

FIFTY YEARS AS A MARKET LEADER IS
JUST THE BEGINNING OF **OUR STORY.**

ÖLFLEX® TRAY II MORE VALUE, MORE BENEFITS MORE THAN YOU CAN IMAGINE!

When you thought our cables couldn't get any better, they have!

Lapp's innovative new ÖLFLEX® TRAY II now has enhanced oil and temperature resistance. Due to its extreme flexibility and easier routing, ÖLFLEX® tray cables are optimal for new plant development and plant expansions. When you need a cable that can offer an even greater level of performance and longevity resulting in higher value and cost savings, Lapp ÖLFLEX® TRAY II is the cable you can trust!

- Pull more cables at a time
- Route faster and easier in tray
- Tray to Panel Direct with UL TC ER
- Fully tested for oil resistance passing UL Oil Res I & II tests
- Specially formulated jacket offers greater abrasion, scuff resistance and even greater flexibility

Lapp Group also offers a full line of industrial connectors, glands, conduits, cable marking systems and accessories:
