

NEW from LAPP GROUP!

EPIC® Rectangular Hole Punches for Panel Mount Bases & SKINTOP® CUBE.

The new EPIC® Rectangular Hole Punches provide a quick and accurate means of cutting clearance holes in mild steel or aluminum enclosures without sawing or filing.

As easy as 1-2-3!

Available in 4 sizes to accommodate:

- EPIC® HBE 6, HBE 10, HBE 16, and HBE 24 panel mount connector bases
- SKINTOP® CUBE multi-cable bushing system 16 and 24 rectangular frame configurations

BENEFITS TO YOU!

- Eliminates sawing and filing
- Product specific design ensures quick, easy, repeatable and dimensionally consistent hole punch operation
- Centered alignment marks on die for easy squaring with panel enclosure
- Unique 2-piece aluminum/steel die construction for lighter weight and easy scrap slug removal
- Drill guide for connector base or bushing system frame mounting screws
