Teamlead Digital Platform / Enterprise Architecture

The Lapp Group has 3.770 employees, that stand up for cable technology. With a consolidated annual turnover of 1.027 Mio. EUR in year 2016/17 and 57 international companies, we are one of the leading providers.

Your Tasks:

You and your team are responsible for the close collaboration between the business- and IT-strategy with the focus on enabling digital business within one platform. You are responsible for the development of our existing data-, application- and technology architecture, focusing on an international coordination and centralization of the IT-Infrastructure. You translate corresponding business requirements to sustainable enterprise architecture in cooperation with the corporate IT-department. You analyze business processes and application infrastructure, to identify early failures. You support IT-projects and -programs via a full architecture perspective. You evaluate new technologies considering the overall enterprise architecture in order to avoid redundancies and insure the reusability of the applications.

Your Profile:

- Degree and professional knowledge as an enterprise architect
- You have a profound understanding in architecture methods, paradigm and tools (e.g. TOGAF, SAAM, ATAM, etc.)
- You have a high interest in Digital Marketing and Sales processes as well as experience with agile working methods like SCRUM or Design Thinking.
- You have a distinctive way of thinking in analytics as well as an excellent ability to communicate and assertiveness in an international context and across all hierarchical levels.
- Business fluent German and English

If you want to breathe new life into your career planning, then send us your application with information on your availability to our personnel department.

Our human resources manager Mr Uhlemann will be happy to answer any questions you may have in advance at 0711/78 38-3020 or by Mail to personal@lappkabel.de
