EPIC[®] Codepin for H-A 3 und H-A 4 Series

To encode the H-A series there is a new codepin.
The pin will be separate from the carrier before pushing into the female plastic contact holder.

The use of the pin leads the loss of one contact.
On the male insert, the corresponding contact has to be removed.

The new PIN is available from stock and replace the previous version 10451300:
