor

Application range

- Power cable with excellent flame retardance

Product features

- Flame retardant acc. to IEC 60332-3-24
- Voltage test acc. to IEC 60502-1 (3.5kV/5mins)

Norm references / Approvals

- KC certified according to IEC 60502-1

Product Make-up

- Conductor: Aluminum stranded conductor (Class 2)
- Core insulation: Cross-Linked Polyethylene (XLPE)
- Core insulation colour: Natural color
- Outer sheath : Flame retardant PVC
- Outer sheath colour: Black

Technical data

Conductor stranding
Aluminum conductor acc. to IEC 60228 Class 2

Minimum bending radius
Fixed installation: 10 x outer diameter

Nominal voltage
AC U_0/U: 0.6/1 KV

Temperature range
Fixed installation: up to +90 °C

NEW

SOLAR AL FLEX WP

Info

- Optimised cable design for constant high volume resistance
- Fine wired Aluminum conductor According to ISO6722, IEC60228 Cl.5
- Lightweight and economical solar cable

Benefits

- Maintain high volume resistance for heat and moisture exposed environments
- Applied to aluminum conductor, which is less expensive than copper conductor
- Easy installation due to light weight aluminum conductor than copper conductor
- Flexible aluminum conductors (class 5 grade) for high workability
- Use of insulation & sheath compound meeting EN50618, the new TuV certification standard
- High durability due to high insulation resistance and thermal stability

Application range

- For installation in conduits, in which heat and moisture can accumulate
- For the cabling between the solar modules and as extension cable between the module strings
- Gable and flat roof photovoltaic systems
- Photovoltaic plants and solar parks

Product features

- Flame retardant according to IEC 60332-1-2
- Halogen free according to EN 50267-2-1/-2 & EN 60684-2
- Ozone resistance according to EN 50396
- Weathering/UV-resistance according to HD 605/A1
- Long term resistance of insulation to d.c according to EN 50395
- Low smoke density according to EN 61034-2

Norm references / Approvals

- Cable design according to EN 50618
- Conductor design according to ISO6722-2-B & IEC60228

Product Make-up

- Conductor: Fine wire strands of Aluminum conductor
- Core insulation: Electron beam cross-linked Polyolefin (XLPO)
- Core insulation colour: White
- Outer sheath : Electron beam crosslinked Polyolefin (XLPO)
- Outer sheath colour: Black

Technical data

Conductor stranding
Fine wire strands of Aluminum conductor (Design acc.to ISO6722-2-B, resistance acc.to IEC60228 Cl.5)

Minimum bending radius
Fixed installation: 5 x cable diameter

Rated voltage
DC1500 V

Test voltage
AC 6500 V

Range of temperature
Fixed installation:
-40° C up to +120 °C
max. conductor temperature

ÖLFLEX® SOLAR XLR-E

Cross-linked solar cables - type H1Z2Z2-K certified according to EN 50618

Info

- H1Z2Z2-K (code designation according to EN 50618)
- Substitudes previous ÖLFLEX® SOLAR XLR-R

Benefits

- Robust against mechanical impacts
- For outdoor applications
- Extruded colour stripe serves as reverse polarity protection during installation.
- Exact quantity control during installation by meter marking on the cable sheath
- Reduction of flame propagation and of toxic combustion gases in the event of fire

Application range

- For use in photovoltaic-systems with rated voltage 1500 V DC
- For the cabling between the solar modules and as extension cable between the module strings and the DC/AC inverter
- Gable and flat roof photovoltaic systems
- Photovoltaic plants and solar parks
- Not suitable for direct burial, Installation according to IEC 60364-5-52, respectively HD 60364-5-52

Product features

- Halogen-free and flame-retardant
- Weather/UV-resistant acc. to EN 50618, appendix E
- Ozone-resistant according to EN 50396
- XLR-E = X-Linked Radiated-EN Standard Proven electron beam cross-linked quality

Norm references / Approvals

- H1Z2Z2-K (code designation according to EN 50618)
- Items with other cross-sections on request

Product Make-up

- Fine-wire, tinned-copper conductor
- Core insulation made of electron beam cross-linked copolymer
- Colour of core insulation: white
- Outer sheath made of electron beam cross-linked copolymer
- Outer sheath colour: black

Technical data

Classification
ETIM 5.0 Class-ID: EC001578
ETIM 5.0 Class-Description: Flexible cable

Conductor stranding
Fine wire according to VDE 0295, class 5/IEC 60228 class 5

Minimum bending radius
Fixed installation: 4 x outer diameter

Nominal voltage
AC U_0/U : 1,0/1,0 kV
DC U_0/U : 1,5/1,5 kV
Max. permissible operating voltage: DC 1,8 kV

Test voltage
AC 6500 V

Current rating
Im compliance with EN 50618, Table A.3

Temperature range
-40°C to +120°C max. conductor temperature based on EN 60216-1
Ambient temperature range according to EN 50618: -40°C to +90°C

ÖLFLEX® UNIPLUS HFFR Z

ISI Marked Halogen free flame retardant single core for control cabinet or panel wiring

Info

- Standard lengths available in 100m, 500m

Benefits

- ISI Marked
- Protection of human life and the environment, thanks to the avoidance of the formation of acid and smoke in case of fire

Application range

- For wiring of lamps, devices, switch gear cabinets and distribution boxes
- For installation in tubes, on, in and under plaster as well as in closed installation ducts
- In application area with a high density of people or valuable assets for increased safety
- For use in dry rooms

Product features

- High conductivity
- Halogen free
- Flammability - IEC 60332.1

Norm references / Approvals

- ISI marked and certified to IS 17048

Product Make-up

- Conductor: Flexible annealed bare copper
- Core installation: Zero Halogen compound

Technical data

Conductor stranding
Class V
According to IS 8130/ IEC 60228

Minimum bending radius
Occasional flexing - 8 x cable diameter

Rated voltage
1100 V

Test voltage
3000 V

Current rating
In acc. IS 3961 Part-5

Temperature range
Fixed installation: -5°C to +70°C

NEW

ÖLFLEX® UNIPLUS FR

ISI Marked PVC insulated single core

Info

- ISI marked

Benefits

- IS compliant ISI Marked
- Time-saving assembly

Application range

- For wiring of lamps, devices, switch gear cabinets and distribution boxes
- For installation in tubes, as well as in closed installation ducts or protected installations
- For use in dry rooms

Product features

- Flame retardant (FR)- IEC 60332.1/IS 10810-53

Norm references / Approvals

- IS 694:2010

Product Make-up

- Stranded Annealed Bare copper
- PVC compound type D in acc. to IS 5831:1984

Technical data

Core identification code
Coloured

Conductor stranding
Fine wire stranded Class 5 in acc. to IS 8130-1984/IEC 60228

Minimum bending radius
6 X OD

Nominal voltage
Up to and including 1100 V in acc. to IS 694:2010

Temperature range
Up to +70°C for fixed installations

ÖLFLEX® UNIPLUS FR-LSH

ISI Marked PVC FR-LSH insulated single core

Info

- ISI marked with FRLSH properties

Benefits

- IS compliant ISI Marked
- Time-saving assembly
- Safe for human life and the environment thanks to the reduced smoke and halogen in case of fire
- Internal wiring of devices

Application range

- For wiring of lamps, devices, switch gear cabinets and distribution boxes
- For installation in tubes, as well as in closed installation ducts or protected installations
- For use in dry rooms
- In application area with a high density of people or valuable assets

Product features

- Flame retardant (FR)- IEC 60332.1/IS 10810-53
- Low smoke and low halogen (LSH) : as per data sheet

Norm references / Approvals

- IS 694:2010

Product Make-up

- Stranded Annealed Bare copper
- PVC FR-LSH Type D in Acc. To IS 5831:1984

NEW

ÖLFLEX® UNIPLUS TRI

TRI Rated Single core, British - BS 6231 type CK, USA - UL Recognised (AWM), Canada - CSA (TEW) Hookup wire

Info

- Multi-standard single core BS-6231, UL-CSA
- Conforms to BS for higher voltage range 1000V
- Higher maximum conductor temperature 1050 deg C according to UL

Benefits

- For use in the most important global markets
- Reduction in technical documentation
- Increase cost effectiveness of production process
- Time-saving assembly

Application range

- Factory wiring
- Field wiring
- Internal wiring of appliances
- Control cabinet wiring

Product features

- Flame retardant acc. to IEC 60332-1-2
- Flame retardant according to UL VW1 & CSA FT1
- Oil-resistant to 60°C

Norm references / Approvals

- CPR approved
- BS 6231 Type CK
- UL 758
- CSA 22.2 Type TEW

Product Make-up

- Annealed bare copper, Class V in acc. to IEC 60228
- Special PVC compound suitable for 105°C

Technical data

Core identification code
Coloured

Conductor stranding
Annealed bare copper, Class 5 in acc. to IEC 60228

Minimum bending radius
Occasional flexing: 8 x cable OD
Fixed installation: 6 x cable OD

Nominal voltage
BS: 1000V
UL (AWM): 600V

Temperature range
Occasional flexing: -15°C up to +105°C max. conductor temperature
Fixed installation: -30°C up to +105°C max. conductor temperature

H05V-K <VDE>

<VDE> cable type certification

Info

- VDE approved

Benefits

- Cables' <VDE> marking is a testing mark/ proof of the successful testing according to VDE/ EN/ HD/ IEC standards as well as possible health and safety regulations. <VDE> is issued by the VDE testing and certification institute.

Application range

- Internal wiring of devices
- Protected installation in and on lighting equipments
- Signal systems in and on plaster in tubes

Product features

- Flame-retardant according IEC 60332-1-2

Norm references / Approvals

- <VDE> cable type certification acc. EN 50525-2-31

Product Make-up

- Fine-wired copper conductor of bare copper strands in line with conductor class 5 acc. IEC 60228
- Core insulation: Based on PVC

Technical data

Classification ETIM 5/6
ETIM 5.0/6.0 Class-ID: EC000993
ETIM 5.0/6.0 Class-Description: Single core cable

Conductor stranding
Fine wire according to VDE 0295 Class 5/ IEC 60228 Class 5

Minimum bending radius
6 x cable diameter

Nominal voltage
U_0/U: 300/500 V

Test voltage
2000 V

Temperature range
Fixed installation: -30°C to +70°C

Conductor Cross-section (mm²)	Outer diameter (mm)	Copper index (kg/km)	Weight (kg/km)	green/ yellow	black	blue	brown	red

- Photographs are not to scale and do not represent detailed images of the respective products.

H07V-K <VDE>

<VDE> cable type certification

Info

- VDE approved

Benefits

- Cables' <VDE> marking is a testing mark/ proof of the successful testing according to VDE/ EN/ HD/ IEC standards as well as possible health and safety regulations. <VDE> is issued by the VDE testing and certification institute.

Application range

- Laying in tubes, exposed or buried in plaster, and in closed installation ducts
- For direct laying on racks, troughs and tubes only as potential equalisation conductor

Product features

- Flame-retardant according IEC 60332-1-2

Norm references / Approvals

- <VDE> cable type certification acc. EN 50525-2-31
- The following colours are not type certified in accordance with EN 50525-1: transparent, green (single colour), yellow (single colour), all double colours (except green-yellow and yellow-green)

Product Make-up

- Fine-wired copper conductor of bare copper strands in line with conductor class 5 acc. IEC 60228
- Core insulation: Based on PVC

Technical data

Classification ETIM 5/6
ETIM 5.0/6.0 Class-ID: EC000993
ETIM 5.0/6.0 Class-Description: Single core cable

Conductor stranding
Fine wire according to VDE 0295 Class 5/ IEC 60228 Class 5

Minimum bending radius
6 x cable diameter

Nominal voltage
U_0/U: 450/750 V

Test voltage
2500 V

Temperature range
Fixed installation: -30°C to +70°C

60227 IEC 05(BV)

Single-core non-sheathed cable with solid conductor for internal wiring for a conductor temperature of 70 °C

Info

- Rated voltage U_0/U: 300/500 V
- With CCC certification

Benefits

- With CCC certification issued by China Quality Certifidation Center

Application range

- Internal wiring of devices and control cabinets
- Protected installation in and on lighting equipment
- Signal systems in and on plaster in tubes

Product features

- Fixed installation temperature down to -40°C
- Flame retardant according to IEC 60332-1-2

Norm references / Approvals

- CCC certificate according to GB/T 5023.3, IEC 60227-3

Product Make-up

- Solid copper conductor according IEC 60228 Class 1, GB/T 3956 Class 1
- Special PVC insulation

Technical data

Conductor stranding
Solid copper conductor according to IEC 60228 Class 1, GB/T 3956 Class 1

Minimum bending radius
4 x outer diameter for fixed installation

Nominal voltage
U_0/U: 300/500 V

Test voltage
2000 V

Temperature range
Fixed installation: -30°C to +80°C

Core identification code
Optional

Protective conductor
Optional

Classification
Optional

60227 IEC 01(BV)

Single-core non-sheathed cable with rigid conductor for general purposes

Info

- Rated voltage U_0/U: 450/750 V
- With CCC certification

Benefits

- With CCC certification issued by China Quality Certification Center

Application range

- Internal wiring of devices and control cabinets
- Laying in tubes, exposed or buried in plaster, and in closed installation ducts
- Factory wiring and Field wiring

Product features

- Fixed installation temperature down to -30°C
- Flame retardant according to IEC 60332-1-2

Norm references / Approvals

- CCC certificate according to GB/T 5023.3, IEC 60227-3

Product Make-up

- Up to 10 mm²: Solid copper conductor according to IEC 60228 class 1, GB/T 3956 Class 1
  From 16 mm²: Multi copper wires stranded according to IEC 60228 Class 2, GB/T 3956 Class 2
- Special PVC insulation

