LAPP GROUP

www.lappgroup.com

To contact your local Lapp Group representative
please visit www.lappgroup.com/worldwide

Welcome

Please come in and look around. Irrespective of which cable, line, plug and accessory you require for your particular application, you will find exactly what you need here. We have more than 40,000 different standard articles in stock. We also deliver within 24 or 48 hours. Special tasks demand special solutions. In this case too, you need look no further than our company. In addition to the comprehensive range of standard Lapp products, we can also offer you individual cable assemblies and the engineering involved.

You should also be aware of the following: Lapp is one of the leading international system providers. Our brands are used in the most varied of applications, branches and global markets. One of our principles states: when striving for perfection we should rely on no-one but ourselves. This is why we manufacture everything in our own production sites. We also have numerous sales companies and logistics centres around the world, which enable us to be close to our customers. We're somewhere near you too!

To contact your local Lapp Group representative please visit
www.lappgroup.com/worldwide

For the use of our products is valid

The conformity of our products with the relevant European directives and compliance with the provisions contained therein shall be indicated by the CE marking.

The safety of our products is closely associated with how they are used. A knowledge of and adherence to the respective international/national standards of use (e.g. DIN VDE 0100; 0298) are mandatory.

There are particular risks if installed improperly. This applies to all our products/items:

Processing is only to be done by an authorized electrician! Otherwise, there is the risk of an electric shock or a fire ignited by electric current!

Safety

Without exception our products are tested for application safety in accordance with laid down standards and our own regulations, which complement the standards. Relevant legal requirements and safety regulations are also observed. Provided due care and attention is paid, the possibility of product-specific danger to the user may thus reasonably be excluded. Where products are used carelessly or incorrectly, however, consider-

able danger to persons and the environment may arise. For this reason, our cables must only be processed and /or used responsibly by trained electricians or specialists. This catalogue contains general information for the application of each product. Independent of such information, the application standards DIN VDE 0298 and DIN VDE 001 for cables will apply. Excerpts from these standards, as well as complementary selection

and application tables, design and installation guidelines, are contained in the tables in the appendix to our Main Catalogue 2010/11. Our machines and installation tools are - where necessary - designed in accordance with the machine guidelines and display the CE identification mark. It must be noted, however, that our machines and installation tools must only be used by trained specialized personnel and for the purpose for

which they were designed. ©Copyright by U.I. Lapp GmbH. Reprinting or reproduction of the text or the illustrations may be made only with written approval and with correct indication of source. We reserve the right to make modifications to our products, especially those based on technical improvements or continued development. All illustrations and numerical data etc. are therefore without warranty and are subject to change.

Brand quality from Stuttgart

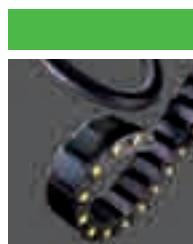

ÖLFLEX® Power- and control cables

The world's first brand cable is available in the most varied of versions to match maximum requirements.

Key features: Oil-resistant, flexible and available to match almost any requirement or environmental condition – also free of halogens.

Fields of application: Multipurpose. Special variants are more and more in demand in the area of renewable energies.

SILVYN® Protective cable conduit- and cable carrier systems

The brand for all-round cable protection.

Key features: The product range includes SILVYN® cable protection hoses for perfect protection against mechanical and chemical loads, along with SILVYN® CHAIN energy supply chains for highly-dynamic applications.

Fields of application: Everywhere that cables have to be additionally protected or routed.

UNITRONIC® Data communication systems

The ideal brand for fast, trend-setting and reliable data transfer.

Key features: UNITRONIC® are not only data lines, but also bus lines, which together with active sensor/actuator modules or gateways provide a perfect system for automation.

Fields of application: Measurement, control, regulation, bus or LAN networks.

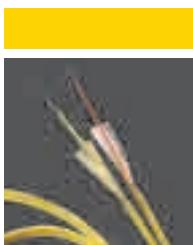

EPIC® Industrial connectors

The brand for strong and reliable connections.

Key features: Robust square and circular connectors. Flexible system consisting of housings, inserts, contacts and accessories – for every requirement, the tailor-made solution. Similarly, EPIC® SOLAR plugs for photovoltaics are also part of the extensive product range.

Fields of application: Mechanical and systems engineering, and drive technology.

HITRONIC® Optical transmission systems

The brand for split-second, fault-free, intercept-free data transport.

Key features: The HITRONIC® product range includes fibre optic cables in the most varied of versions, along with suitable accessories such as splice boxes, wall distributors or couplings.

Fields of application: Office and industrial sector.

ETHERLINE® Data communication systems for ETHERNET-Technology

The brands for network solutions, safety systems and firewalls in the industrial networking sector.

Key features: Integral system consisting of hardware (switches, routers, cables, plugs etc.), software, consulting, network design and support.

Fields of application: Factory automation.

SKINTOP® Cable glands

The brand for multipurpose cable entries in line with the following: quickly fastened, centred and hermetically sealed.

Key features: Large clamping areas, optimum strain reliefs, the most diverse of versions such as SKINTOP® CLICK, COLD or CUBE.

Fields of application: Everywhere, where cables must be fastened reliably and quickly.

FLEXIMARK® Cable marking products

The brand for permanent, clearly-arranged cable markings.

Key features: Comprehensive range – from manual labelling solutions onto digital identification. Withstands high chemical, thermal and mechanical loads.

Fields of application: All cable, single cores, control cabinets.

At home in Stuttgart, but known all over the world

The World of Lapp is based in Stuttgart. This is where it all started for our company, which was founded in 1959 as U.I. LAPP KG (now U.I. LAPP GmbH). From its headquarters in Stuttgart we have determinedly evolved to become a global player – with currently 16 production plants in Europe, Asia and America, 40 sales companies and more than 100 sales partners. The larger Lapp companies such as Russia, India, China, Canada and Mexico have their own warehouses. The others are promptly supplied through our high-performance logistics centres. At our Lapp Centres we are also strongly committed to enhancing the knowledge of our employees and customers. After all, knowledge is the ink with which the future is written down.

One of our most successful “products” is that of proximity to our customers. On the one hand, we practice intensive dialogue with designers and planners, manufacturers and users. This enables us to identify new requirements and trends at a much earlier stage, to quickly provide you with suitable solutions. Innovation leadership put into active practice.

On the other hand, proximity to our customers really means something to us: our presence extends all round the globe. As a reliable partner on a local basis we support our customers in exploiting markets by providing them with short delivery times and low logistics costs.

A place in the sun

It is a massive area, a thin layer of modules stretching out as far as the eye can see. With a total of 540,000 modules, it will be one of the largest photovoltaic power plants in the world, located in the province of Lop Buri in Thailand.

Neutral Energy Development Co. Ltd. (NEC) ordered 1,200 kilometres of cross-linked ÖLFLEX® SOLAR XLR cables for this installation from JJ-Lapp Cable in Singapore, a joint venture company of the Lapp Group.

The ÖLFLEX® SOLAR XLR is one of the highlights from the extensive Lapp Group photovoltaic programme. It has been approved according to the TÜV design standard (Technical Inspection Association) and boasts a particularly high thermal resistance (-40 to +120°C).

This guarantees a long life, even under the most extreme of climate conditions. The

cables are used in the Lop Buri installation for the cabling of the thin-layer modules, as well as for connecting the individual rows of modules and linking up to the inverter.

When it is finished, the installation is set to generate 55 megawatts of power, enough to supply 70,000 households with electricity.

One of the world's largest photovoltaic power plants is being installed in the Lop Buri province, Thailand. – The connections are made using ÖLFLEX® SOLAR by Lapp

Complete range for photovoltaic

The use of solar energy has been increasing for many years and this trend is continuing. Photovoltaics has a wide range of uses, from major energy plants to small domestic applications.

The fact that we recognised the potential of this market very early on and have built up specialist expertise in this area demonstrates once again the innovative tradition of our company. Our offering ranges from developing tailored products to advising you on planning and conversion matters.

After taking into account the full range of operational requirements, Lapp offers a specifically tailored comprehensive range of cables, plugs and photovoltaic accessories for cabling photovoltaic plants – we are the system of choice!

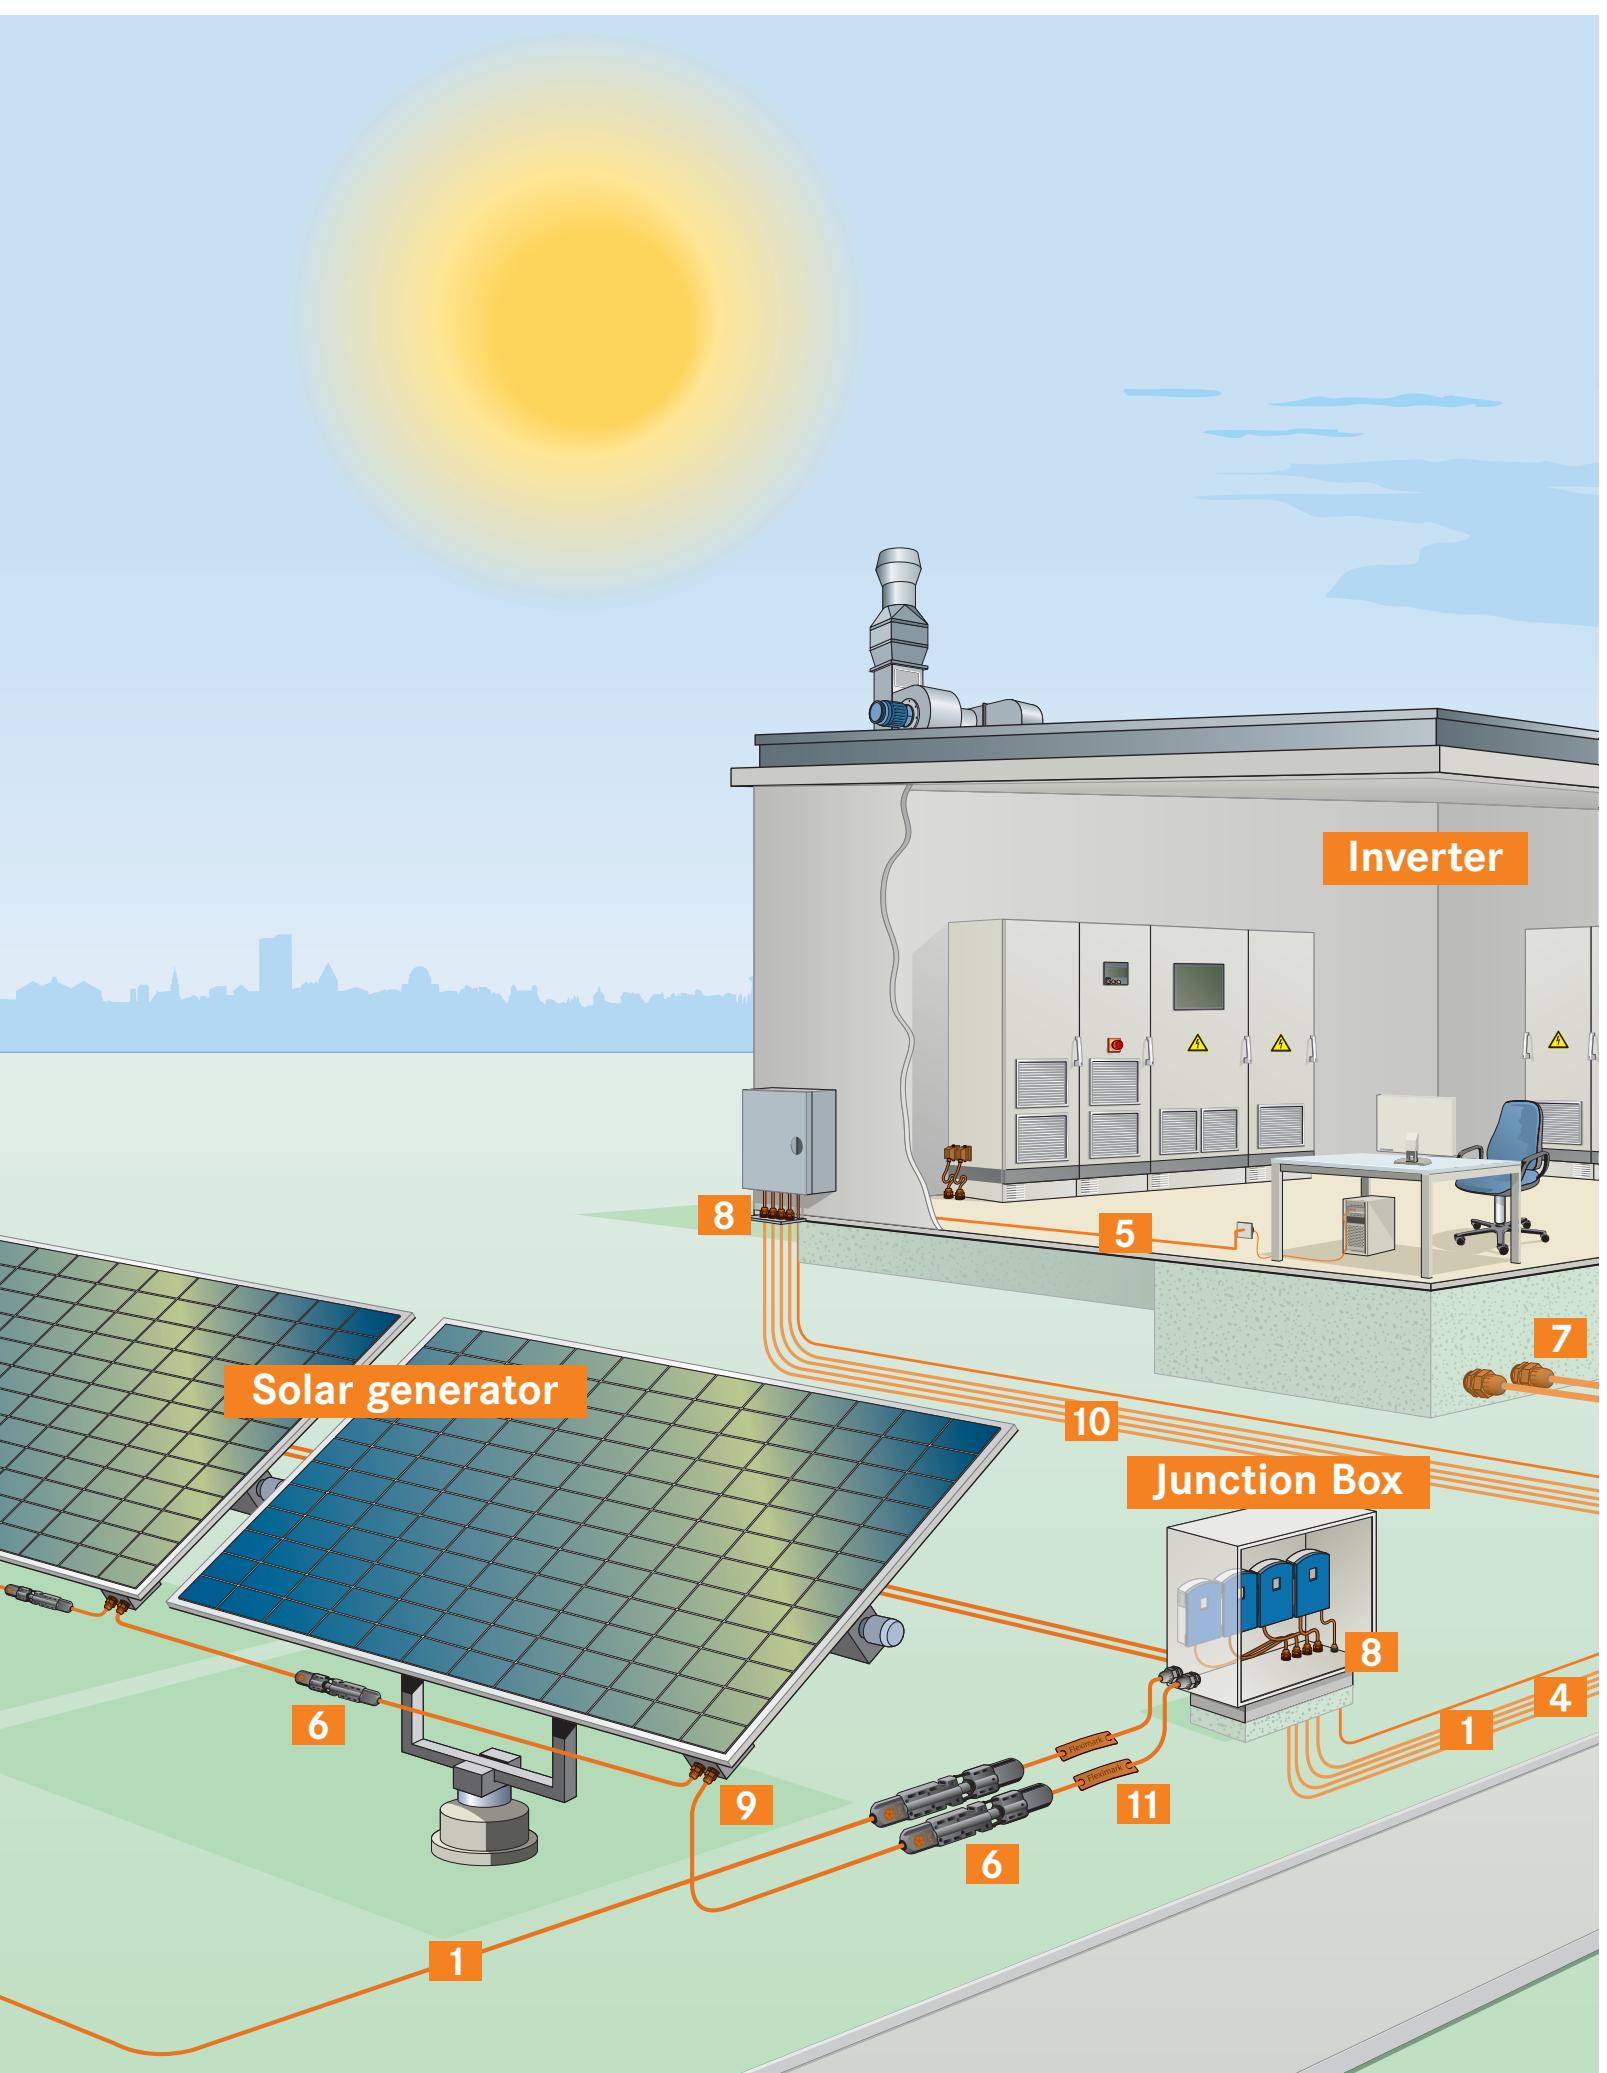

In collaboration with users, the TÜV (German Association for Technical Inspection) and the North American UL approval organisation, a variety of tests have been carried out on our ÖLFLEX® cables, SOLAR cables, SKINTOP® cable glands and EPIC® SOLAR connectors to guarantee the highest quality standards. Our products can be used throughout the world and naturally also comply with the RoHS directive.

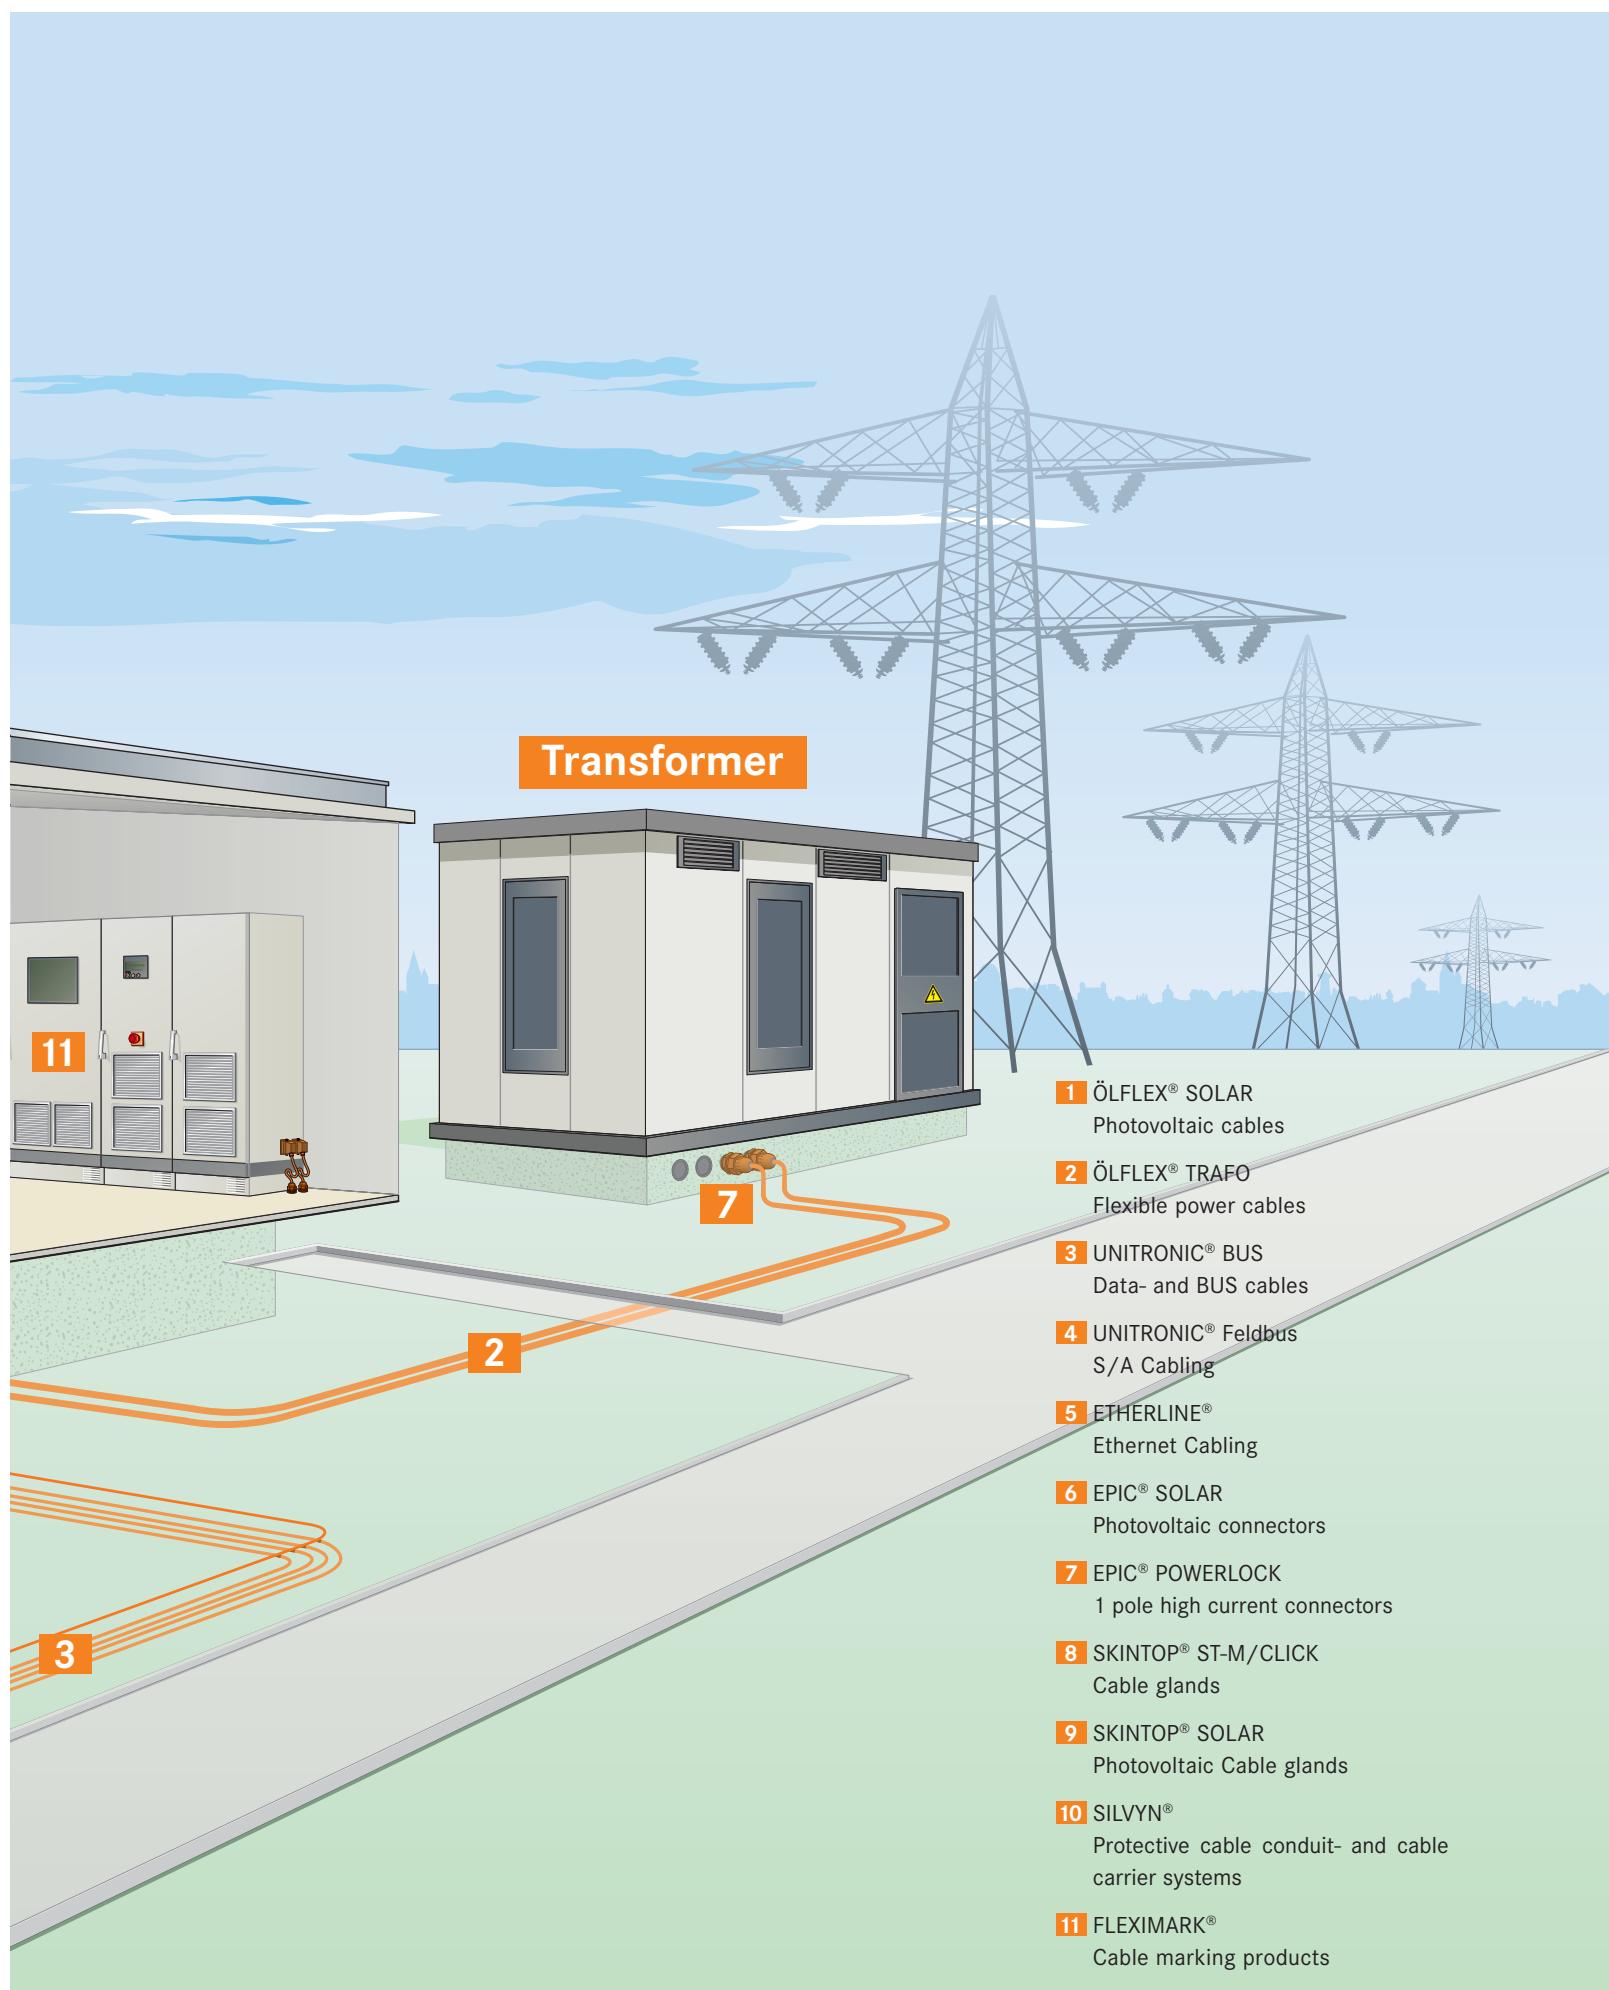

ÖLFLEX® SOLAR cables are used at a huge photovoltaic field in Boívera (Spain).

The Solar system by Lapp

Our confession to solar technology

Says Siegbert Lapp, member of the board of Lapp Holding AG, "nothing is more environment-friendly than receiving energy directly from the sun. This is our confession to the solar technology."

As an environmental-orientated company and one of the leading suppliers for the wind and solar industry, Lapp Group also wants to take part in this trend.

Clear solutions around the solar panel!

On the following pages we want to introduce products which were especially developed in co-operation with users from the photovoltaic branch. Let it be weather resistant cable installations, safe cable entries or the

interconnection of single solar modules – the brands ÖLFLEX® – SKINTOP® – EPIC® – SILVYN® and FLEXIMARK® from Lapp Group offer solutions for all applications.

Info

- According to DKE requirements specification PV1-F
- TÜV Type Approved (2PfG 1169/08.07)

■ Benefits

- Reduced outer diameter enables space saving installation
- Reduction of flame propagation as well as of toxic combustion gases in the event of fire
- Variously coloured core insulations simplify on demand the differentiation of the polarity during installation
- High thermal capacity for long lasting operation of the PV system at all seasons
- Exact quantity control during installation by meter marking on the cable sheath

■ Application range

- For cabling of solar modules among themselves and as extension cable between the individual module strings or DC/AC inverter
- Gable and flat roof photovoltaic systems
- Photovoltaic resp. solar fields
- For the cabling of flexible or building-integrated photovoltaic systems

■ Product features

- Good weather- and temperature resistance
- Good notch and abrasion resistance
- Good heat pressure resistance
- Halogen-free and flame retardant
- Resistant against oxalic acid and sodium hydroxide

■ Approvals (Norm references)

- TÜV Type Approved (2PfG 1169/08.07)
- Halogen-free according to EN 50267-2-1/-2
- Ozone resistant according EN 50396
- Weather-/UV resistant according HD 605/A1
- Acid-/Brine resistant according EN 60811-2-1

■ Design

- Conductor: Fine wired tinned copper strands
- Core insulation: Electron beam cross-linked copolymer
- Core insulation colour: Black, red or blue
- Outer sheath: Electron beam cross-linked Copolymer
- Outer sheath colour: Black

■ Technical data

ÖLFLEX® SOLAR XLR multi 600V

UL listed solar cable according NEC for application in North America

Info

- Acc. to UL Subject 4703 Type PV Wire

■ Benefits

- Standard-compliant application for exposed wiring of PV systems in North America in compliance with US NFPA 70 NEC article 690.31 (National Electrical Code)
- High thermal capacity for long lasting operation of the PV system at all seasons
- Reduction of flame propagation as well as of toxic combustion gases in the event of fire
- Robust against mechanical impact
- Exact quantity control during installation by meter marking on the cable sheath

■ Application range

- For cabling of solar modules among themselves and as extension cable between the individual module strings or DC/AC inverter
- Gable and flat roof photovoltaic systems
- Photovoltaic resp. solar fields

■ Product features

- Good weather- and temperature resistance
- Good notch and abrasion resistance
- Good heat pressure resistance
- Halogen-free and flame retardant
- Cold bend and cold impact resistant (-40°C)

■ Approvals (Norm references)

- Acc. to UL Subject 4703 Type PV Wire
- Halogen-free according to EN 50267-2-1/-2
- Flame retardant according IEC 60332-1-2, UL VW-1, Vertical Flame Test FV-1, CSA FT 2
- Ozone resistant according EN 50396

■ Design

- Conductor: Fine wired tinned copper strands
- Core insulation: Electron beam cross-linked copolymer
- Core insulation colour: Red
- Outer sheath: Electron beam cross-linked Copolymer
- Outer sheath colour: Black

UL listed solar cable according NEC for application in North America

Info

- c(UL)us listed according USE-2 resp. RWU90
- For the North American market

■ Benefits

- The c(UL)us listings enable the use for wiring of PV systems in whole North America. According the NEC (National Electrical Code) only especially for outdoor purposes listed cables are permitted in the USA for PV installations
- High thermal capacity for long lasting operation of the PV system at all seasons
- Reduction of flame propagation as well as of toxic combustion gases in the event of fire
- Exact quantity control during installation by meter marking on the cable sheath

■ Product features

- Good weather-, abrasion-, temperature- and UV resistance
- Weatherproof according to ISO 4892-2 respectively UL 1581 Section 1200
- Halogen-free and flame retardant (IEC 60332-1-2)

■ Approvals (Norm references)

- According UL USE-2/CSA c(UL) RWU90

■ Application range

- For cabling of solar modules among themselves and as extension cable between the individual module strings or DC/AC inverter
- Gable and flat roof photovoltaic systems
- Photovoltaic resp. solar fields

■ Design

- Conductor: Fine wired tinned copper strands
- Core insulation: Special polyolefin, cross-linked

ÖLFLEX® SOLAR XLSv

Robust solar cable with big conductor cross sections

Info

- For high electrical power loads
- Suitable for direct burial

LAPP KABEL STUTTGART ÖLFLEX® SOLAR XLSv ROMS CE

Benefits

- Reinforced outer sheath offers enhanced protection against mechanical stress
- High thermal capacity for long lasting operation of the PV system at all seasons
- Reduction of flame propagation as well as of toxic combustion gases in the event of fire
- For outdoor use and considering general installation guidelines also suitable for direct burial
- Exact quantity control during installation by meter marking on the cable sheath

Application range

- For cabling of individual module strings as well as for fixed solar generators and moved tracking systems
- Photovoltaic resp. solar fields
- Big conductor cross-sections are used as collecting main to transmit high power loads between the individual panel-strings and as connection to the DC/AC inverter of huge PV plants respectively solar fields

Product features

- Good weather-, abrasion-, temperature- and UV resistance
- Good heat pressure resistance
- Halogen-free and flame retardant

Approvals (Norm references)

- Weather-/UV resistant according HD 605/A1
- Flame retardant according to IEC 60332-1-2
- Halogen free in accordance with IEC 60754-1
- Ozone resistant according EN 50396
- Acid-/Brine resistant according EN 60811-2-1

Design

- Conductor: Fine wired tinned copper strands
- Core insulation: Special polyolefin, cross-linked
- Outer sheath: Cross-linked copolymer
- Outer sheath colour: Black

Technical data

Core identification code
Black

Conductor stranding
Fine wire in accordance to VDE 0295
Class 5 / IEC 60228 Class 5

Minimum bending radius
Fixed installation: 4 x cable diameter

Rated voltage
AC U₀/U : 600/1000 V
DC U₀/U : 900/1500 V
Max. permissible operating voltage:
DC 1800 V

Test voltage
AC 6500 V

Range of temperature
Fixed installation:
-40° C up to +100 °C

Special applications

Photovoltaic

New

ÖLFLEX® TRAFO XLv 1,8/3 kV

Flexible and mechanically robust single-conductor power cable

Info

- Voltage rating 1,8/3 kV
- Halogen-free and flame retardant
- Suitable for direct burial

Benefits

- Reinforced outer sheath offers enhanced protection against mechanical stress
- Extended temperature range for application in harsh climatic environmental conditions
- Reduction of flame propagation as well as of toxic combustion gases in the event of fire
- For outdoor use and considering general installation guidelines also suitable for direct burial
- Flexible and fine-wired conductor design enables easily on-site installation

Application range

- Applications with voltage rating 1,8/3 kV
- In the field of renewable energy as well as conventional power generation
- Photovoltaic resp. solar fields
- Drip loop installation in wind turbines
- As connection between the converter and the transformer substation

Product features

- Good weather-, abrasion-, temperature- and UV resistance
- Good heat pressure resistance
- Halogen-free and flame retardant
- Torsion-resistant up to ±150 °/mtr

Approvals (Norm references)

- Weather-/UV resistant according HD 605/A1
- Flame retardant according to IEC 60332-1-2
- Halogen free in accordance with IEC 60754-1
- Ozone resistant according EN 50396
- Acid-/Brine resistant according EN 60811-2-1

Design

- Conductor: Fine wired tinned copper strands
- Core insulation: Special polyolefin, cross-linked
- Outer sheath: Cross-linked copolymer
- Core insulation and outer jacket inseparably extruded together
- Outer sheath colour: Black

ÖLFLEX® SOLAR V4A

High-grade steel armoured solar cable

Info

- Protected against martens, rodents and termites

■ Benefits

- Stainless high-grade (class V4A) steel wire braiding protects very effective against martens, rodents and even termites
- Robust against mechanical impact
- Reduction of flame propagation as well as of toxic combustion gases in the event of fire

■ Application range

- For the use in PV systems for instance on stable and barn roofs in densely forested areas and farmsteads
- Gable and flat roof photovoltaic systems
- Photovoltaic resp. solar fields

■ Product features

- Weathering-, abrasion and UV resistant
- Halogen-free and flame retardant
- Good heat pressure resistance

■ Approvals (Norm references)

- Flame retardant according to IEC 60332-1-2
- Halogen-free according to EN 50267-2-1/-2
- Weather-/UV resistant according HD 605/A1

■ Design

- Conductor: Fine wired tinned copper strands
- Core insulation: Cross-linked polymer
- Outer sheath: special polymer
- Outer sheath colour: Black
- Armouring: high-grade stainless steel wire braiding (V4A)

Fixed, buried PVC cable with different application areas

**Application range**

- As a fixed installation power and control cable for the following applications:
- For indoor- and outdoor use
- Direct burial
- In concrete
- In water

Product features

- Flame retardant according to IEC 60332-1-2
- Power rating acc. to HD 603 part 3G for outdoor laying and as per VDE 0298 part 4 (see also appendix T12) for laying in and on buildings

Approvals (Norm references)**Design**

- Conductor of bare copper wires
- Core insulation: Based on PVC
- Filling compound over the core assembly
- PVC based outer sheath

Technical data**Core identification code**

Up to 5 cores: according to VDE 0293-308
(appendix T9)

Starting at 6 cores: Black with white numbers

Approvals

VDE 0276 Part 603 (for 1-5 cores)
VDE 0276 Part 627 (from 7 cores)

**Conductor stranding**

Single or multi-wire

**Minimum bending radius**

Single core: 15 x outer diameter
multi-core: 12 x outer diameter

**Rated voltage**

U_0/U : 0,6/1,0 kV

**Test voltage**

4000 V

**Range of temperature**

For installation: +5°C up to +50°C

Fixed installation: -40°C up to +70°C

RE-2Y(ST)Yv

Application range

- RE-2Y(ST)Yv is intended for use wherever modern process computers have to process large volumes of data, e.g. high capacity computer systems in waste incineration plants or sewage treatment plants.
- Cables are suitable for use in dry and damp rooms, and the black version can also be used outdoors or for direct burial.

Product features

- Computer cable with reinforced outer sheath
- Colour: black (based on RAL 9005) or blue for intrinsically safe systems (based on RAL 5015)
- Flame retardant according to IEC 60332-1-2

Approvals (Norm references)

Design

- Bare stranded copper conductor, PE core insulation, cores twisted into pairs, pairs in layers plus 1 core for communication, core colour orange
- Foil wrapping, aluminium laminated plastic foil static screen with tin plated drain wire
- Reinforced PVC outer sheath
- In case of single-pair or 3-core versions the communication core is not applicable

Technical data

Core identification code

a-core: black
b-core: white
with consecutive numbers:
1-1, 2-2, 3-3, 4-4 etc.

Three-way version:
black, white, red

Mutual capacitance
(guideline values at 800 Hz):
C/C: 0.5 mm²: max. 75 nF/km
(guideline values at 800 Hz):
C/C: 1.3 mm²: max. 100 nF/km

Peak working voltage
(not for power applications)
Max. 300 V

Insulation resistance
> 5 GOhm x km
Conductor resistance
0.5 mm²: max. 39.2 Ohm/km
1.3 mm²: max. 14.3 Ohm/km

Minimum bending radius
Fixed installation: 7.5 x cable diameter

Short-range crosstalk attenuation
At 60 kHz min. 0.88 dB/km

Test voltage
C/C: 2000 V
C/S: 1000 V

Range of temperature
Flexible application:
-5°C up to +50°C
Fixed installation: -40°C up to +70°C

Characteristic impedance
Approx. 100 Ohm

Part number	Number of pairs and mm ² per conductor	Outer diameter in mm	Copper index kg/km	Weight kg/km
0.5 mm² black				
0032411	1 x 2 x 0.5	8.2	15.0	74

UNITRONIC® Li2YCYv (TP)

**Application range**

- UNITRONIC® Li2YCY (TP) is particularly suitable for wiring from data systems at transmission rates up to 10 Megabit per second and is qualified for the serial interfaces RS422 and RS485.
- Cables of this kind are designed for fixed installation in dry and damp interiors and for conditional flexible use.
- UNITRONIC® Li2YCYv (TP) model with reinforced black outer sheath (Yv) is suitable for inside and outside use as well as burial in the ground.

Product features

- Flame retardant according to IEC 60332-1-2

Design

- As UNITRONIC® Li2YCY (TP), however with reinforced Yv PVC outer sheath
- Colour: black (RAL 9005)

Technical data

	Core identification code DIN 47100, see Appendix T9
	Peak working voltage (not for power applications) at 0.14 mm ² : 350 V at >= 0.25 mm ² : 500 V
	Insulation resistance > 5 GOhm x km
	Minimum bending radius Fixed installation: 7.5 x cable diameter
	Short-range crosstalk attenuation Up to 1 MHz min. 50 dB Up to 10 MHz min. 40 dB
	Range of temperature Static: -30°C up to +80°C Flexing: -5°C up to +70°C

Accessories

- SKINTOP® MS-SC-M
- Multipurpose shears A and B
- STAR STRIP stripping tool
- STEEL GUN HT-338 cable tie pliers
- LS steel cable ties

UNITRONIC® BUS PB Y 7-W FC BK

Outdoor installation / UV-resistant

■ Benefits

- UV and weather resistant in black
- 7-W: 7-wire, e.g. for applications where vibrations occur
- Fast Connect (FC) cable design
- Cables can be used for PROFIBUS-DP as well as PROFIBUS-FMS and FIP

■ Application range

- PROFIBUS® (in accordance with DIN 19245 and EN 50170, e.g. for SIEMENS SIMATIC® NET, also suitable for FIP - Factory Instrumentation Protocol).

■ Product features

- PVC compound TM2 acc. VDE 0281-1 or HD 21.1

- At room temperature mostly resistant against influence of acids, soaps, and determined oils

■ Approvals (Norm references)

■ Design

- Stranded conductor, 7-wire, bare
- Foam Skin - core isolation (O2YS)
- Alulaminated foil
- Braided shielding made of tin-plated copper wires
- Outer sheath PVC, black

■ Suitable tools

- FC Strip stripping tool

■ Technical data

	Mutual capacitance (800 Hz): max. 30 nF/km
	Peak working voltage (not for power purposes) 250 V
	Minimum bending radius Fixed installation: 8 x outer diameter Flexing: 15 x outer diameter
	Test voltage Core/core: 1500 V Core/screen: 1500 V
	Range of temperature Flexing: -10°C up to +70°C Fixed installation: -40°C up to +80°C
	Characteristic impedance 150 +/- 15 Ohm

All product related values as shown are nominal values unless specified differently. Further values, e.g. tolerances we submit on request - if available and released for publication.

UNITRONIC® BUS PB Yv

Outdoor installation / direct burial + UV-resistant

**■ Benefits**

- Rugged, UV- resistant and weatherproof
- Cables can be used for PROFIBUS-DP as well as PROFIBUS-FMS and FIP

■ Application range

- PROFIBUS® (in accordance with DIN 19245 and EN 50170, e.g. for SIEMENS SIMATIC® NET, also suitable for FIP - Factory Instrumentation Protocol).

■ Product features

- Reinforced PVC outer sheath

■ Approvals (Norm references)**■ Design**

- Copper conductor, solid, bare
- Foam Skin - core isolation (O2YS)
- Alulaminated foil
- Braided shielding made of tin-plated copper wires
- Outer sheath: reinforced PVC (black)

- FC Strip stripping tool

EPIC® Data PROFIBUS Connectors 90° LED Screw Terminals

EPIC® Data PROFIBUS Connectors 90° LED Screw Terminals

Info

- Interoperable to market standard

■ Benefits

- 3 status LEDs indicate: bus operation, station transmitting, terminating resistor
- Simplify status investigation
- Standardized interfaces
- Cost saving because of quick installation
- Easy to connect

■ Application range

- Automation technology
- Mechanical engineering
- Plant engineering
- Tool shop
- Control engineering

■ Product features

- Screwing connection
- Switchable terminating resistor integrated
- Switch can also be operated when the connector is plugged and setting is clearly visible
- When being used as a through connector (two cable connections, node) the switch must be in the "OFF" position, if being as a terminal resistor (one cable connection) the switch must be in the "ON" position

- If the switch is in the "ON" position the outgoing bus cable is disconnected

■ Approvals (Norm references)

- Sub-D connection / pin assignment in accordance with PROFIBUS

■ Design

- Sub-D plug, 9-pole
- Metalized housing
- Cable outlet 90°
- For cable diameter: 5.0 ... 8.0 mm
- (-PG) Additionally with programming/diagnostic interface: Sub-D socket, 9-pole

■ Suitable cables

- Cables for BUS-Systems PROFIBUS-DP/ FMS/FIP page 30
- Cables for BUS-System PROFIBUS-PA

■ Technical data

	Dimensions 64 mm x 40 mm x 17 mm (LxWxH)
	Connection type Screwing
	Pollution degree 2
	Weight Approx. 40 g
	Degree of protection IP20
	Outgoing cable 90°
	Termination resistor Resistor combination integrated, connectable with slide switch
	Transmission rate max. 12 MBit/s
	Interfaces PROFIBUS-station: SUB-D socket, 9-pole PROFIBUS-cable: 4 terminals for wires up to 1,0 mm²
	Current consumption max. 35 mA
	Permissible ambient conditions Surrounding air temperature: 0°C...+60°C Transport and storage temperature: -25°C...+80°C
	Relative humidity: max. 75% at +25°C
	Voltage consumption 4.75 .. 5.25 V DC (device is energized)

S/A M8 connectors that can be assembled

S/A M8 connectors that can be assembled

■ Benefits

- Quick and easy on-site assembly
- Creating individual cable lengths
- Standardized interfaces

■ Application range

- Automation technology
- Mechanical engineering
- Plant engineering
- Tool shop
- Automotive industry

■ Product features

- 3 and 4-position version
- Fast connection and screw connection design
- Free of substances which would hinder coating with paint or varnish

■ Approvals (Norm references)

■ Suitable cables

- Cable for sensor / actuator components page

■ Technical data

IP	Degree of protection IP 68

S/A M12 flush-type connectors with M16 fastening thread

S/A M12 flush-type connectors with M16 fastening thread

■ Benefits

- Flexible connection solutions for individual device concepts
- Simple installation in devices
- Standardized interfaces

■ Application range

- Automation technology
- Mechanical engineering
- Plant engineering
- Tool shop
- Automotive industry

■ Product features

- M12 panel feed-through with punched on single litz wires
- Panel feed-through with M16 fastening thread
- Front mounting
- M12 A-coded with quick locking system
- Free of substances which would hinder coating with paint or varnish

■ Approvals (Norm references)

■ Design

- PUR halogen-free single litz wires, l = 0.5 m
- 0,34 mm²

UL approvals are to be taken from data sheet (www.lappautomation.com)

Info

- Power cable, universally useable

Power cable: M12 connector on free conductor

Power cable: M12 connector on free conductor

■ Benefits

- Power connecting cable for active fieldbus modules
- Inexpensive and efficient wiring of sensors and actuators
- Space saving because of compact dimensions
- Customised construction of free conductor end
- Standardized interfaces

■ Application range

- Automation technology
- Mechanical engineering
- Plant engineering
- Tool shop
- Automotive industry

■ Product features

- 4-pos. Power cable
- M12 A-coded with quick locking system
- Design with straight connector or straight socket on free conductor end
- The cables have marker carriers
- Drag chain suitable

■ Approvals (Norm references)

■ Design

- PUR/PVC cable
- Permanently flexible control cable
- Design: 4 x 0.75 mm² (42 x 0.15 mm)
- Conductor colours brown, white, blue, black

■ Technical data

Degree of protection
IP65/IP67/IP69K

Ambient temperature (operation)

Plug/socket
-25°C to +90°C

Cable, fixed installation
-25°C up to +80°C

Cable, flexible installation
-5°C up to +80°C

Contact material

CuSn

Contact surface material

Ni/Au

Coding

A - Standard

Material, knurles

Zinc die-cast, (nickel-plated)

Material of grip body

TPU, hardly inflammable, self-extinguishing

Wire colour

ETHERLINE® Y CAT.5e BK 2x2AWG22/7

■ Benefits

- UV and weather resistant in black
- For flexible application (7 wire stranded conductor) = Type B
- FAST ETHERNET = 100 Mbit/s

■ Application range

- Many applications with Industrial Ethernet, e.g. PROFINET type B, e.g. fixed installation and flexible use.
- At room temperature mostly resistant against influence of acids, soaps, and determined oils

■ Product features

- PVC compound TM2 acc. VDE 0281-1 or HD 21.1

■ Approvals (Norm references)

■ Design

- Stranded conductor, 7-wire, bare
- Core insulation: Based on Polyolefin
- Star quad
- Aluminum coated foil
- Screening braid of tinned copper wires
- PVC outer sheath

■ Technical data

 Peak working voltage
(not for power purposes) 125 V

 Minimum bending radius
Fixed installation: 10 x outer diameter
Flexing: 15 x outer diameter

 Test voltage
Core/core: 1000 V
Core/shield: 500 V

 Range of temperature
Flexing: -10°C up to +70°C
Fixed installation: -40°C up to +80°C

 Characteristic impedance
At 1 - 100 MHz: 100 +/- 15 Ohm

Part number	Article designation	Number of pairs and AWG per conductor	Outer diameter in mm max.	Copper index kg/km	Weight kg/km
2170901	ETHERLINE® Y CAT.5e BK 2x2AWG22/7	2 x 2 x AWG22/7	6.2	30.4	59

All product related values as shown are nominal values unless specified differently. Further values, e.g. tolerances we submit on request - if available and released for publication.

Copper price basis: EUR 150 / 100 kg; For utilization and definition of 'Metal price basis' and 'Metal index' see Appendix T17

Please find our standard lengths at: www.lappkabel.de/en/cable-standardlengths

Packaging size: Coil ≤ 30 kg and ≤ 250 m, otherwise drum

Please specify the desired packaging size (e.g. 1 x 500 m drum or 5 x 100 m coils)

ETHERLINE® 2-pairs CAT.5/5e

Info

- Industrial Ethernet Cable
- CAT.5/5e

■ Benefits

- ETHERNET with the globally accepted TCP/IP protocol will most probably either provide a connection to the established "Fieldbus World" or the Sensor-Actuator level.
- Either via a gateway to the "Fieldbus World" or straight through downwards to the lowest communication level. The transmission rates are presently either 10 Mbit/s (ETHERNET) or at least 100 Mbit/s = LAN CAT.5 requirements (Fast Ethernet = Industrial Ethernet) respectively CAT.6a or CAT.7 requirements.
- With regard to transmission rates, the "ETHERNET world" is cut into:
 - ETHERNET = 10 Mbit/s
 - FAST ETHERNET = 100 Mbit/s
 - GIGABIT ETHERNET = 1000 Mbit/s

■ Product features

- In order to reach 100 m link length (like in the office area acc. to ISO 11801) for flexible and highly flexible cable types a cross section of AWG22 is necessary.
- All ETHERLINE® cables with a cross section of AWG22 are PROFINET® compliant.
- Further technical data: see Data Sheet

■ Approvals (Norm references)

■ Technical data

	Characteristic impedance 100 Ohm at 1 - 100 MHz
--	--

■ Design

- AWG22:
colour: yellow green (RAL 6018)

Part number	Article designation	Number of pairs and AWG per conductor	Outer diameter in mm max.	Copper index kg/km	Weight kg/km
For fixed installation, outdoor installation/direct burial = type A					
2170494	ETHERLINE® YY UL/CSA (CMG) CAT.5e	2 x 2 x AWG22/1	7.8	30.4	62
2170496	ETHERLINE® Y2Y ARM Type A CAT.5	2 x 2 x AWG22/1	9.3	30.4	124

All product related values as shown are nominal values unless specified differently. Further values, e.g. tolerances we submit on request - if available and released for publication.

Copper price basis: EUR 150 / 100 kg; For utilization and definition of 'Metal price basis' and 'Metal index' see Appendix T17

■ Accessories

- Field-Terminable Connector RJ45 CAT.5e FM45 see page 50
- Multipurpose shears A and B
- DATA STRIP stripping tool

Field-Terminable Connector RJ45 CAT.5e FM45

■ Product features

- Shielded version
- FM45 is a tool-free switchable, field-terminable RJ45 Connector with IDC contacting and CAT.5e performance. The eight pin connection can be re-switched, tension-resistant, and vibration-resistant. The connecting block can accommodate both screened as well as unshielded cable up to 8 mm diameter.
- Suitable for AWG23 - 26, AWG22 possible with restrictions

- IDC/piercing terminal in acc. with 60352-4
- Suitable for solid and stranded/flexible conductors
- Suitable for use in industrial applications
- Protection type: IP20

■ Approvals (Norm references)

New

EPIC® SOLAR 4 Thin M pre-assembled

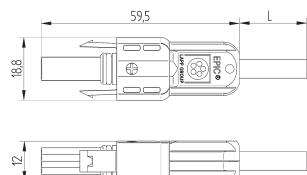

Info

- 4mm connector system with double hook
- Unresistant cable connection

Info

- 4mm connector system with double hook
- Unresistant cable connection

■ Benefits

- Unresistant cable connection for efficient power transmission
- Innovative, patented pending contact system, current leaves the connection cool
- High reliability and longevity by welded bonding
- Extra Thin 12mm for high density packing

■ Product features

- 4mm connector system with double hook
- Pre-assembled with 100% automatic control
- Wide range of wire sizes from 1.5mm² up to 6mm²
- EPIC® SOLAR 4 Thin isn't compatible with EPIC® SOLAR
- UL pending

■ Technical data

Rated voltage in V	1000 V AC/DC
Rated impulse Voltage	8 kV
Pollution degree	3
Contact resistance	< 0.2 mOhm
Degree of protection	IP68 (10h / 1m)
Protection class	II
Cycle of mechanical operation	100
Range of temperature	-40 °C up to +105 °C

■ Application range

- Pre-assembled connector cables for weather proof cabling of Photovoltaic systems

EPIC® SOLAR Module Box

EPIC® SOLAR Module Box with cables

Benefits

- Junction boxes for weather proof cabling of Photovoltaic systems

Application range

- The Module Box is used to glue on the back-side of the solar modules. The ribbon bands are terminated in the Module Box
- For further cabling the pre-assembled solar cables, like EPIC® SOLAR 4 THIN are terminated at the Module Box

Product features

EPIC® SOLAR Module Box

- Rugged junction boxes for cabling of the solar modules with solar cables, like ÖLFLEX® SOLAR

- Dimensions (WxHxD): 118 x 28,5 x 109 mm
- Housing material: PPO/PPS
- UL: in preparation

EPIC® SOLAR Module Box with cables

- These junction boxes are available with pre-assembled cables EPIC® SOLAR 4 THIN in different cross sections
- Dimensions (WxHxD): 118 x 28,5 x 109 mm
- Cable length: 1m
- UL: in preparation

Suitable cables

New

EPIC® POWERLOCK A1 C

New

EPIC® POWERLOCK A6 C

Info

- Connector for unscreened single core energy cables

■ Suitable contacts:

- EPIC® POWERLOCK Crimp contacts page 55
- Housing without contact, order contact separately

■ Benefits

- Resistant to mechanical influences in harsh environmental conditions
- Connectors in harmonized colours according to European standards
- Every colour different coded to prevent incorrect plugging
- USA Colour Code on request

■ Application range

- For Renewable Energy Plants e.g. Wind power
- For mobile and stationary power distribution
- For the connection of motors, transformers and generators
- Light & Sound technology

■ Product features

- Panel mount base, straight entry
- Contact fixing by contact retention pin, each pin can only be used once
- Housing without contact, order contact separately

Cable glands

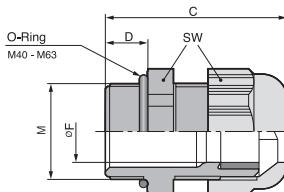

SKINTOP® cable glands plastic metric

SKINTOP® Standard

SKINTOP® ST-M / SKINTOP® STR-M

SKINTOP® ST-M

SKINTOP® STR-M

■ Benefits

SKINTOP® ST-M

- Increased oil resistant for maximum reliability
- Permanent vibration protection
- Large, variable clamping ranges
- Optimal strain relief
- Various accessories (e. g. multiple sealing inserts)

SKINTOP® STR-M

- Benefits see SKINTOP® ST-M

■ Application range

SKINTOP® ST-M

- Everywhere where cables must be safely inserted into housings.
- Machine and apparatus construction
- Photovoltaic
- Automation technology
- Mobile off shore units, equipment and ship yards

SKINTOP® STR-M

- With reducing seal insert, to seal cables with smaller outer diameters.

