

Rep	Component description	mm	Features
1	<b><u>Conductor</u></b> Tinned annealed copper wire acc.to IEC60228 Cl.5		<b><u>Reference Standards</u></b> IEC60228 for conductor IEC60502-1 for design and material IEC60811 for cable test
2	<b><u>Insulation</u></b> Ethylene Propylene Rubber (EPR) Color: black Thickness	2.5	<b><u>Electric Characteristic</u></b> Conductor resistance <0.0817 Ohm/km Operation voltage: 600/1,000V Testing voltage: 3,500V
3	<b><u>Stranding</u></b> Non-hygroscopic fillers (If necessary)		<b><u>General Characteristic</u></b> Temperature range up to +90°C
	<b><u>Outer sheath</u></b> Chloroprene Rubber (CR) Color: black Thickness	3.3	Outer diameter (Approx.) 36.1mm