Technical data

60227 IEC 06(RV) / H05V-K

Single-core non-sheathed cable with flexible conductor for general purposes

Info

- Rated voltage U_0/U: 300/500 V
- With CCC certification
- With <VDE> cable type certification

Benefits

- With CCC certification issued by China Quality Certification Center
- With <VDE> cable type certification issued by the VDE testing and certification institute. Cable's <VDE> marking is a testing mark /proof of the successful testing according to VDE/EN/IEC standards as well as possible health and safety regulations

Application range

- Internal wiring of devices and control cabinets
- Protected installation in and on lighting equipment
- Signal systems in and on plaster in tubes

Product features

- Fixed installation temperature down to -40°C
- Flame retardant according to IEC 60332-1-2

Norm references / Approvals

- CCC certificate according to GB/T 5023.3, IEC 60227-3
- <VDE> cable type certification according to EN 50525-2-31

Product Make-up

- Fine-wired copper conductor of bare copper strands according to class 5 of VDE 0295, IEC 60228, GB/T 3956
- PVC insulation

Technical data

Conductor stranding
Fine wire according to VDE 0295 Class 5, IEC 60228 Class 5, GB/T 3956 Class 5

Minimum bending radius
4 x outer diameter for fixed installation

Nominal voltage
U_0/U: 300/500 V

Test voltage
2000 V

Temperature range
Fixed installation: -40°C to +80°C

Core identification code
Optional

Protective conductor

60227 IEC 02(RV) / H07V-K

Single-core non-sheathed cable with flexible conductor for general purposes

Info

- Rated voltage U_0/U: 450/750 V
- With CCC certification
- With <VDE> cable type certification

Benefits

- With CCC certification issued by China Quality Certification Center
- With <VDE> cable type certification issued by the VDE testing and certification institute. Cable's <VDE> marking is a testing mark /proof of the successful testing according to VDE/EN/IEC standards as well as possible health and safety regulations

Application range

- Internal wiring of devices and control cabinets
- Laying in tubes, exposed or buried in plaster and in closed installation ducts
- For direct laying on racks, troughs and tubes, only as potential equalisation conductor

Product features

- Fixed installation temperature down to -40°C
- Flame retardant according to IEC 60332-1-2

Norm references / Approvals

- CCC certificate according to GB/T 5023.3, IEC 60227-3
- <VDE> cable type certification according to EN 50525-2-31

Product Make-up

- Fine-wired copper conductor of bare copper strands according to class 5 of VDE 0295, IEC 60228, GB/T 3956
- PVC insulation

Technical data

Conductor stranding
Fine wire according to VDE 0295 Class 5, IEC 60228 Class 5, GB/T 3956 Class 5

Minimum bending radius
6 x outer diameter for fixed installation
4 x outer diameter for cautions bending

Nominal voltage
U_0/U: 450/750 V

Test voltage
2500 V

Temperature range
Fixed installation: -40°C to +80°C

Core identification code
Optional

Protective conductor
Optional

V-90HT SC

High temperature PVC insulated cables

Info

- Single core, flexible hook-up wire
- Based on UL Style 1015, UL Style 10269 and AS/NZS 5000.1
- Temperature up to 105°C

Benefits

- The light weight and the practical hand holes in the spool packaging makes handling easy

Application range

- Suitable for assembling cable harnesses and wiring in the switch cabinet installation
- Used for installations in plants, devices, switch gear cabinets, where high temperature occur

Product features

- Flame retardant in acc. to VW -1, and IEC 60332-1-2
- Wide temperature range up to 105°C

Product Make-up

- Fine strands of tinned annealed copper wire
- High temperature PVC based core insulation

Technical data

Classification
ETIM 5.0 Class-Description: Single core cable
ETIM 5.0 Class-ID: EC000993

Conductor stranding
Fine wire acc. toVDE 0295 Cl.5 / IEC 60228 Cl.5

Minimum bending radius
Fixed installation: 3 x cable diameter

Nominal voltage
U_0/U: 600/1000 V

Temperature range
-20°C to +105°C

CE

FLEXI H SC

Flexible halogen-free

Info

- Single core, Flexible
- Halogen-free

Benefits

- Halogen free insulation material and free of releasing corrosive gases in the event of fire

Application range

- For use in wiring switchgear, control panel, lighting, and distribution boxes installation
- For installation in enclosed metallic or non-metallic conduit, ducting, and trunking protective cover
- In buildings with a high concentration of people or valuables

Product features

- Flame retardant in acc. to IEC 60332-3-22
- Halogen free in acc. to IEC 60754-1
- Smoke density in acc. to IEC 61034

Norm references / Approvals

- Based on IEC 60502-1

Product Make-up

- Fine strands of bare copper wire
- LSHF core insulation

ÖLFLEX® POWER LV PVC FR

PVC Insulated Heavy Duty Application FR PVC Cable As per IS 1554 (Part-I) 1988

Info

- Low voltage power cable 650/1100 V
- Double sheathed cable for heavy duty application

Benefits

- Wide range of products variant, up to 300 articles

Application range

- For main power distribution and lighting circuits in residential and commercial areas
- Power and control circuit
- Telecom power supply
- Suitable for direct burial installations as well as in air or ducts

Product features

- Flame retardant: According to IEC 60332-1
- UV - resistant outer sheath for outdoor application and AR best suitable anti rodent application

Norm references / Approvals

- IS 1554 (Part-I) 1988

Product Make-up

- Conductor : Annealed bare copper conductor of Class II as per IS 8130
- Insulation : PVC
- Inner Sheath : PVC
- Outer Sheath :
  i) PVC
  ii) PVC with UVAR
  iii) FRLS PVC
  iv) FRLS PVC with UVAR

Technical data

Core identification code
As per IS 1554 (Part-I) 1988

Conductor stranding
Class II as per IS 8130

Minimum bending radius
10 Times the OD

Nominal voltage
1100 Volts

Temperature range
-5°C up to +70°C

ÖLFLEX® POWER LV PVC FR ARM

PVC Insulated Heavy Duty Application FR PVC Armoured Cable
As per IS 1554 (Part-I) 1988

Info

- Low voltage power cable 650/1100 V
- Armoured and double sheathed FR cable for heavy duty / direct burial application

Benefits

- Wide range of product variants, up to 300 articles

Application range

- For main power distribution and lighting circuits in residential and commercial areas
- Power and control circuit
- Telecom power supply
- Suitable for direct burial installations as well as in air or ducts
- Armoured cable best suitable for heavy duty installations

Norm references / Approvals

- IS 1554 (Part-I) 1988

Product features

- Flame retardant: According to IEC 60332-1
- UV - resistant outer sheath for outdoor application and AR best suitable anti rodent application

Product Make-up

- Conductor : Annealed bare copper conductor of Class II as per IS 8130
- Insulation : PVC
- Inner Sheath :
  i) PVC
  ii) FRLS PVC
- Mechanical Protection :
  i) WA - Aluminium Wire Armour
  ii) SWA - GI wire Armour
  iii) SSA - GI strip Armour
- Outer Sheath :
  i) PVC
  ii) PVC with UVAR
  iii) FRLS PVC
  iv) FRLS PVC with UVAR

ÖLFLEX® POWER LV HR PVC FR

PVC Insulated Heavy Duty Application Heat Resistant (HR) FR PVC Cable
As per IS 1554 (Part-I) 1988

Info

- Low voltage power cable 650/1100 V
- Double sheathed FR cable for heavy duty application

Benefits

- Wide range of product variants, up to 300 articles
- Expanded temperature application

Application range

- For main power distribution and lighting circuits in residential and commercial areas
- Power and control circuit
- Telecom power supply
- Suitable for direct burial installations as well as in air or ducts
- For expanded temperature application

Norm references / Approvals

- IS 1554 (Part-I) 1988

Product features

- Flame retardant: According to IEC 60332-1
- UV - resistant outer sheath for outdoor application and AR best suitable anti rodent application

Product Make-up

- Conductor : Annealed bare copper conductor of Class II as per IS 8130
- Insulation : PVC
- Inner Sheath : PVC
- Outer Sheath :
  i) PVC
  ii) PVC with UVAR
  iii) FRLS PVC
  iv) FRLS PVC with UVAR

ÖLFLEX® POWER LV HR PVC FR ARM

PVC Insulated Heavy Duty Application Heat Resistant (HR) FR PVC Armoured Cable As per IS 1554 (Part-I) 1988

Info

- Low voltage power cable 650/1100 V
- Armoured and double sheathed FR cable for heavy duty / direct burial application

Benefits

- Wide range of product variants, up to 300 articles
- Extra mechanical protection due to Steel Armour
- Expanded temperature application

Application range

- For main power distribution and lighting circuits in residential and commercial areas
- Power and control circuit
- Telecom power supply
- Suitable for direct burial installations as well as in air or ducts
- Armoured cable best suitable for heavy duty installations
- For expanded temperature application
- Particularly where human and animal life as well as valuable property are exposed to risk of fire hazards

Product features

- Flame retardant: According to IEC 60332-1-2 / IEC 60332-3-24
- UV - resistant outer sheath for outdoor application and AR best suitable anti rodent application
- Oxygen Index(Min.) : >29% as per ASTM D 2863 (only for FRLS Outer Sheath)
- Temp. Index (Min.) : >250 Deg C as per ASTM D 2863 (only for FRLS Outer Sheath)
- HCL gas emission (Max.): 20% By weight; Smoke Density : Min. Visibility 40% (only for FRLS Outer Sheath)

Norm references / Approvals

- IS 1554 (Part-I) 1988

Product Make-up

- Conductor : Annealed bare copper conductor of Class II as per IS 8130
- Insulation : PVC
- Inner Sheath :
  i) PVC
  ii) FRLS PVC
- Mechanical Protection :
  i) WA - Aluminium Wire Armour
  ii) SWA - GI wire Armour
  iii) SSA - GI strip Armour
- Outer Sheath :
  i) FRLS PVC
  ii) FRLS PVC with UVAR

Technical data

ÖLFLEX® POWER LV 2X ARM

XLPE Insulated Heavy Duty Application FR PVC Armoured Cable
As per IS 7098 (Part-I) 1988

Info

- Low voltage power cable 650/1100 V
- Armoured and double sheathed cable for heavy duty / direct burial application

Benefits

- Wide range of product variants, up to 300 articles
- Extra mechanical protection due to Steel Armour

Application range

- For main power distribution and lighting circuits in residential and commercial areas
- Power and control circuit
- Telecom power supply
- Suitable for direct burial installations as well as in air or ducts
- Armoured cable best suitable for heavy duty installations
- For expanded temperature application

Norm references / Approvals

- IS 7098 (Part-I) 1988

Product features

- Flame retardant: According to IEC 60332-1
- UV - resistant outer sheath for outdoor application and AR best suitable anti rodent application

Product Make-up

- Conductor : Annealed bare copper conductor of Class II as per IS 8130
- Insulation : XLPE
- Inner Sheath :
  i) PVC
  ii) FRLS PVC
  iii) LSZH
- Mechanical Protection :
  i) WA - Aluminium Wire Armour;
  ii) SWA - GI wire Armour;
  iii) SSA - GI strip Armour
- Outer Sheath :
  i) PVC
  ii) PVC with UVAR
  iii) FRLS PVC
  iv) FRLS PVC with UVAR
  v) LSZH
  vi) LSZH with UVAR

ÖLFLEX® POWER LV (N)YY

Low voltage power cables

Info

- Low voltage power cable 0.6/1 kV
- Unarmoured, PVC/PVC

Application range

- For main power distribution and lighting circuits in residential, industrial and commercial areas
- Power and control circuit
- Telecom power supply

Product features

- Flame-retardant acc. to IEC 60332-1-2
- UV-resistant outer sheath for outdoor application

Norm references / Approvals

- Based on IEC 60502-1

Product Make-up

- Stranded or solid plain annealed copper wire in circular or sectorial shape conductor
- PVC core insulation
- PVC sheath
- Sheath colour, gn/ye for single core and black for multicore

Technical data

Classification
ETIM 5.0 Class-Description: Low voltage power cable
ETIM 5.0 Class-ID: EC000057

Core identification code
acc. to BS 7671:2004

Conductor stranding
acc. to IEC 60228 Cl.1 and Cl. 2

Minimum bending radius
Fixed installation: 8 x cable diameter

Nominal voltage
U_0/U: 600/1000 V

Temperature range
Fixed installation: -20°C to +70°C

CE

ÖLFLEX® POWER LV (N)YYRY

Low voltage power cables

Info

- Low voltage power cable 0.6/1 kV
- Armoured, PVC/PVC/SWA/PVC

Application range

- For main power distribution and lighting circuits in residential, industrial and commercial areas
- Power and control circuit
- Telecom power supply
- Suitable for direct burial installations as well as in air or ducts

Product features

- Flame-retardant acc. to IEC 60332-1-2

Norm references / Approvals

- Based on IEC 60502-1

Product Make-up

- Stranded plain annealed copper wires in circular shape conductor
- PVC core insulation
- PVC inner sheath, black
- Galvanized steel wire armoured
- PVC outer sheath, black

CE

ÖLFLEX® POWER LV (N)2XYRY

Low voltage power cables

Info

- Low voltage power cable 0.6/1 kV
- Multicore, armoured (SWA) XLPE/PVC/SWA/PVC

Application range

- For main power distribution and lighting circuits in residential, industrial and commercial areas
- Power and control circuit
- Telecom power supply

Product features

- Flame-retardant acc. to IEC 60332-1-2
- UV-resistant outer sheath for outdoor application

Norm references / Approvals

- Based on IEC 60502-1

Product Make-up

- Stranded plain annealed copper wires in circular shape conductor
- XLPE core insulation
- PVC inner sheath, black
- Galvanized steel wire armoured
- PVC outer sheath, black