■ Approvals (Norm references)

- UL File Nr. E79903

■ Design

- Metric connection thread acc. to EN 50262

■ Note

SKINTOP® ST-M

- For suitable accessories see SKINTOP® metric accessories
- Counter nut to be used SKINTOP® GMP-GL-M
- SKINTOP® ST M ISO types have a extralong connection thread
- Versions SKINTOP® ST M ISO with extra long connection thread, see table, have no DNV approval

SKINTOP® STR-M

- For suitable accessories see SKINTOP® metric accessories
- Counter nut to be used SKINTOP® GMP-GL-M
- SKINTOP® STR M ISO types have a extralong connection thread
- Versions SKINTOP® STR M ISO with extra long connection thread, see table, have no DNV approval

■ Suitable cables

- For IP 69 K applications we recommend to use the following cables:
ÖLFLEX® ROBUST 200
H07RN8-F

■ Suitable tools

SKINTOP® ST-M

- SKINMATIC® QUICK Set 1
- SKINMATIC® RZ

Info

- Now with IP 69 K approval! Proven functionality also during hardest cleaning procedures at industrial machinery with high-pressure cleaners and hot water!

SKINTOP® CLICK / SKINTOP® CLICK-R

SKINTOP® CLICK

SKINTOP® CLICK-R

■ Benefits

SKINTOP® CLICK

- Fewer parts, counter nut no longer needed
- Up to 70% time saving due to innovative CLICK system
- Simple, free assembly in any position
- Vibration protection
- No thread required

SKINTOP® CLICK-R

- Benefits see SKINTOP® CLICK

- Measurement, control and electrical applications
- Air conditioning technology

SKINTOP® CLICK-R

- With reducing seal insert, to seal cables with smaller outer diameters.

■ Approvals (Norm references)

• UL File Nr. E79903

■ Scope of delivery

- Disassembly tool contained in the delivery scope

Info

- The most innovative cable insertion system on the market for very fast, highly flexible assembly. Simply click in - turn to left - turn to right - finished. Result: fixed, centred, strain relieved and maximum protection class in seconds.

■ Technical data

RAL

Colour delivered
RAL 7001 silver-grey
RAL 7035 light grey
RAL 9005 black / UV resistant

Material

Body: special polyamide
Seal: special elastomer

IP

Degree of protection
SKINTOP® CLICK
IP 68 - 4 bar (M12)
IP 68 - 5 bar (M16 - M32)

Range of temperature

Dynamic: -20°C up to +100°C
Static: -40°C up to +100°C

■ Application range

SKINTOP® CLICK

- Automation technology
- Solar applications
- Switch cabinet building

■ Scope of delivery

- Disassembly tool contained in the delivery scope

**Info**

- Cable gland for photovoltaik applications, in acc. to EN 50262, EN 50548 and UL 1703.

SKINTOP® SOLAR plus / SKINTOP® SOLAR SKINTOP® for photovoltaic

**■ Benefits**

- UV light and ozone resistant
- Weather resistant
- High strain relief
- Permanent vibration protection
- Extremely flame retardant according to UL 94 V0 / 5VA

■ Application range

- Photovoltaic resp. solar fields

■ Approvals (Norm references)**■ Design**

- Metric connection thread acc. to EN 50262

■ Note

- Counter nut to be used SKINDICHT® SM-M
- Counter nut to be used SKINTOP® GMP-GL-M

■ Design

- Version SKINTOP® SOLAR (plus) M16x1,5 pending, availability approx. September 2011.

■ Suitable cables

- ÖLFLEX® SOLAR

■ Suitable tools

- SKINMATIC® RZ
- SKINMATIC® QUICK SET 1

■ Technical data**Caution**

SILVYN® SPLIT

■ Benefits

- Dimensionally stable
- Flexible
- Compression resistant
- Additional cable protection after cable installation
- Fast and easy assembly

Info

- New sizes available

■ Technical data

On request

SILVYN® SPLIT PP

(Polypropylen)

SILVYN® SPLIT NW 54 / 70

Colour delivered

Black, RAL 9005, UV-resistant

Material

PA halogen-free

Degree of protection

IP 43 with SILVYN® SPLIT COV

Range of temperature

-40 °C up to +120 °C

■ Product features

- Halogen and cadmium-free
- Abrasion resistant
- Increased resistance against oil, petrol, acids and other chemicals

■ Approvals (Norm references)

■ Design

- Divisible corrugated polyamide 6 conduit

■ Note

- UV resistant and weather proof
- On request

SILVYN® SPLIT COS

SILVYN® SPLIT COV

■ Benefits

SILVYN® SPLIT COV

- Fast and easy assembly
- Subsequent mountable conduit insertion

SILVYN® SPLIT COS

- Fast mounting
- Easy unassembling
- Strain relief proofed connection
- No sag of the conduit
- No losable parts

■ Application range

SILVYN® SPLIT COV

- In combination with protective conduit
- SILVYN® SPLIT
- Mechanical engineering
- Electrical industry
- Everywhere where cables and wires need to be protected after assembling

SILVYN® SPLIT COS

- In combination with protective conduit
- SILVYN® SPLIT
- Fixing of conduits on machine walls for all applications

KS 20 cable shears

KS 20 cable shears

Benefits

- Adjustable screw joint
- Easy, clean cut when operating with one hand
- Low force due to favourable transmission ratio and new blade geometry

Application range

- Cuts copper and aluminium cables up to 20 mm outer diameter
- Cutting with precision grinding

Product features

- Material: Special tool steel, forged, head burnished
- Pre and after cut (1st and 2nd blade) allows cables with an external outer diameter up to 20 mm to be cut
- Not suitable for steel wire and hard-drawn copper conductors

Part number	Article designation	For outer diameter mm	Weight kg	Length in mm	Pieces / PU

Universal strip stripping and cutting tool

Benefits

- Special pliers for high quality, damage-free stripping of sheath and insulation from all single wires and possibly multiwire cables from 0.03 to 16 mm²
- Applicable with a great variety of insulations differing in hardness and dimension
- Exchangeable knives for different cable cross sections

Product features

- Model: chrome-plated with plastic handle cover
- Exchangeable knives for different cable cross sections

Design

- Additional stripping knives on request
- No pinching/deformation of cable ends

Scope of delivery

- Tool and length stop

**Application range**

- Universal stripping pliers with exchangeable stripping blades for cross sections 0.03 to 16 mm²
- Suitable for Fluoropolymer & PVC cores, AS-I, Solar, POF cables

Part number	Article designation	for mm ²	Pieces / PU

New

Twist Tail™ cable tie

Info

- No special tool needed
- Worked in the twinkling of an eye

Twist Tail™ cable tie

Benefits

- Round, flat, edge-free tie heads allow assembly without catching and protect against injury and damage at adjoining cables and components.
- The cable tie can be gripped securely and therefore tightened more easily.
- In addition, the safety gripping butt prevents the tie from slipping out during assembly and secures it before tightening it by hand.

Application range

- Industry cable ties for quick and secure assembly.

- General purpose applications, indoor and outdoor

Approvals (Norm references)

Design

- Wrap the cable tie around a bundle of cables, bend the excess tail in two directions and twist. The tail breaks right off, leaving no sharp edges to scratch your hands or your cables.
- Available in 3 different lengths and 2 colours (white and UV-resistant black)
