

FIFTY YEARS AS A MARKET LEADER IS JUST THE BEGINNING OF **OUR STORY.**

STAYING AT THE FOREFRONT OF CABLE TECHNOLOGY.

The Lapp story may have started 50 years ago with the introduction of ÖLFLEX®, the first flexible control cable, but that was just the beginning. Ever since, we have continued to invest in research and development to deliver products that exceed both industry standards and customer expectations. In fact, ÖLFLEX® cables are designed and tested for high performance and durability allowing our customers to save money on down time and lost production. Our team can find the right cables for your application and keep you **AHEAD OF THE CURVE.**

For more information, please call 888-456-3539, visit www.lappusa.com/ÖLFLEX50 or simply scan the code with your smart phone.