Technical data

Classification
ETIM 5.0 Class-Description: Low voltage power cable
ETIM 5.0 Class-ID: EC000057

Core identification code
acc. to BS 7671:2004

Conductor stranding
acc. to IEC 60228 Cl. 2

Minimum bending radius
10 x cable diameter

Nominal voltage
U_0/U: 600/1000 V

Temperature range
Fixed installation: -40°C to +90°C

ÖLFLEX® POWER LV (N)2XYRY SC

Low voltage power cables

Info

- Low voltage power cable 0.6/1 kV
- Single core, Armoured (AWA)XLPE/PVC/AWA/PVC

Application range

- For main power distribution and lighting circuits in residential, industrial and commercial areas
- Power and control circuit
- Telecom power supply
- Suitable for direct burial installations as well as in air or ducts

Product features

- Flame-retardant acc. to IEC 60332-1-2
- UV-resistant outer sheath for outdoor application

Norm references / Approvals

- Based on IEC 60502-1

Product Make-up

- Stranded plain annealed copper wires in circular shape conductor
- XLPE core insulation
- PVC outer sheath, black
- PVC inner sheath, black
- Aluminium wire armoured

ÖLFLEX® INFRA FR

ISI Marked PVC insulation single core

Info

- Standard lengths available in 90m, 180m, 270m
- FR-LSH and HFFR versions available upon request

Benefits

- ISI Marked

Application range

- Building wire for installation on wall surface or in concealed conduits
- For lighting and power applications in Buildings -Residential and Commercial, Hotels, Hospitals & IT Parks
- For use in dry rooms

Product features

- Flame retardant- IEC 60332.1/ IS 10810-53
- Higher conductivity
- Insulation of PVC Type D, with additional LAPP special properties

Norm references / Approvals

- IS 694 : 2010

Product Make-up

- Conductor: Stranded Annealed Bare copper
- Core Insulation : Lapp special PVC

Technical data

Conductor stranding
Class V as per IS 8130/IEC 60228

Minimum bending radius
Static-6 x cable diameter
Occasional flexing- 8 x cable diameter

Nominal voltage
1100 Volts

Temperature range
-5°C to 70°C

NEW

AS ORANGE / BLACK CIRCULAR

PVC insulated / sheathed cables

Info

- Multicore power cable
- Complies to AS/NZ Standard

Benefits

- Wide range of application opportunities

Application range

- For fixed installation in power and lighting circuits in commercial buildings
- Plant engineering and construction, industrial machinery, power station
- Suitable for outdoor used under direct sunlight

Product features

- Flame retardant acc. to AS/NZS 1660.5.6 resp. to IEC 60332-1-2
- UV-resistant outer sheath for outdoor application

Product Make-up

- Stranded plain annealed copper wire
- PVC (V-90) core insulation
- PVC (5V-90) outer sheath, orange
- Also available in black outer sheath

ÖLFLEX® FLAT TPS

Flat thermoplastic sheathed cable

Info

- Rated voltage U0 /U: 450/750 V

Bebefits

- Easy tear PVC sheath to save time when stripping
- Available in 100m and 200m plastic reels

Application range

- Mechanically light duty cable, recommended for residential and light commercial power distribution requirements
- Fixed wiring installation for power circuits in domestic, industrial and commercial situations
- White sheathed commonly used for mains, blue for air-conditioning units, yellow for switching applications

Product features

- Flame retardant according to IEC 60332-1-2

Norm references / Approvals

- Based on AS/NZS 5000.2

Product Make-up

- Bare copper wires
- PVC core insulation
- PVC outer sheath
- Colours: White, blue or yellow

Technical data

Conductor stranding
1mm² phase core – Solid bare copper, Class 1
All other cores – Stranded bare copper, Class 2
In accordance to AS/NZS 1125

Minimum bending radius
12 x cable diameter

Rated voltage
U_0/U: 450/750 V

Test voltage
1.8 kV

Temperature range
Fixed installation: -15°C to +90°C

ÖLFLEX® POWER NS

Neutral Wire Screened Cable

Info

- Rated voltage U_0 /U: 0.6/1 kV

Benefits

- Neutral wire screened cables provide protection against the hazards of electrical shock
- 3.2mm sheath version suitable for direct burial

Application range

- Industrial, commercial and domestic applications
- For use in various situations to supply main power from point of supply to buildings, equipment, shed
- Switch board to main control cabinet, main between floors and buildings, cable cabinet to motor

Product features

- Flame retardant according to IEC 60332-1-2

Norm references / Approvals

- Based on AS/NZS 4961

Product Make-up

- Stranded plain annealed copper wires
- PVC core insulation
- Neutral screen made of plain annealed copper wire
- PVC outer sheath
- Colour : black

Technical data

Conductor stranding
Stranded wire acc. to AS/NSZ 1125 Cl. 2

Minimum bending radius
12 x cable diameter

Rated voltage
0.6/1 kV

Test voltage
3.5 kV

Temperature range
Up to 75°C

ÖLFLEX® TRAIN 3GKW SC

Info

- Meets EN 50264-3-1 type M
- High temperature resistance : -40°C up to +125°C
- Highly oil- and fuel-resistant

Benefits

- Easy to strip and to dismantle
- Resistant to mechanical influences in harsh environmental conditions
- Expanded temperature range
- Reduced formation of toxic gases and fire spreading in the event of fire increase the protection against damage to persons and property

Application range

- For fixed and protected installations inside or outside of railed vehicles and buses
- Suitable for the connection of fixed and moving objects such as lamps, heating, electrical equipment, wiring of vehicles, terminal boxes and power supply

Product features

- Halogen-free (IEC 60754-1) & No corrosive gases (IEC 60754-2)
- No toxic gases (EN 50305, BS 6853)
- Low smoke density (IEC 61034-2)
- Flame retardant (IEC 60332-1-2)
- No fire spreading (EN 50305, BS6853)

Norm references / Approvals

- EN 50264-3-1, type M
- BS 6853 (Interior use Ia, Ib, & Exterior use Ia, Ib,)
- EN 45545-2 HL1, HL2, HL3
- Compliant with NFPA 130

Product Make-up

- Conductor : Tinned copper strand, fine wired
- Insulation : Electron beam cross-linked polyolefin copolymer
- Colour : Grey , Black or Green-yellow

Technical data

Conductor stranding
Fine wired acc. to IEC 60228 class 5

Minimum bending radius
Fixed installation : ≤ 12 : 4 x OD / 3 x OD*, > 12 : 5 x OD / 4 x OD*, * for careful bending, once at connecting terminal

Nominal voltage
U_0/U AC 0.6 / 1.0 kV, Um AC 1.2kV, Vo DC 0.9kV

Temperature range
Fixed installation : -40°C up to +125°C max.
Occasional flexing : -35°C up to + 90°C max.

ÖLFLEX® TRAIN 4GKW

Info

- Meets EN 50264-3-1 type OM
- High temperature resistance : -40°C up to +125°C
- Highly oil- and fuel-resistant

Benefits

- High flexibility and slim diameters enable small bending radii at fixed installation
- Resistant to mechanical influences in harsh environmental conditions
- Expanded temperature range
- Excellent chemical resistance and high Flammability rating as well
- Reduced formation of toxic gases and fire spreading in the event of fire increase the protection against damage to persons and property

Application range

- For fixed and protected installations inside or outside of railed vehicles and buses
- For connection of stationary and moving parts
- Suitable for cabling of switchboards, converters, panel units and rheostatic braking blocks

Product features

- Halogen-free (IEC 60754-1) & No corrosive gases (IEC 60754-2)
- No toxic gases (EN 50305, BS 6853)
- Low smoke density (IEC 61034-2)
- Flame retardant (IEC 60332-1-2)
- No fire spreading (EN 50305, BS6853)

Norm references / Approvals

- EN 50306-4, type MM
- BS 6853 (Interior use Ia, Ib, & Exterior use Ia, Ib,)
- EN 45545-2 HL1, HL2, HL3
- Compliant with NFPA 130

Product Make-up

- Conductor : Tinned copper strand, special round conductor
- Insulation : Electron beam cross-linked polyolefin copolymer
- Colour of insulation : black with white numbers
- Braiding : Tinned copper braid
- Outer sheath : Electron beam cross-linked polyolefin copolymer, Black colour

Technical data

Conductor stranding
Fine wired acc. to EN 50306-2 (SRC=Special Round Conductor)

Minimum bending radius
Fixed installation : 4 x OD, 3 x OD for careful bending, once at connecting terminal

Nominal voltage
U_0/U AC 300 / 500 V, Um AC 600V, Vo DC 450V

Temperature range
Fixed installation : -40°C up to +125°C max.
Occasional flexing : -35°C up to + 90°C max.

ÖLFLEX® TRAIN 3GKW MC

Info

- Meets EN 50264-3-2, type MM
- High temperature resistance : -40°C up to +125°C
- Highly oil- and fuel-resistant

Benefits

- Easy to strip and to dismantle
- Resistant to mechanical influences in harsh environmental conditions
- Expanded temperature range
- Reduced formation of toxic gases and fire spreading in the event of fire increase the protection against damage to persons and property

Application range

- For fixed and protected installations inside or outside of railed vehicles and buses
- Suitable for the connection of fixed and moving objects such as lamps, heating, electrical equipment, wiring of vehicles, terminal boxes and power supply

Product features

- Halogen-free (IEC 60754-1) & No corrosive gases (IEC 60754-2)
- No toxic gases (EN 50305, BS 6853)
- Low smoke density (IEC 61034-2)
- Flame retardant (IEC 60332-1-2)
- No fire spreading (EN 50305, BS6853)

Norm references / Approvals

- EN 50264-3-2, type MM
- BS 6853 (Interior use Ia, Ib, & Exterior use Ia, Ib,)
- EN 45545-2 HL1, HL2, HL3
- Compliant with NFPA 130

Product Make-up

- Conductor : Tinned copper strand, fine wired
- Insulation : Electron beam cross-linked polyolefin copolymer
- Colour of insulation : black with white numbers
- Outer sheath : Electron beam cross-linked polyolefin copolymer, Black colour

Technical data

Conductor stranding
Fine wired acc. to IEC 60228 class 5

Minimum bending radius
Fixed installation : ≤ 12 : 4 x OD / 3 x OD*, > 12 : 5 x OD / 4 x OD*, * for careful bending, once at connecting terminal

Nominal voltage
U_0/U AC 0.6 / 1.0 kV, Um AC 1.2kV, Vo DC 0.9kV

Temperature range
Fixed installation : -40°C up to +125°C max.
Occasional flexing : -35°C up to + 90°C max.

ÖLFLEX® TRAIN 4GKW C

Info

- Meets EN 50264-3-1 type OM
- High temperature resistance : -40°C up to +125°C
- Highly oil- and fuel-resistant

Benefits

- High flexibility and slim diameters enable small bending radii at fixed installation
- Resistant to mechanical influences in harsh environmental conditions
- Expanded temperature range
- Excellent chemical resistance and high Flammability rating as well
- Reduced formation of toxic gases and fire spreading in the event of fire increase the protection against damage to persons and property

Application range

- For fixed and protected installations inside or outside of railed vehicles and buses
- For connection of stationary and moving parts
- Suitable for cabling of switchboards, converters, panel units and rheostatic braking blocks

Product features

- Halogen-free (IEC 60754-1) & No corrosive gases (IEC 60754-2)
- No toxic gases (EN 50305, BS 6853)
- Low smoke density (IEC 61034-2)
- Flame retardant (IEC 60332-1-2)
- No fire spreading (EN 50305, BS6853)

Norm references / Approvals

- EN 50264-3-1, type OM
- BS 6853 (Interior use Ia, Ib, & Exterior use Ia, Ib,)
- EN 45545-2 HL1, HL2, HL3
- Compliant with NFPA 130

Product Make-up

- Conductor : Tinned copper strand, fine wired
- Inner Insulation : Electron beam cross-linked polyolefin copolymer, Natural colour
- Braiding : Tinned copper braid
- Outer sheath : Electron beam cross-linked polyolefin copolymer, Black colour

Technical data

Conductor stranding
Fine wired acc. to IEC 60228 class 5

Minimum bending radius
Fixed installation : ≤ 12 : 4 x OD / 3 x OD*, > 12 : 5 x OD / 4 x OD*, * for careful bending, once at connecting terminal

Nominal voltage
U_0/U AC 1.8 / 3.0 kV, Um AC 3.6kV, Vo DC 2.7kV

Temperature range
Fixed installation : -40°C up to +125°C max.
Occasional flexing : -35°C up to + 90°C max.

ÖLFLEX® TRAIN 4GKW HF

Info

- Meets EN 50264-3-1 type OM
- High temperature resistance : -40°C up to +125°C
- Highly oil- and fuel-resistant

Benefits

- More improved high flexibility than 4GKW and slim diameters enable small bending radii at fixed installation
- Easy to strip and to dismantle & Expanded temperature range
- Resistant to mechanical influences in harsh environmental conditions
- Excellent chemical resistance and high Flammability rating as well
- Reduced formation of toxic gases and fire spreading in the event of fire increase the protection against damage to persons and property

Application range

- For fixed and protected installations inside or outside of railed vehicles and buses
- For connection of stationary and moving parts
- Suitable for cabling of switchboards, converters, panel units and rheostatic braking blocks
- For carrying energy between cars

Product features

- Halogen-free (IEC 60754-1) & No corrosive gases (IEC 60754-2)
- No toxic gases (EN 50305, BS 6853)
- Low smoke density (IEC 61034-2)
- Flame retardant (IEC 60332-1-2)
- No fire spreading (EN 50305, BS6853)

Norm references / Approvals

- EN 50264-3-1, type OM
- BS 6853 (Interior use Ia, Ib, & Exterior use Ia, Ib,)
- BS 6853 (Interior use Ia, Ib, & Exterior use Ia, Ib,)
- Compliant with NFPA 130

Product Make-up

- Conductor : Tinned copper strand, Super fine wired
- Inner Insulation : Electron beam cross-linked polyolefin copolymer, Natural colour
- Outer Insulation : Electron beam cross-linked polyolefin copolymer
- Outer Insulation colour : Black or green-yellow

Technical data

Conductor stranding
Fine wired acc. to IEC 60228 class 6

Minimum bending radius
Fixed installation : 4 x OD, 3 x OD for careful bending, once at connecting terminal

Nominal voltage
U_0/U AC 1.8 / 3.0 kV, Um AC 3.6kV, Vo DC 2.7kV

Temperature range
Fixed installation : -40°C up to +125°C max.
Occasional flexing : -35°C up to + 90°C max.

ÖLFLEX® TRAIN 9GKW

Info

- Meets EN 50264-3-1 type OM
- High temperature resistance : -40°C up to +125°C
- Highly oil- and fuel-resistant

Benefits

- High flexibility and slim diameters enable small bending radii at fixed installation
- Resistant to mechanical influences in harsh environmental conditions
- Expanded temperature range
- Excellent chemical resistance and high Flammability rating as well
- Reduced formation of toxic gases and fire spreading in the event of fire increase the protection against damage to persons and property

2 UNITRONIC®

Data communication systems

Our high-quality UNITRONIC® data network cables and field bus components provide a forward-looking solution for all applications in industrial machinery and plant engineering. From transmission of simple control signals to field bus signals in complex network structures – we offer a dependable cabling and connection solution for almost every situation.

Application range

- Industrial machinery and plant engineering
- Sensors and actuating elements
- Appliances
- Measurement and control technology
- Automated production processes and industrial robots
- Bus systems
- Computing and communication systems

Low frequency data transmission

Coaxial

Bus Systems

Sensor/Actuator

ALARM CABLE

Info

- Unshielded

Application range

- Flexible cables normally used for the wiring of burglar and security alarm and other low voltage circuits
- Suitable for interconnection between control unit systems, sensors and alerting devices
- For indoor installation

Product features

- Flame retardant in acc. to IEC 60332-1-2

Product Make-up

- Stranded bare annealed copper wires
- PVC core insulation
- PVC outer sheath, white

Technical data

Classification
ETIM 5.0 Class-Description: Signal-/ telecommunication cable
ETIM 5.0 Class-ID: EC000829

Core identification code
4 core: RD/BK/WH/BU
6 core : RD/BK/WH/BU/YE/GN

Mutual capacitance
Approx. 120 nF/km, at 800Hz

Peak operating voltage
50 Vrms (not for power applications)

Minimum bending radius
10 x cable diameter

Temperature range
-30°C to +70°C

Article number	Number of cores and mm² per conductor	Outer diameter [mm]	Copper index (kg/km)	Weight (kg/km)
ALARM CABLE				
3804934	4 X 0.25	4.3	9.6	28
3804936	6 X 0.25	5.1	14.2	39

- If not otherwise specified, all values relating to the product are nominal values. Other value information, such as tolerances, for example, can be obtained on request where available and released for publishing.
- Photographs are not to scale and do not represent detailed images of the respective products.

UNITRONIC® LiY(ST)Y

Info

- UL Style 2464
- UL-approved

Application range

- Suitable for use in data transmission for control measurement
- For use in dry and damp environment

Product features

- 100% screen coverage, offers optimum protection against external interference at medium and high frequencies
- UL - approved
- Flame retardant in acc. to IEC 60332-1-2

Product Make-up

- Multi-wire strands of tinned annealed copper
- Semi-Rigid PVC core insulation
- Aluminium foil screening
- Tinned copper drain wire
- PVC outer sheath
- Colour: pebble grey, RAL 7032

Technical data

Classification
ETIM 5.0 Class-Description: Data cable
ETIM 5.0 Class-ID: EC000830

Core identification code
acc. to DIN 47100

Mutual capacitance
C/C : approx. 110 pF/m
C/S : approx. 215 pF/m

Peak operating voltage
300 V (not for power applications)

Minimum bending radius
10 x cable diameter

Temperature range
-30°C to +80°C

Article number	Number of pairs and AWG per conductor	Outer diameter [mm]	Copper index (kg/km)	Weight (kg/km)
UNITRONIC® LiY(ST)Y				
3802841	3 x 24 AWG	4.3	8.4	24
3802842	4 x 24 AWG	4.7	10.5	30
3802843	6 x 24 AWG	5.4	14.7	40
3802844	8 x 24 AWG	5.7	18.9	46
3802845	15 x 24 AWG	7.2	33.6	73
3802846	25 x 24 AWG	8.6	54.5	124
3802847	30 x 24 AWG	9.7	65.0	129

UNITRONIC® ST 20276

Info

- UL Style 20276
- UL-approved

Application range

- Especially designed for use as control and instrumentation cables
- For static laying in dry and damp environment

Product features

- Pair screening offers optimum protection against external interference at medium and high frequencies
- Twisted cores and individual pair shielding ensures high Near End Cross Talk attenuation
- Flame retardant in acc. to IEC 60332-1-2

Product Make-up

- Multi-wire strands of tinned copper wires
- PE core insulation
- Cores twisted together
- Individual pair aluminium foil screening
- Tinned copper drain wire
- PVC sheath
- Colour: chrome grey, RAL 7005

Technical data

Classification
ETIM 5.0 Class-Description: Data cable
ETIM 5.0 Class-ID: EC000830

Core identification code
black/red, and white/green

Mutual capacitance
C/C : approx. 115 pF/m
C/S : approx. 203 pF/m

Peak operating voltage
30 V

Inductivity
approx. 0.55 mH/km

Minimum bending radius
10 x cable diameter

Characteristic impedance
45 Ohm

Temperature range
-20°C to +60°C

UNITRONIC® ST 20253

Info

- Style 20253

Application range

- Internal wiring for audio, transmission measurement and control signals with minimum noise
- Cost effective and ideal for environment which less susceptible to noise
- For static laying in dry and damp environment

Product features

- 100% shielding, offers optimum protection against external interference at medium and high frequencies
- Ideal solution where flexibility and a high degree of screening is required
- Flame retardant in acc. to IEC 60332-1-2

Product Make-up

- Multi-wire strands of tinned copper wires
- PE core insulation
- Cores twisted together
- Individual pair of aluminium laminated plastic foil
- Tinned copper drain wire
- PVC sheath
- Colour: chrome grey, RAL 7005

Technical data

Classification
ETIM 5.0 Class-Description: Data cable
ETIM 5.0 Class-ID: EC000830

Core identification code
black, natural

Mutual capacitance
C/C : approx. 75 pF/m
C/S : approx. 114 pF/m

Peak operating voltage
600 V (not for power applications)

Inductivity
approx. 0.65 mH/km

Minimum bending radius
10 x cable diameter

Characteristic impedance
65 Ohm

Temperature range
-30°C to +80°C

UNITRONIC® ST 2092

Info

- UL Style 2092
- UL-approved

Application range

- Internal wiring for audio, transmission measurement and control signals with minimum noise
- Internal wiring use in data transmission control and measurement cable with minimum noise immunity in the surrounding
- For static laying in dry and damp environment

Product features

- 100% screen coverage, offers optimum protection against external interference at medium and high frequencies
- Ideal solution where flexibility and a high degree of screening is required
- Flame retardant in acc. to IEC 60332-1-2
- Twisted pairs ensures good shielding and low noise interference

Product Make-up

- Multi-wire strands of tinned copper wires
- PE core insulation
- Cores twisted together
- Aluminium foil screening
- Tinned copper drain wire
- PVC sheath
- Colour: pebble grey, RAL 7005

UNITRONIC® ST 2095 PE

Info

- UL Style 2095
- UL-approved

Application range

- Suitable connection for audio, control signal and instrument measurement
- For use in dry and damp environment

Product features

- 100% screen coverage, offers optimum protection against external interference at medium and high frequencies
- Flame retardant in acc. to IEC 60332-1-2

Product Make-up

- Multi-wire strands of tinned copper wires
- PE core insulation
- Overall screening with aluminium foil
- Tinned annealed copper drain wire
- PVC sheath
- Colour: pebble grey, RAL 7032

Technical data

Classification
ETIM 5.0 Class-Description: Data cable
ETIM 5.0 Class-ID: EC000830

Core identification code
black, red, natural

Mutual capacitance
C/C : approx. 90 pF/m (20 AWG)
C/C : approx. 78.5 pF/m (18 AWG)
C/S : approx. 160 pF/m (20 AWG)
C/S : approx. 158 pF/m (18 AWG)

Peak operating voltage
300 V (not for power applications)

Minimum bending radius
10 x cable diameter

Temperature range
-30°C to +80°C

Article number	Number of pairs and AWG per conductor	Outer diameter [mm]	Copper index (kg/km)	Weight (kg/km)
UNITRONIC® ST 2095 PE				
3804951	3 x 20 AWG	5.5	21.4	46
3804931	3 x 18 AWG	6.2	28.9	50

- If not otherwise specified, all values relating to the product are nominal values. Other value information, such as tolerances, for example, can be obtained on request where available and released for publishing.
- Photographs are not to scale and do not represent detailed images of the respective products.

UNITRONIC® ST 2095 PVC

Info

- UL Style 2095
- Security / Alarm cable
- UL-approved

Application range

- Suitable connection for security, alarm intercom, and control measurement
- For use in dry and damp environment

Product features

- 100% screen coverage, offers optimum protection against external interference at medium and high frequencies
- Flame retardant in acc. to IEC 60332-1-2

Product Make-up

- Multi-wire strands of bare copper wires
- PVC core insulation
- Twisted pair, overall screening with aluminium foil
- Tinned annealed copper drain wire
- PVC sheath
- Colour: pebble grey, RAL 7032

- Photographs are not to scale and do not represent detailed images of the respective products.

UNITRONIC® ST 2464

Info

- UL Style 2464
- UL-approved

Application range

- Suitable for use in instrumentation, industrial automation and process control application
- For use in dry and damp environment
- UV-resistant and impervious to mositure penetration

Product features

- 100% screen coverage, offers optimum protection against external interference at medium and high frequencies
- Flame retardant in acc. to IEC 60332-1-2

Product Make-up

- Multi-wire strands of bare copper wires
- SR-PVC core insulation
- Cores twisted together
- Static screen of aluminium laminated plastic foil
- PVC sheath
- Tinned copper drain wire
- Colour: black, RAL 9005

Technical data

Classification
ETIM 5.0 Class-Description: Data cable
ETIM 5.0 Class-ID: EC000830

Core identification code
1-Pair : black/white
2-Pair : black/white, black/red

Mutual capacitance
C/C : approx. 200 pF/m
C/S : approx. 370 pF/m

Peak operating voltage
300 V (not for power applications)

Inductivity
approx. 0.62 mH/km

Minimum bending radius
10 x cable diameter

Temperature range
-30°C to +80°C

Article number	Number of pairs and AWG per conductor	Outer diameter [mm]	Copper index (kg/km)	Weight (kg/km)

UNITRONIC® ST 2919 PE

Info

- UL Style 2919
- Low capacitance
- UL-approved

Application range

- Suitable for wiring of data systems with high transmission rates
- Designed for use as Data Highway (DH) RS 232, RS 422, and RS 485 interface
- Suitable for use as control and instrumentation cables
- Suitable for flexible and static laying in dry and samp locations

Product features

- 100% screen coverage, offers optimum protection against external interference at medium and high frequencies
- Low capacitance, double screened
- Excellent shielding against internal and external interference

Product Make-up

- Multi-wire strands of tinned copper wires
- PE core insulation
- Twisted pair
- Aluminium / mylar
- Tinned copper drain wire
- Tinned copper braiding
- PVC outer sheath
- Colour: pebble grey, RAL 7032
  Colour: chrome grey, RAL 7005

UNITRONIC® ST 2919 PP

Info

- UL Style 2919
- Audio, control and instrumentation
- UL-approved

Application range

- Suitable connection for audio, control and instrumentation measurements in environments immune to noise
- For use in dry and damp environment

Product features

- 100% screen coverage, offers optimum protection against external interference at medium and high frequencies
- Flame retardant in acc. to IEC 60332-1-2

Product Make-up

- Multi-wire strands of tinned annealed copper
- PP core insulation
- Twisted pair, individual pair screening of aluminium laminated foil
- Tinned copper drain wire
- PVC sheath
- Colour: pebble grey, RAL 7032

Technical data

Classification
ETIM 5.0 Class-Description: Data cable
ETIM 5.0 Class-ID: EC000830

Core identification code

UNITRONIC® ST 2919 FPE

Info

- UL Style 2919
- Low capacitance
- UL-approved

Application range

- Designed for use as Data Highway (DH) RS 232, RS 422, and RS 485 interface
- Suitable for static laying in dry and damp condition

Product features

- Low capacitance
- 100% screen coverage, offers optimum protection against external interference at medium and high frequencies
- Flexible for use in environment where space is a constraint
- Flame retardant in acc. to IEC 60332-1-2

