STAINLESS STEEL CABLE GLANDS

SKINTOP® HYGIENIC AND SKINTOP® INOX

THE RIGHT CHOICE
FOR FOOD & BEVERAGE INDUSTRY

SKINTOP® HYGIENIC and SKINTOP® INOX

– stainless steel glands for hygienically critical areas

Resistant, robust, reliable – those are SKINTOP® HYGIENIC and SKINTOP® INOX. The smooth surface enables hygienically ideal cleansing and prevents the accumulation of fluids or food-stuff remains as well as the formation of micro organisms. Both cable glands are approved to IP68/IP69 protection codes. SKINTOP® INOX presents optimized solution not only for the food and beverage industry. Thanks to its rounded design and smooth surface it provides optimal solution for most of the applications in the food and beverage productions.

SKINTOP® INOX is available in the sizes M 12x1.5 to M 50x1.5,

and is suitable for temperatures between -40°C to +100°C.

SKINTOP® HYGIENIC was developed by LAPP especially for the food and beverage industry. The ECOLAB® approved SKINTOP® HYGIENIC fulfils the stringent EHEDG standards for Hygienic Design and is further approved for direct contact with foodstuff in production facilities. That means SKINTOP® HYGIENIC meets the highest hygienic standards.

SKINTOP® HYGIENIC features high chemical resistance against aggressive, acidic and alkaline industrial cleaners as well as oil, UV light and ozone.
