To our customers & business partners

27.01.2022

## Customer information: pandemic situation

Dear customers,  
dear business partners,

we would like to give you a status on the current extraordinary situation.

We are very sorry that recently there are availability bottlenecks and delivery date postponements for some of our products. We would like to explain the current situation to you:

The enormous demand for raw materials and goods, as well as the tense situation in the worldwide logistics continue to delay the sufficient production and stocking of goods. For these reasons, it is currently not always possible for us to fulfill your delivery in terms of time and quantity as you are used to.

Most of our suppliers are still struggling with shortages of material and personnel and are therefore only partially able to provide the required material or production capacity. In addition, there is currently an immense shortage of raw materials on the entire world market, which has already caused the supply situation to deteriorate for a long time.

Of course, we are taking all measures to keep the negative effects of the current situation as low as possible and to be able to supply you as soon as possible without delays.

We are constantly in close contact with our production facilities and our suppliers to remedy the unsatisfactory situation as quickly as possible.

We assure you that we are doing everything in our power to solve this unpleasant situation and to continue to offer you our best possible service.

Thank you for your understanding.

If you have any further questions, please do not hesitate to contact us.