Product Make-up

- Multi-wire strands of tinned copper wires
- Foam PE core insulationCores twisted together
- Overall screening of aluminium laminated plastic foil
- Tinned copper drain wire
- PVC sheath
- Colour: chrome grey, RAL 7005
- **Core insulation colour:**
  Pair 1: wh/bu stripe + bu/wh stripe
  Pair 2: wh/og stripe + og/wh stripe
  Pair 3: wh/gn stripe + gn/wh stripe
  Pair 4: wh/bu stripe + bu/wh stripe
  Pair 5: wh/gy stripe + gy/wh stripe
  Pair 6: rd/bu stripe + bu/wh stripe
  Pair 7: rd/og stripe + og/rd stripe
  Pair 8: rd/gn stripe + gn/rd stripe
  Pair 9: rd/bu stripe + bu/rd stripe
  Pair 10: rd/gy stripe + gy/rd stripe
  Pair 11: bk/bu stripe + bu/bk stripe
  Pair 12: bk/og stripe + og/bk stripe
  Single conductor: grey

ST 21088 Li2Y(ST)CH LSHF

Info

- Low smoke halogen free

Application range

- Internal wiring for audio, control signal and instrument measurement and RS-485
- For static laying in dry and damp environment
- Where in any case of fire, minimum formation of toxic gas is formed as protection of human life is vital

Product features

- 100% screen coverage, offers optimum protection against external interference at medium and high frequencies
- Low smoke halogen free outer sheath
- Flame retardant in acc. to IEC 60332-1-2

Norm references / Approvals

- Based on UL AWM Style 21088

Product Make-up

- Strands tinned copper wires
- HDPE core insulation
- Cores twisted together
- Aluminium foil screening
- Tinned copper drain wire
- Tinned copper braiding
- LSHF outer sheath
- Colour: pebble grey, RAL 7032

J-2Y(ST)H-TP

Application range

- Data cable for digital communication in a LONWORKS® networks and building automation systems
- Also suitable for use in distributed control network in factory and process automation systems
- For indoor installation
- LONWORKS® is a trademark of ECHELON

Product features

- Offers optimum protection against external interferences
- Low smoke halogen free in acc. to IEC 61034 and IEC 60754-2
- Flame retardant in acc. to IEC 60332-1-2

Product Make-up

- Solid bare annealed copper wires
- PE core insulation
- Cores twisted together
- Aluminium laminated polyester foil screen + solid tinned annealed copper drain wire
- LSHF outer sheath, white

Info

- LONWORKS®
- 100 Ohm

COAXIAL RG SERIES RG 59/U, RG 6/90, RU 11/U

Info

- Low attenuation loss
- 75 Ohm
- TÜV SÜD PSB type approved for 3801313

Benefits

- Broadband for low loss attenuation of high frequency signal

Application range

- CATV video transmission and data network
- Optimizing frequency up to 1000 MHz
- Suitable for use in dry and damp areas

Product features

- Double screen, offer good screening against external interference
- UV-resistant
- Flame retardant in acc. to IEC 60332-1-2

Norm references / Approvals

- TÜV SÜD PSB type approved for 3801313

Product Make-up

- Bare copper plated steel solid conductor
- Foam PE core insulation
- Aluminium foil bonded, 100% coverage
- Aluminium wire braiding
- PVC outer sheath, black

Technical data

Classification
ETIM 5.0 Class-Description: Coxial cable
ETIM 5.0 Class-ID: EC000019

Mutual capacitance
51 pF/m

Minimum bending radius
Fixed installation: 10 x cable diameter

Characteristics impedance
75 ± 3 Ohm (3800768 & 3800720)
75 ± 2 Ohm (3801313)

Data Cables • Bus systems

UNITRONIC® BUS DeviceNet™ THICK + THIN

Application range

- Stationary application
- DeviceNet™ connects industrial devices e.g. limit switches, photoelectric switches, valve islands, motor starters, drivers, PLCs, etc
- DeviceNet™ Bus system (Rockwell Automation)

Product Make-up

- Stranded tinned copper conductor
- PE core insulation
- PVC sheath
- Colour: chrome grey, RAL 7005

Product features

- Based on proven CAN (Controller Area Network) technology
- Permissible cable lengths vary with the data rate and the cable thickness
- THICK cable total trunk length 125 kbit/s = 100 m
- THIN cable total trunk length 125 kbit/s = 6 m 250 kbit/s = 6 m 500 kbit/s = 6 m

UNITRONIC® BUS L2/FIP FC

Info

- Fast Connect (FC) cable design
- PROFIBUS

Application range

- For stationary installation for Bus Systems 150 Ohm impedance
- Dry and samp indoors

Product features

- This bus cable can be used for PROFIBUSDP as well as for PROFIBUS-FMS and FIP
- Based on the bit rates listed, in accordance with PNO specifications the following maximum cable lengths for a bus segment apply (cable type A, PROFIBUS-DP): 93.75 kbit/s = 1200 m1875 kbit/s = 1000 m500 kbit/s = 400 m1.5 Mbit/s = 200 m12.0Mbit/s = 100 m
- Flame retardant in acc. to IEC 60332-1-2

Norm references / Approvals

- In accordance with DIN 19245 and EN 50170, e.g. for SIEMENS SIMATIC NET, also suitable for FIP (Factory Instrumentation Protocol)

Product Make-up

- Single wire of bare copper
- Foam PE core insulationCores twisted together
- Plastic foil wrapping
- Aluminium-mylar tape screen + tinned copper wire braiding
- PVC outer sheath, violet RAL 4001

Technical data

Classification
ETIM 5.0 Class-Description: Data cable
ETIM 5.0 Class-ID: EC000830

Core identification code
red, green

Mutual capacitance
(800 Hz): max. 30 nF/km

Peak operating voltage
250V (not for power applications)

Conductor resistance
(loop): max. 115 Ohm/km

Minimum bending radius
Fixed installation: 10 x cable diameter

Characteristics impedance
150 ± 15 Ohm

Temperature range
-40°C up to +80°C

Article number	No. of pairs and AWG size	No. of cores and mm² per conductor	Dimension and cross section in mm²	Outer diameter (mm)	Colour	Copper index (kg/km)	Weight (kg/km)
UNITRONIC® BUS L2/FIP FC							
2170320	1 x 2 x 0.64	1 x 2 x 0.64	1 x 2 x 0.64	8.0	violet	26.0	84

Other value information, such as tolerances, for example, can be obtained on request where available and released for publishing.

UNITRONIC® BUS PA SWA

Info

- Process Automation (PA)
- PROFIBUS

Benefit

- PROFIBUS-PA with Steel Wire Armouring

Application range

- Designed for the system-defined transmission rates of 1.5 Mbs, and 31.25 KHz
- Suitable for direct burial and permanent installation in harsh and rugged environments
- Suitable for oil and gas, petrochemical, pharmaceutical industry
- For indoor and outdoor use

Product features

- Transmission technology for PROFIBUS-PA in acc. to IEC 61158-2 Standard
- Blue outer sheath colour for intrinsically safe system in harardous area
- Flame retardant in acc. to IEC 60332-1-2
- UV-resistant (for black outer sheath)

Product Make-up

- Stranded bare copper conductor
- Foam PE core insulation
  Aluminium mylar tape screen
- Tinned copper wire braiding
  Galvanized steel wire armoured
- PVC inner sheath, black or blue
  PVC outer sheath
- Colour: black, RAL 9005 or blue, RAL 5015

Technical data

Core identification code
red, green

Mutual capacitance
(800 Hz): approx. 52 nF/km

Peak operating voltage
max. 100V (not for power applications)

Conductor resistance
(loop): max. 44 Ohm/km

Minimum bending radius
10 x cable diameter

Characteristics impedance
at 31.25 kHz: 100 ± 20 Ohm

Test voltage
1500 V

Temperature range
-30°C to +70°C

Article number	Number of pairs and cable diameter per conductor in mm²	Outer sheath colour	Outer diameter (mm)	Copper index (kg/km)	Weight (kg/km)
UNITRONIC® BUS PA SWA					
3803158	1 x 2 x 1.0	black	12.8	45.0	152
3803159	1 x 2 x 1.0	blue	12.8	45.0	152

UNITRONIC® BUS FF-844 H1 C LSZH

FF-844 H1 installation cable with EMC and LSZH solution

Info

- Certified with FOUNDATION FIELDBUS "FF- 844 H1"
- For TYPE A installation

Benefits

- Cables meet the requirements of ISA/ SP50 and the FOUNDATION™ field bus for the cable type A

Application range

- FF cables for operating temperature up to +90° C
- Fixed Installation
- Indoor / Outdoor
- Direct burial (Armoured version)
- Tray application (Steel Wire Braid versions)

Product features

- Flammability : According to IEC 60332-1
- LSZH Property
- Oxygen Index(Min.) : >29% as per ASTM D 2863
- Temp. Index (Min.) : >250 Deg C as per ASTM D 2863
- HCL gas emission (Max.): AS PER IEC 754-2; Smoke Density : Min. Visibility 80% as per ASTM D 2843

Norm references / Approvals

- IEC 61158-2
- FF 844
- BS EN 50288-7

Product Make-up

- Conductor : ATC of Class II
- Core Insulation : XLPE
- Individual and Overall Screening : AL-MYLAR tape
- Inner Sheath : LSZH, colour orange
- Mechanical Protection : SSA -Steel strip armour / SWA-Steel wire armour / SY-Steel Braid
- Outer Sheath : LSZH / LSZH with UV and AR, orange

Technical data

Core identification code
Blue and orange cores with numerical printing for pair identification

Peak operating voltage
300 V

Conductor resistance
23.5 Ohm/Km

Minimum bending radius
Unarmoured = 12 X OD
Armoured = 20 X OD

Temperature range
-30°C to +90°C

UNITRONIC® BUS FF-844 H1 C PVC

FF-844 H1 installation cable with EMC and FR-LSH solution

Info

- Certified with FOUNDATION FIELDBUS "FF- 844 H1"
- For TYPE A installation

Benefits

- Cables meet the requirements of ISA/ SP50 and the FOUNDATION™ field bus for the cable type A

Application range

- FF cables for operating temperature up to +90° C
- Fixed Installation
- Indoor / Outdoor
- Direct burial (Armoured version)
- Tray application (Steel Wire Braid versions)

Product features

- Flammability : According to IEC 60332-1
- FRLS Property (only For FRLS Outer Sheath)
- Oxygen Index(Min.) : >29% as per ASTM D 2863
- Temp. Index (Min.) : >250 Deg C as per ASTM D 2863
- HCL gas emission (Max.): 20% By weight; Smoke Density : Min. Visibility 40% as per ASTM D 2843

Norm references / Approvals

- IEC 61158-2
- FF 844
- BS EN 50288-7

Product Make-up

- Conductor : ATC of Class II
- Core Insulation : XLPE
- Individual and Overall Screening : AL-MYLAR tape
- Inner Sheath : Special PVC, flameretardant low smoke low halogen, orange
- Mechanical Protection : SSA -Steel strip armour / SWA-Steel wire armour / SY-Steel Braid
- Outer Sheath : Special PVC, flameretardant low smoke low halogen with UV and AR, orange

- For TYPE A installation

Benefits

- Cables meet the requirements of ISA/ SP50 and the FOUNDATION™ field bus for the cable type A

Application range

- FF cables for operating temperature up to +90° C
- Fixed Installation
- Indoor / Outdoor
- Direct burial (Armoured version)
- Tray application (Steel Wire Braid versions)

Product features

- Flammability : According to IEC 60332-1
- FRLS Property (only For FRLS Outer Sheath)
- Oxygen Index(Min.) : >29% as per ASTM D 2863
- Temp. Index (Min.) : >250 Deg C as per ASTM D 2863
- HCL gas emission (Max.): 20% By weight; Smoke Density : Min. Visibility 40% as per ASTM D 2843

Norm references / Approvals

- IEC 61158-2
- FF 844
- BS EN 50288-7

Product Make-up

- Conductor : ATC of Class II
- Core Insulation : XLPE
- Individual and Overall Screening : AL-MYLAR tape
- Inner Sheath : Special PVC, flameretardant low smoke low halogen, orange
- Mechanical Protection : SSA -Steel strip armour / SWA-Steel wire armour / SY-Steel Braid
- Outer Sheath : Special PVC, flame retardant low smoke low halogen with UV and AR, orange

Technical data

Core identification code
Blue and orange cores with numerical printing for pair identification

Peak operating voltage
300 V

Conductor resistance
23.5 Ohm/Km

Minimum bending radius
Unarmoured = 10 X OD
Armoured = 18 X OD

Characteristic impedance
100 ± 20 Ω At 31.25 kHz

Temperature range
-30°C to +90°C

M12 Open-Ended Cordsets

Info

- Other types are available on request

Benefits

- Cost-saving due to quick and easy installation
- Space-saving due to compact dimensions
- Fast and easy error tracking

Application range

- For medium mechanical stress in dry conditions

Norm references / Approvals

- In acc. to EC 61076-2-101
- UL-listed cable, E-File Number: E63634
- Flame-retardant acc. to UL 1581 FT-1

Product Make-up

- Wire cross-section :22AWG
  Colour-code:
- 3-pin: bn (1), bu (3), bk (4)
  4-pin: bn (1), wh (2), bu (3), bk (4)
  5-pin: bn (1), wh (2), bu (3), bk (4), gn/ye (5)
  Outer sheath: PVC, black

Technical data

Classification
ETIM 5.0 Class-ID: EC001855
ETIM 5.0 Class-Description:
Sensor actuator patch cord

Material
Contacts: Phosphor bronze, gold-plated
Contact carriers: TPU+GF
Coupling nut/screw: Nickel plated brass
Seal: FKM

Minimum bending radius
Fixed installation: 6 x outer diameter

Protection rating
IP 65/IP 67

Ambient temperature (operation)
-25°C to +90°C

Coding
A-standard

Rated current (A)
4A

UNITRONIC® LiYY & UNITRONIC® LiY(ST)CY

Flexible cable for sensor/actuator cabling

Info

- UL Recognized

Benefits

- Easy Installation (through cable trays, tubes and cabinets)
- Easy Stripping and Processing
- Space-saving due to compact dimensions

Application range

- Automation technology
- Sensor/actuator cabling

Norm references / Approvals

- UL AWM Style 2464

Product features

- Flame Retardant according to VW-1 and FT1

Product Make-up

- Fine wire strands of bare copper accordance to UL758
- Core insulation : SR-PVC
- Colour-code :
  3 core : Brown, Blue , Black,
  4 core : Brown, White, Blue , Black
  5 core : Brown, White, Blue , Black, Green/Yellow
- Shielding : Aluminium Mylar Foil Tape & Tinned Copper Braid Shieldied (Only UNITRONIC® LiY(ST)CY)
- Outer Sheath : PVC
- Sheath Colour : Black (RAL 9005)

Technical data

Peak operating voltage
300 V (not for power applications)

Conductor stranding
Fine wire strands of bare copper accordance to UL758

Temperature range
Fixed installation : -40°C to 80°C

Article number	Article designation	Dimensions (AWG)	Outer diameter (mm)	Core/Outer Sheath Material

ETHERLINE®

Data communication systems for ETHERNET technology

Our ETHERLINE® branded products open up a secure, fast and reliable path to the future of Ethernet applications, e. g. PROFINET®. The systems are made up of durable and robust cables and connection components for passive and active network technology, and deliver an effective solution for almost any application, particularly in an industrial environment.

Application range

- Industry and building networks
- Industrial machinery and plant engineering
- Automation technology
- Control engineering

UNITRONIC® LAN 200 UTP CAT.5e

Info

- PVC or Halogen-free outer sheath
- Solid conductor
- 200 MHz

Application range

- Data transfer for horizontal network backbone for wiring office administration and development buildings
- Cable run should not exceed 100 m in acc. to ISO/IEC 11801 and EN 50173

Product features

- Transmission rate up to 200 MHz
- Flame retardant acc. to IEC 60332-1-2
- Halogen free acc. to IEC 60754-1 (for Halogen free outer sheath only)

Product Make-up

- Solid bare conductor
- PE core insulation
- PVC or Halogen-free outer sheath
- Colour: pebble grey, RAL 7032
- Packaging: 305 m/box

Technical data

Classification
ETIM 5.0 Class-Description: Data cable
ETIM 5.0 Class-ID: EC000830

Core identification code
Pair 1 : blue + white/blue
Pair 2 : orange + white/orange
Pair 3 : green + white/green
Pair 4 : brown + white/brown

Mutual capacitance
max. 56.0 pF/m (core-core)

Minimum bending radius
Fixed installation: 4 x cable diameter

Characteristic impedance
100 ± 15 Ohm at 100 MHz

Temperature range
-20°C to +70°C

Article number	Article designation	Number of pairs and AWG per conductor	Outer diameter (mm)	Outer sheath type	Copper index (kg/km)	Weight (kg/km)

UNITRONIC® LAN 250 UTP CAT.6

Info

- PVC or Halogen-free outer sheath
- Solid conductor
- 250 MHz

Application range

- Data transfer for horizontal network backbone for wiring office administration and development buildings
- Cable run should not exceed 100 m in acc. to ISO/IEC 11801 and EN 50173

Product features

- Transmission rate up to 250 MHz
- Flame retardant acc. to IEC 60332-1-2
- Halogen free acc. to IEC 60754-1 (for Halogenfree outer sheath only)

Product Make-up

- Solid bare conductor
- PE core insulation
- PVC or Halogen-free outer sheath
- Colour: pebble grey, RAL 7032
- Packaging: 305 m/box

UNITRONIC® LAN 500 U/FTP CAT.6A

Info

- PVC or Halogen-free outer sheath
- Solid conductor
- 500 MHz

Application range

- Data transfer for horizontal network backbone for wiring office administration and development buildings
- Cable run should not exceed 100 m in acc. to ANSI/TIA-568-C.2, ISO/IEC 11801 and EN 50173

Product features

- Transmission rate up to 500 MHz
- Flame retardant acc. to IEC 60332-1-2
- Halogen free acc. to IEC 60754-1 (for LSHF outer sheath only)

Product Make-up

- Solid bare conductor
- Foam PE core insulation
- Individual pair screen of Al foil
- Solid tinned copper drain wire
- PVC or LSHF outer sheath
- Colour: pebble grey, RAL 7032
- Packaging: 305 m/box

Intertek

ETHERLINE® LAN CAT.6A

Ethernet cable for Category 6A/ class EA -verified up to 500 MHz

Info

- Low Smoke Zero Halogen outer sheath
- Solid conductor
- Bandwidth up to 500MHz
- Remote Powering : IEEE 802.3bt

Benefits

- LAN cables for structured building cabling according to EN 50173-1, TIA-568.2-D 2009 and ISO/IEC 11801-1
- Barrier Technology for uniform heat flow dissipation and maintain insertion loss performance. (For 8100600)
- Less risk of system slow down through 90W application. (For 8100600)

Application range

- For office wiring, administration and development buildings in tertiary sector. (floor wiring)
- Cable length in tertiary area (horizontal area, floor) should not exceed a length of 100m in accordance with ISO/IEC 11801-1, TIA-568.2-D and EN 50173 standards. (90m in cable duct + 10m in working area)
- Power over Ethernet (PoE) application upto 90W
- Support current and future Cat6a and Cat6 application such as 10GBase-T and 1000Base-T

Product features

- Transmission rate up to 500MHz
- Flame Retardant according to IEC60332-1-2
- Acid Gas Emission Test according to IEC60754-1&2
- Smoke Density Test according to IEC61034-2
- Remote Powering : IEEE 802.3bt Type 1, Type 2, Type 3 & Type 4

Norm references / Approvals

- ETL Verified to ANSI/TIA-568.2-D, ISO/IEC 11801-1 and EN 50173-1 Category 6A

Product Make-up

- Solid conductor 4x2xAWG23/1
- PE core insulation
- U/UTP : No overall or pair screening, 2 cores stranded to pair, 4 pairs stranded to bundle with central cross
- F/UTP : Foil shielding as overall shielding, 2 cores stranded to pair, 4 pairs stranded to bundle with central cross
- Outer Sheath as LSZH (grey RAL7032)
- Packaging : 305 m/box

Technical data

Core identification code
Pair 1 : Blue + White/Blue
Pair 2 : Orange + White/Orange
Pair 3 : Green + White/Green
Pair 4 : Brown + White/Brown

Minimum bending radius
Fixed installation : 4 x outer diameter
During installation : 8 x outer diameter

Characteristic impedance
Norm. 100Ω

Temperature range
Fixed installation : -20°C to +70°C

Article number	Article designation	Number of pairs and AWG per conductor	Outer diameter (mm)	Copper index (kg/km)	Weight (kg/km)

CAT 6 PATCHCORDS

Benefits

- Economical patch cords that fits into general commercial or industrial applications

Application range

- Office Equipment connections
- Control cabinet wiring
- Servers or routers

Norms references / Approvals

- In accordance to ANSI/TIA-568-C.2, ISO/IEC 11801

Product Features

- Available in U/UTP PVC and F/UTP LSZH versions
- Available in different lengths
- Popular colours in range, such as blue, yellow, orange, grey and black

Product Make-up

- Conductor type: Stranded bare copper wires
- Core Insulation: HD Polyethylene
- Moulded RJ45 connectors

Technical data

Core identification code
Pair 1 Blue + White/Blue
Pair 2 Orange + White/Orange
Pair 3 Green + White/Green

CE

NEW

TOSIBOX® KEY

Benefits

- Intelligent crypto-processing device that enables a secure connection between your computer and one or more TOSIBOX® Locks,Central Lock and/or Virtual Central Lock

Product features

- 2048 bit RSA key in the cryptographic module
- 4 GB or larger flash memory storage for TOSIBOX® Key software and settings
- USB 2.0 interface, type A, with standard CSP/PKCS#11

Product Make-up

- Durable light metal alloy casing
- Including one Mobile Client for Android or iOS
- 83 mm x 22 mm x 10 mm / 3.27" x 0.87 x 0.39" (L x W x H)

Technical data

Operating temperature 0 °C to +70 °C
Storage temperature -20 °C to +80 °C

TOSIBOX® SoftKey

The virtual key for your TOSIBOX® ecosystem

Info

- The SoftKey is computer- and user-specific. It cannot be copied over or moved to another device
- The access rights are granted and controlled from the physical TOSIBOX Key, after which the SoftKey remains bound to it
- To activate SoftKey on a PC or Mac, you will need SoftKey license for the Master Key

Benefits

- TOSIBOX® SoftKey is a computer software that enables a secure connection between the computer and one or more TOSIBOX® Locks, giving the user full visibility and control over the network devices connected to the Lock
- TOSIBOX® SoftKey can be installed into cloud services and virtual environments
- TOSIBOX® SoftKey can be created and access right can be granted immediately even from other side of the world
- Two-factor authentication is fulfilled also with SoftKey: device-specific (something in your possession) and password-protected (something only you know)

Application range

- TOSIBOX® SoftKey can be used in computers that do not have an USB port or where the use of USB devices is tricky

Product features

- Cryptographic key size and type : 4096 bit RSA
- Data encryption: TLS, Blowfish-128-CBC, AES-128-CBC, AES-256-CBC
- Comes with two-factor authentication
- VPN connection type: Layer 2 / Layer 3 (OpenVPN)

NEW

TOSIBOX® 150

Benefits

- SIMPLE - Build and manage secure IoT infrastructure in minutes
- SECURE - Tested & audited security
- MODULAR - Unlimited expandability and flexibility
- COMPATIBLE - Integrate seamlessly with legacy and future systems
- UNIQUE - Globally patented point-to-point connection

Application range

- Remote access and networking device for secure access of HMIs, PLCs, PCs and other devices or systems over the Internet.

Product features

- Patented TOSIBOX® Plug & Go™ connection method takes you out of the box and into use in less than 5 minutes, without the need for software installations, network configurations or special IT skills
- NAT and firewall friendly
- VPN throughput up to 10 MB/s, end-to-end encryption between TOSIBOX® devices
- Up to 10 concurrent VPN connections
- Reliability with TosiOnline™ - automatic re-connection of dropped connections

Product Make-up

- Cast aluminium casing
- 132 mm x 99 mm x 35.5 mm / 5.2” x 3.9” x 1.4” (L x W x H)
- Weight 593 g / 1.31 lbs (net weight article)
- Accessories in package include: RJ-45 Cat6 Ethernet cable, USB extension cable, 2 x WLAN antennas, 2 dBi, AC Adapter: Input 100 240V AC, DC input plug, DIN rail mounting bracket

Technical data

Operating temperature -20 °C to +50 °C

NEW

TOSIBOX®LOCK 210

Industrial router with built-in firewall for LAN Networks

Benefits

- SIMPLE - Build and manage secure IoT infrastructure in minutes
- SECURE - Tested & audited security
- MODULAR - Unlimited expandability and flexibility
- COMPATIBLE - Integrate seamlessly with legacy and future systems
- UNIQUE - Globally patented point-to-point connection

Application range

- Device serves as endpoints for secure remote connections in operational (OT) networks

Product features

- 30 Mbps VPN throughout and end-to-end encryption from Key to Lock, Lock to Lock or Lock to (Virtual) Central Lock
- Up to 20 concurrent VPN connections
- TosiOnline™ feature for automatically reconnecting dropped connections

Product Make-up

- Industrial design: robust and fanless enclosure, integrated DIN rail bracket and industrial screw-on DC power connector
- 1 x RJ-45 WAN & 3 x RJ-45 LAN connections, 10/100 Mb/s, auto-negotiation (MDI/MDI-X)
  110 mm x 58 mm x 127 mm /
  4.33” x 2.28” x 5.0” (L x W x H)
- Weight 495 g / 1.09 lbs
- Accessories include: RJ-45 Cat5e Ethernet cable, I/O connector and power connector plug

Technical data

TOSIBOX®LOCK 500

The next generation Plug & GO™ connectivity device

Benefits

- SIMPLE - Build and manage secure IoT infrastructure in minutes
- SECURE - Tested & audited security
- MODULAR - Unlimited expandability and flexibility
- COMPATIBLE - Integrate seamlessly with legacy and future systems
- UNIQUE - Globally patented point-to-point connection

Application range

- Remote access and networking device for secure access of HMIs, PLCs, PCs and other devices or systems over the Internet.

Product features

- Massive VPN throughput for data consuming applications, end-to-end encryption between TOSIBOX® devices
- NAT and firewall friendly
- Integrated WiFi as connectivity method or access point for wireless devices on site.
- Built-in LTE modem (optional), with two modem variants covering most of the globe no external modem needed
- Up to 50 concurrent VPN connections

Product Make-up

- 110 mm x 58 mm x 127 mm / 4.33" x 2.28" x 5.0" (L x W x H)
- TBL5*: Weight 495 g / 1.09 lbs (net weight article)
- TBL5i*: Weight 505 g / 1.11 lbs (net weight article)
- Accessories in package include: RJ-45 Cat5e Ethernet cable, 2 x WiFi antennas, 2 dBi, I/O connector plug, Power connector plug. Additional accessories for TBL5*PS version: AC adapter - Input 100 240 V AC, frequency 47 63 Hz,Output 12.0 V, 1.6 A, max 19.2 W. EU, UK, AU and US power socket and DC feed cable

TOSIBOX® CENTRAL LOCK

Benefits

- SIMPLE - Build and manage secure IoT infrastructure in minutes
- SECURE - Tested & audited security
- MODULAR - Unlimited expandability and flexibility
- COMPATIBLE - Integrate seamlessly with legacy and future systems
- UNIQUE - Globally patented point-to-point connection

Application range

- Remote access and networking device for secure access of HMIs, PLCs, PCs and other devices or systems over the Internet.

Product features

- Over 700 Mbit/s encryption throughput
- 1000 concurrent remote connections per LAN network
- Encryption and authentication PKI, 3072 bit RSA
- Data encryption TLS, AES-256-CBC / Blowfish-128-CBC
- Mirrored hard disks (RAID 1)

Product Make-up

- One 1 Gbit/s WAN port and Four 1 Gbit/s LAN ports
- 570 mm x 430 mm x 43 mm / 22.44" x 16.93" x 1.69" (L x W x H)
- Accessories include Ethernet cable 1m x 2, power cord (EU power plug) and extension power cord
- Net weight, article + accessories: 12.0 kg / 26.46 lbs

Technical data

Operating temperature 10°C to 30 °C / 50 °F to 86 °F

Connecting the World through Remote Data Access, Secure Monitoring and Control

LAPP's strategic partnership with Tosibox brings you a simple, affordable and scalable way to build a secure digital access infrastructure. World class security straight out of the box.

As the world's purpose-designed OT networking standard, Tosibox holds a globally patented technology for automating remote connectivity and OT networking to devices connected to the Industrial Internet of Things (IIoT)

Along with LAPP's wide network across Asia Pacific and trusted portfolio supported by UNITRONIC®, ETHERLINE®, EPIC®and HITRONIC® brands, the collaboration will accelerate the development of a new industrial infrastructure for digital ecosystems

4 EPIC®

Industrial connectors

EPIC® industrial connectors can be found everywhere in industrial machinery and plant engineering, for measuring, control and drives. EPIC® is a flexible system of housings, inserts and contacts: all extremely robust, absolutely safe and simplicity itself to assemble.

Application range

- Electronics and telecommunications
- Measurement, testing and control technology
- Industrial machinery and appliances
- Drive technology and industrial automation
- Photovoltaic plants

Solar Connectors

SOLAR CONNECTORS 1.5KV F-TYPE

Connectors suitable for the PV industry

Info

- Field-mountable and panel-mountable connectors

Benefits

- Low contact resistance for efficient power transmission (<=0.3m ohms)
- Crimp connection for field and panel mounting
- Suitable for various OLFLEX SOLAR cables

Application range

- Photovoltaic plants and solar parks

Product features

- 4mm connector system with double hook
- Inclusive of contacts

Norm references / Approvals

- UL
- TUV

SOLAR CONNECTORS 1.5KV R-TYPE

Connectors suitable for the PV industry

Benefits

- Quick and easy snap-in & outward lock types
- Combines 4 & 6 sq mm types into 1 part number, ensuring ease of selection
- Suitable for various ÖLFLEX® solar cables

Application range

- Connection between solar panels
- Connection of solar panels to combiner box or main control panel

Product features

- 4mm connector system with double hooks
- Connectors are inclusive of crimp contacts
- Field mount & panel mount versions available

SKINTOP®

Cable glands

Simply feed in the cable and twist. That's it. Our SKINTOP® cable glands provide secure connections in no time. The universal systems are simple but effective. They secure and centre the cable, hermetically seal it and guarantee optimum strain relief.

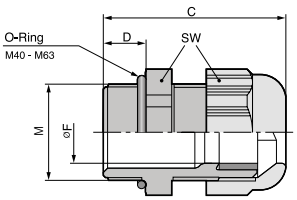
Application range

- Industrial machinery and plant engineering
- Drive systems
- Measurement and control technology
- Renewable energies
- Wherever cables need to be fastened securely and quickly

Single Entry Glands

SKINTOP® ST-M Gland & Nut Combi Pack

SKINTOP® ST-M, increased oil-resistant plastic cable gland with variable clamping ranges, permanent vibration protection, for offshore platforms.



Info

- Refer to SKINTOP® metric accessories for suitable accessories
- Now with IP69 approval! Proven to withstand the most demanding cleaning procedures for industrial machinery with high-pressure cleaners and hot water!

Benefits

- High oil-resistance for maximum reliability
- Permanent vibration protection
- Wide, variable clamping ranges
- Optimum strain relief
- Various accessories (e.g. multiple sealing inserts)

Application range

- Used in areas where a lot of cables and wires need to be inserted into housings with minimum space requirements
- Machine and equipment manufacturing
- Photovoltaic
- Automation technology
- Offshore platforms, equipment and shipyards

Norm references / Approvals

- UL File Nr. E79903
- GGVS: TÜ.EGG.020-95

Product Make-up

- Metric connection thread acc. to DIN EN 60423
- Basis for technical information DIN IEC 62444

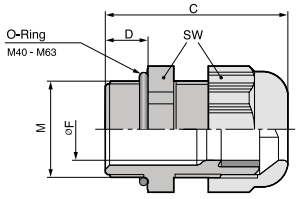
SKINTOP® STR-M Gland & Nut Combi Pack

SKINTOP® STR-M, increased oil-resistant plastic cable gland
with permanent vibration protection and reducing seal insert



Info

- Now with IP69 approval! Proven to withstand the most demanding cleaning procedures for industrial machinery with high-pressure cleaners and hot water!

Benefits

- High oil-resistance for maximum reliability
- Permanent vibration protection
- Wide, variable clamping ranges
- Optimum strain relief
- Various accessories (e.g. multiple sealing inserts)

Application range

- With reducing seal insert, to seal cables with smaller outer diameters

Norm references / Approvals

- UL File Nr. E79903
- GGVS: TÜ.EGG.020-95

Product Make-up

- Metric connection thread acc. to DIN EN 60423
- Basis for technical information DIN IEC 62444

SKINTOP® BS-M Gland & Nut Combi Pack

SKINTOP® BS-M, plastic cable gland with bending and anti-kink protection, to protect flexible cables, for moving machine parts

Benefits

- Reliable bending and anti-kink protection
- Cable conservation
- Functional reliability
- To protect flexible cables

Application range

- Cables for electrical appliances and machinery that are moved under normal use must be protected against excessive bending as required in accordance with VDE 0700-1
- Handheld device
- Robotics Industry
- Light and sound applications
- Moving machine parts

Norm references / Approvals

- UL File Nr. E79903

Product Make-up

- Metric connection thread acc. to DIN EN 60423

E1FW CABLE GLAND

Suitable for Steel Wire Armoured (SWA) cables

Info

- Flameproof
- Zone 1, Zone 2, Zone 21 and Zone 22 Hazardous Areas
- Restricted Breathing

Application range

- The CMP E1FW Tri-Star Cable Gland is suitable for use with all forms of equipment protection permitted in Zone 1, Zone 2, Zone 21, and Zone 22, provided always that the prevailing code of practice for selection and installation is observed, e.g. IEC 60079-14

Product features

- CMP Type E1FW Tri-Star Triple CertifiedFlameproof (Type d), Increased Safety (Type e),and Restricted Breathing (Type nR) cable gland for use in Zone 1, Zone 2, Zone 21, and Zone22 Hazardous Areas with Steel Wire Armour(SWA) cable
- Provides a Flameproof seal on the cable inner bedding
- Gas tight seal has been tested to prove compatibility with Restricted Breathing equipment
- Allows mechanical cable retention and earth continuity via the cable armour termination

Norm references / Approvals

- ATEX Certificate: CML 18ATEX1324X, CML 18ATEX4316X
- IECEx Certificate: IECEx CML 18.0181X
- EAC (Formerly GOST R, K & B): C-GB.AA87.B.00487
- INMETRO Approval: TÜV 12.0618X
- KCs Certificate: 14-GA4BO-0257X
- CCOE / PESO (India) Certificate: P444949
- CCC: 2020322313002870
- RETIE Approval: 03866
- Marine Approvals: LRS: 01/00172, DNV: E-13848, ABS: 20-LD1948801-PDA, BV: 43180/A1BV

Product Make-up

- E1FW Tri-Star Type
- BS 6121: Part 1: 1989, EN 50262: 1999

Technical data

Classification
ETIM 5.0 Class-Description: Cable screw gland
ETIM 5.0 Class-ID: EC000441

Note
Cable Type: Steel Wire Armour (SWA) Armour Clamping: Detachable armour cone and anyway universal clamping ring. Sealing Technique: CMP inner displacement and unique CMP LRS™ outer seal - Load Retention Seal Sealing Areas: Cable inner bedding and cable outer sheath. Optional Accessories: Locknut, Shroud, Entry thread sealing washer, Serrated washer,Earth tag, Adaptor/Reducer

Material
Body: Brass Seal: CMP SOLO LSF Thermoplastic Elastomer

Protection rating
IP66 as standard, IP67 / IP68 available on request. Deluge Proof when fitted with optional CMP O-ring in the cable gland body joint

Temperature range
-60°C up to +130°C

E1FX CABLE GLAND

Suitable for Steel Wire Armoured (SWA) cables

Info

- Flameproof
- Zone 1, Zone 2, Zone 21 and Zone 22 Hazardous Areas
- Restricted Breathing

Application range

- The CMP E1FX Tri-Star Cable Gland is suitable for use with all forms of equipment protection permitted in Zone 1, Zone 2, Zone 21, and Zone 22, provided always that the prevailing code of practice for selection and installation is observed, e.g. IEC 60079-14

Product features

- CMP Type E1FX Tri-Star Triple CertifiedFlameproof (Type d), Increased Safety (Type e),and Restricted Breathing (Type nR) cable gland for use in Zone 1, Zone 2, Zone 21, and Zone22 Hazardous Areas with Steel Wire Armour(SWA) cable
- Provides a Flameproof seal on the cable inner bedding
- Gas tight seal has been tested to prove compatibility with Restricted Breathing equipment
- Allows mechanical cable retention and earth continuity via the cable armour termination

Norm references / Approvals

- ATEX Certificate: CML 18ATEX1324X, CML 18ATEX4316X
- IECEx Certificate: IECEx CML 18.0181X
- EAC: TC RU C-GB.AA87.B.00487
- INMETRO Approval: TÜV 12.0618X
- KCs Certificate: 14-GA4BO-0257X
- CCOE / PESO (India) Certificate: P444949
- CCC: 2020322313002870
- RETIE Approval: 03866
- Marine Approvals: LRS: 01/00172, DNV: TAE00000Y, ABS: 20-LD1948801-PDA, BV: 43180/A1BV

Product Make-up

- E1FX Tri-Star Type
- BS 6121: Part 1: 1989, EN 50262: 1999

Technical data

Classification
ETIM 5.0 Class-Description: Cable screw gland
ETIM 5.0 Class-ID: EC000441

Note
Cable Type: Wire Braid Armour, Screened Flexible Wire Braid (e.g. CY/SY) , Pliable Wire Armour (PWA), Steel Tape Armour (STA), Aluminium Strip Armour (ASA) , Armoured and jacketed. Armour Clamping: Detachable armour cone and anyway universal clamping ring. Sealing Technique: CMP inner displacement and unique CMP LRS™ outer seal - Load Retention Seal Sealing Areas: Cable inner bedding and cable outer sheath. Optional Accessories: Locknut, Shroud, Entry thread sealing washer, Serrated washer, Earth tag, Adaptor/Reducer

Material
Body: Brass Seal: CMP SOLO LSF Thermoplastic Elastomer

Protection rating
IP66 as standard, IP67 / IP68 available on request. Deluge Proof when fitted with optional CMP O-ring in the cable gland body joint

Temperature range
-60°C up to +130°C

CW CABLE GLAND

Suitable for armoured cables, SWA and AWA

Info

- Suitable for SWA and AWA cable

Application range

- CMP CW type brass indoor and outdoor cable gland for use with all types of Single Wire Armour (SWA), Aluminium Wire Armour (AWA)cable, providing an environmental seal on the cable outer sheath.

Product features

- The CMP CW range of industrial cable glands are designed and tested to BS 6121-1:1989meets our surpasses the requirements of EN 62444 and IEC 62444
- Produced from the Brass grade CuZn39Pb3(CW614N) to EN12168

Norm references / Approvals

- GOST R Certificate: POCC.GB.HA46.H00140
- Marine Approvals: LRS: 01/00171 (E1), ABS: 16-LD1472056-PDA

Product Make-up

6 Tools and cable accessories

General applications

CABLE-TY Cable Ties

Multi-purpose cable ties to keep things securely fastened, in the right bundles & at the right places

Benefits

- Cable accessories that are suitable for keeping things fastened together
- Economical and easy to use
- Material has good resistance to bases, oils, greases, oil derivates and choride solvents
- Limited resistance to acids
- Black coloured cable ties are UV resistant and can be used in outdoor applications
- Must-to have item in every industry, for cable management applications

Application range

- Can be used anywhere that requires fastening or bundling items together
- Most commonly used to fasten cables & wires

Norm references / Approvals

- In acc. to UL62275
- Flammability according to UL94 V2

Product features

- Non-releaseable cable ties
- Cable ties come with one-off, self locking mechanism that works like straps to keep cables neat and tidy

Product Make-up

- Available in different lengths and sizes
- Available in packs of 100 pcs per article number

Technical data

- If not otherwise specified, all values relating to the product are nominal values. Other value information, such as tolerances, for example, can be obtained on request where available and released for publishing.
- Photographs are not to scale and do not represent detailed images of the respective products.

Extensive Range of Tools & Cable Accessories

TOOLS & ACCESSORIES are comprehensive tools for electricians or technicians who need the best solution for their day to day cabling work, including:

- Hand tools for cutting, stripping, clamping, crimping, mounting or installing a cable
- Terminations for cables such as end sleeves, panel connectors or lugs in various colours, sizes and style
- EMC and Earthing (Grounding) for screen (shield) connectors, copper screening tape and ground straps
- Insulation and protection tools like Insulating tube, heat shrink tube, insulation tape and their complementary tools like heat gun (hot air gun)
- Cable organisation tools including cable ties, cable mounts and their associated tools
- Cable trolley systems such as C-Profile, I-Beam and steel wire festoon systems for cables
- Enclosures for wall mounted and junction boxes of various sizes

As the leader in cabling solutions, LAPP is the expert on many aspects of handling and installing cables, connectors and other cabling components – not forgetting our great customer service and technical advice.

1. General

The **resistance** of the product materials in the application environment, correct product assembly and subjected load in the context of permitted limit values (technical data) have a significant impact on the safety and durability of our products. Products are not suitable for the use inside airplanes and helicopters, incl. drones or other direct air and space travel applications. Notes on product usage and technical data can primarily be found on the catalogue product pages, both in the text sections and the tables provided

Length or meter markings are four-digit number combinations that are counted consecutively and increased by 1 per meter. The counting start point is chosen freely. Meter markings are to be understood as length markings and they are only an indication/tool (e.g. for simple measurement or for the determination of the remaining length) and are not metrically registered. An accuracy of ±1% is intended. To determine the exact (residual/delivery) length, we use of course calibrated cable measuring devices. As often no calibrated measuring systems are used for the meter marking, inaccuracies in meter marking are no defect.

Cables might contain talc which as with most dusts or particulate materials can cause temporary discomfort and skin irritation due to allergic reaction.

Questions?

Contact us; we are happy to help: **lapp.apac@lapp.com**

2. Cables and wires

The applications of cables and wires are extremely diverse and thus governed by a whole range of application standards in the various standard groups (IEC, EN, NEC, ...).
One example is the international standard IEC 60204-1:2009, Electrical equipment of machines – Part 1: General requirements) with reference to the requirements of cables and wires as well as their application conditions.

In all cases, meeting these **general** specifications requires the user to perform a professional examination as to the existence of **specific** product standards with other/extended requirements that may take precedence.

In this case, support is provided by the catalogue product pages in the form of product and application standards – e. g. "Oil resistance according to VDE 0473-811" or "Railway applications:
DIN EN 50306-2". In the area of low voltage harmonised cables (e.g. H05VV5-F/ÖLFLEX® 140), DIN EN 50565-2 (VDE 0298-565-2) in table 1A provides a list of requirements and criteria that are largely applicable to other low voltage cables as well as notes on recommended applications.

In addition, the application information provided in IEC publication 62440:2008-02 Ed. 1.0 must be observed for electrical cables with nominal voltages up to 450/750 V.

A summary of the most important information on cable and wire applications contained in the aforementioned documents is provided below.

General

Conductors, cables and wires must be selected such that they are suitable for the relevant operating conditions (e. g. voltage, current, protection against electric shock, bundling of cables and wires) and external influences (e.g. ambient temperature, presence of water or corrosive materials, mechanical stress, incl. stress experienced during installation, fire risks).

Electrical voltage

The nominal voltage is the reference voltage for which cables and wires are constructed and tested. The nominal voltage of cables and wires used with AC supplies must be greater than or equal to the nominal supply voltage. More information for DC supply or operating voltage in Europe can be found in EN 50565-1 for harmonized cable types and in VDE 0298-3 for cable types without harmonization, for example.

The nominal voltage of cables and wires is expressed by the ratio U_0/U in volts, whereby:

- **U_0** is the effective voltage between a phase conductor and the earth (metal sheath/screening of the cable/surrounding medium/protective grounding conductor)
- **U** is the effective voltage between two phase conductors of a multi-core cable or a system of single core cables

For cables and wires subjected to voltages over 50 V AC or 120 V DC, the test voltage is a minimum of 2000 V AC for a duration of 5 minutes. For alternating currents with a maximum of 50 V and direct currents with a maximum of 120 V (typical values for SELV or PELV systems), the test voltage must be a minimum of 500 V AC for a duration of 5 minutes.

Conductor cross-sections with different measurement systems

IEC 60228 is an important international standard that describes cables with metric cross-sections. North America and other regions currently employ conductor cross-sections according to the AWG (American Wire Gauge) system with kcmil" used for larger cross-sections.

Flexible use – stationary use/Definitions

- **Continuous Flexing**
  Cables are in constant linear motion in automated applications. They are subjected to continuous forces applied during bending motions.
  Typical application:
  Horizontal and vertical c-tracks power chains, automated assemblies, etc.
- **Flexible/occasional flexing**
  Cables are moved randomly in a non-automated application.They are susceptible to occasional uncontrolled conditions of movement.
  Typical application:
  Flexible cable tray routings, machine tools, residential electronics, portable power equipment, etc.
- **Stationary use/fixed installation**
  Cables are installed and left in their original position. They are only moved for purposes of maintenance, repair or retrofitting.
  Typical application:
  Cable trays, conduits, wire ways installed in buildings, machines, manufacturing facilities, etc.

2. Cables and wires – continued

Transport and storage

Cables and wires that are not designated for outdoor use must be stored indoors, in dry conditions and protected from direct sunlight. If stored outside, all cable and wire ends must be sealed to prevent the ingress of water.

The ambient temperature for transport and storage must be between -25 °C and +55 °C (max. +70 °C for no longer than 24 hours).

Particularly in the lower temperature ranges, mechanical stress through vibration, shock, bending and twisting must be avoided. This is especially important for PVC-insulated cables and wires. The following guidelines apply for the maximum storage of cables and wires before use and without prior testing:

- One year if stored outdoors
- Two years if stored indoors

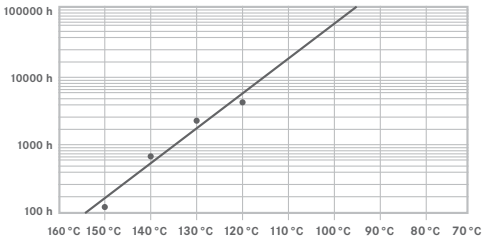
3. Cable glands and cable bushings

SKINTOP® and SKINDICHT® cable glands and cable entries represent highest quality levels and over 30-years of expertise in the relevant areas of application.

Along with quality, the correct usage of these products with regard to operational safety is the most important factor. For this reason, we would like to remind you to observe all relevant standards for your intended application. In addition to the technical data on the product pages, please also refer to the technical tables (T21 - thread dimensions for cable glands, tightening torques and T22 - protection ratings to DIN EN 60529) in our main catalogue, as well as the supplied package leaflets describing product usage (e.g. package leaflet for products acc. to DIN EN 60079-0, DIN EN 60079-7).

4. Service life

The average service life of cables is dictated not just by the mechanical and chemical stress, but also by the operating or ambient temperature. As is customary in mechanical engineering, the continuous temperature range of a cable, as specified in our technical data, refers almost exclusively to a period of at least 20,000 h. The adjacent example of an ageing curve according to Arrhenius illustrates the behaviour of an insulating material on the basis of time and temperature. The material tested here has a temperature index of approx. +110 °C at 20,000 h. The material can also be specified with an index of +135 °C, but in this case only for a duration of approx. 3000 h.



5. Connection technology

The quality of an electrical connection greatly depends on the choice of suitable components in the relevant nominal cross-sections and the use of recommended tools for processing.

Size differences between the cable and the tubular cable lug/conductor end sleeve are attributable to the fact that class 5 and 6 conductors can be pressed with just one crimp contact – even if the conductors have different structures (bunched, stranded or compressed conductors). Despite the sleeves appearing to be too large for the relevant cross-sections, the correct combination of conductor, contact and tool will ensure gas-tight crimping. The dimensional accuracy at the aforementioned connection points is governed by standards, incl.:

- DIN EN 60228 (VDE 0295), September 2005 – “Conductors for cables and insulated leads”
- DIN 46228 – 4, September 1990 – “Tubular end-sleeves with plastic sleeve”
- Crimping quality according to DIN 46228-1 and DIN EN 50027

6. Testing and inspection

The operator must ensure that the correct functioning and condition of electrical systems and equipment is checked by or under the supervision of a certified electrician. This must occur prior to initial commissioning and before reactivation following any modifications or maintenance work.

Inspection intervals must be set such that any problems that can reasonably be expected are identified in good time. In many cases, the service life of LAPP products can only be established empirically in the relevant applications. Indicators for inspection intervals can be based, for example, on the temperature load (see “Service life”) or the number of permitted alternating bending cycles for drag chains (see information on relevant product pages in the catalogue).

6. Testing and inspection – continued

As a rule, cables and wires in fixed installations will have a longer service life and will thus also be suitable for longer inspection intervals.

Shorter intervals are recommended for cables and wires used at the limit of their permitted parameters. This applies to the following in particular (see also “Technical data” and “Application” on the relevant product pages in the catalogue):

- Minimum bending radius
- Temperature range
- Presence of radiation (e.g. sunlight)
- Existence of tensile strain
- Influence of surrounding chemical substances and unverified resistance
- In the case of water accumulation or condensation in the area of the connection points. Cables and wires should be subjected to a visual inspection to identify any changes to their appearance. This should be done no later than when the cables or wires are likely to have been exposed to excessive loads (be they electrical, thermal, mechanical or chemical).

7. Copyright and updated standards

We aim to observe the copyright of the images/graphics and texts used in this catalogue, and to primarily utilise our own or licence-free images/graphics and texts.

By specifying standards and using extracts from standards, we aim to support our customers with important information on safe use of our products.

Please note that as the catalogue gets increasingly old, the specified standards/standard extracts may no longer be fully up to date.

To preserve copyright and ensure that standards are up to date, we recommend that our customers and users of this catalogue refer to the latest applicable standards from an authorised source.

Thread and hole dimensions – technical data for installation

Metric thread to EN 60423 (for screw connections to IEC 62444)

Tightening torques* for SKINTOP® metric cable glands

Table of recommended tightening torques (domed cap nut, connection thread) for metric SKINTOP® glands to achieve ingress protection and category A strain relief according to IEC 62444. For more information regarding the protection rating, see the product page.

Nominal size	Tightening torque in Nm	
	Plastic	Metal
M6 x 1	-	1.5
M8 x 1	-	3
M10 x 1	-	6
M12 x 1.5	1.5	8
M16 x 1.5	3.0	10
M20 x 1.5	6.0	12
M25 x 1.5	8.0	12
M32 x 1.5	10.0	18
M40 x 1.5	13.0	18
M50 x 1.5	15.0	20
M63 x 1.5	16.0	20
M63 x 1.5 plus	-	25
M75 x 1.5	-	30
M90 x 2	-	70
M110 x 2	-	90

*NOTE: The values in the table above constitute the tightening torques for fittings and the maximum tightening torques for domed cap nuts under normal climatic conditions.
Note that lower torques must be used with different cable insulation materials; otherwise, the cable insulation may be damaged.
For ATEX screw connections, see the corresponding operating instructions for the respective tightening torques (operating instructions can be found in the delivery bag).

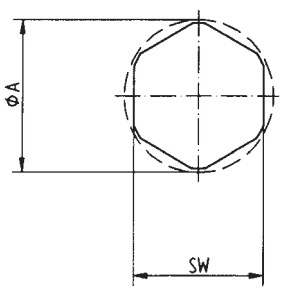
26	29.5	47	52.5		



Definition of protection ratings to DIN EN 60529 (VDE 0470-1: 2014-09)

The protection ratings are indicated by a code that is always made up of the same two identification letters IP and the code numbers for the degree of protection.

Degrees of protection against solid foreign bodies

First code number	Short description	Definition
0	Not protected	
1	Protected against solid foreign bodies 50 mm diameter and above	The object probe, sphere of 50mm diameter, shall not fully penetrate.
2	Protected against solid foreign bodies 12.5 mm diameter and above	The object probe, sphere of 12.5 mm diameter, shall not fully penetrate.
3	Protected against solid foreign bodies 2.5 mm diameter and above	The object probe, sphere of 2.5 mm diameter, shall not penetrate at all.
4	Protected against solid foreign bodies 1.0 mm diameter and above	The object probe, sphere of 1.0 mm diameter, shall not penetrate at all.
5	Protected against dust	Intrusion of dust is not completely prevented but dust shall not penetrate in a quantity that would interfere with the satisfactory operation of the device or impair safety.
6	Dust-tight	No penetration of dust.

Degrees of protection against water

Second code number	Short description	Definition
0	Not protected	
1	Protected against drops of water	Vertically falling drops shall have no harmful effects.
2	Protected against drops of water if the housing is tilted by up to 15°.	Vertically falling drops shall have no harmful effects if the housing is tilted by up to 15° on either side of the vertical.
3	Protected against spraying water	Water sprayed at an angle of up to 60° on either side of the vertical shall have no harmful effects.
4	Protected against splashing water	Water splashed against the housing from any direction shall have no harmful effects.
5	Protected against jets of water	Water projected in jets against the housing from any direction shall have no harmful effects.
6	Protected against powerful jets of water	Water projected in powerful jets against the housing from any direction shall have no harmful effects.
7	Protected against the effects of temporary immersion in water	Water must not penetrate in quantities causing harmful effects when the housing is temporarily immersed in water under standardised pressure and time conditions.
8	Protected against the effects of permanent immersion in water	Water must not penetrate in quantities causing harmful effects when the housing is continually immersed in water under conditions that must be agreed upon between the manufacturer and the user. However, the conditions must be more difficult than for number 7.
9	Protected against high-pressure and steam-jet cleaning (with high temperatures)	Water projected against the housing from any direction under very high pressure shall have no harmful effects

NOTE: Starting from September 2014 the description of degree of protection IP 69K has changed to IP 69, all test basics remain the same according to DIN EN 60529 (VDE 0470-1 : 2014-09) - Degrees of protection provided by enclosures (IP Code).

FOR EXAMPLE: Identification letters IP **65**

Second code number: Protection against liquids.

First code number: Protection against contact with and penetration of foreign bodies.
