ÖLFLEX® FOR AUTOMATION

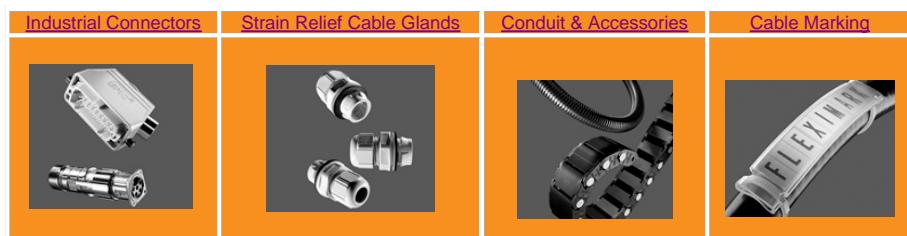

With 20 years of operating performance in the most rigorous industrial environments, ÖLFLEX® FD 890 has demonstrated its reliability as a super flexible, multi-conductor cable ideal for continuous flex applications. Super fine stranding, specially formulated PVC insulation and jacket compounds optimize flex life and provide excellent resistance to mineral oils, synthetic oils and water based coolants. When you need a cable that can withstand motion and continuous flexing at its ultimate limit without damage, Lapp ÖLFLEX® FD 890 is the cable you can trust.

- Setting the performance standards for 20 years
- Field performance for over 30,000,000 flexing cycles
- Tested for 10,000,000 flex cycles
- Fully tested for oil resistance passing UL Oil Res. I & II
- Built to withstand mechanical abuse passing UL crush impact tests
- Specially formulated jacket compound to withstand cracking, melting, softening or swelling
- Many sizes available

Lapp Group also offers a full line of industrial connectors, glands, conduits, cable marking systems and accessories:
