

# Terms and conditions & delivery provisions

(valid from 2019-03-22)

LAPP Miltronic AB applies the Sveriges Verkstadsindustrier (VI) [Association of Swedish Engineering Industries] General Supply Provisions NL 01 for deliveries in Sweden, Norway, Finland and Denmark as well as ORGALIME S 2012 for the remaining countries, with amendments and additions as follows:

## Prices

Prices specified in LAPP's price list are gross prices (with some exceptions) and exclude VAT.

Prices of cables and cable terminals in copper are based on a copper price of EUR 150 per 100 kg. In the event of a change in the copper price of more than +/-10%, the corresponding adjustment is made. For an estimate of copper prices, see [the link](#).

In the event of currency fluctuations and other changes beyond LAPP's control, LAPP reserves the right to make a price adjustment.

In the case of express goods, the full shipping cost will be charged.

Articles not in stock and articles ordered through our e-Shop are sold only in the full packaging.

## Tolerance cable length

Unless otherwise agreed, LAPP reserves the right to deliver up to +5% on articles in stock and +/- 15% on articles not in stock. LAPP must always be contacted in the case of other tolerance requirements.

## Cut cost

The first cut of a cable is always free of charge. If more than one cut of the same article is required to enable the required lengths to be delivered, a cost of 50 SEK per cut is payable.

## Payment

Payment must, unless otherwise agreed, be received by LAPP no later than thirty (30) days from the invoice date. In the case of payment after the due date of the invoice, interest on overdue payment is charged in accordance with the Interest Act.

## Delivery terms

If no delivery terms have been agreed, the delivery takes place FCA Nyköping (Incoterms 2010).

## Product changes

A valid product specification is contained in LAPP's e-Catalogue. If substantial changes are made to the product even though the same article number is maintained, LAPP is required to inform the purchasers of that change.

If LAPP realises or should have realised that the change could cause a great deal of inconvenience, the customer is entitled to cancel the purchase.

### **Equipment that is used in aviation and space travel**

LAPP is not obliged to compensate the damage incurred to the customer or third parties, if the goods were used in direct air and space travel applications and the damage resulted from or in connection with the use of the goods pursuant to this Article, unless such damage would be caused intentionally or in gross negligence by the seller.

### **Return provisions**

The following applies in order for LAPP to process any returns:

1. Only returns for which liability can be attributed to LAPP, such as incorrect dispatch or manufacturing faults, are approved at no additional cost to the purchaser.
2. Other returns must be approved by LAPP. Taking into consideration unpacking costs, checking, any adjustment work and repackaging, the purchaser is credited the amount of the invoice with a deduction amounting to 30% for articles in stock.
3. Return of goods with an invoice value below SEK 500 net is not accepted.
4. In the event of a return, the goods must be accompanied by LAPP's return shipping note. This is a condition to ensure that the returns can be processed by LAPP. For information on processing of returns, see below.

### **Processing of returns**

#### **In the event of any returns, the following must be taken into account**

1. Contact LAPP for a return note.
2. LAPP issues a return note which must accompany the returned goods.
3. Returns without a return note are not accepted and the products are then returned with shipping unpaid.
4. A return shipping note is not equated to an approved return (see the criteria set out below).
5. Only returns for which liability can be attributed to LAPP, such as incorrect dispatch or manufacturing faults, are approved at no additional cost to the purchaser. For other approved returns, the purchaser is credited with the amount of the invoice with a deduction amounting to 30% for articles in stock.

#### **LAPP Miltronic AB accepts returns when the following criteria have been met**

- The goods must be in stock at LAPP.
- The goods must have been delivered within the past 12 months.
- The goods must be in their unopened original packaging (as appropriate).
- The goods must be free from dirt, moisture, damage and other external effects that mean that the goods cannot be resold without additional work for LAPP.
- The goods must have been stored indoors.
- The goods must still form part of LAPP's range.
- The goods must not be subject to new directives, approvals, etc. which make the goods unsaleable for LAPP.
- In the event that the goods cannot be returned to their original supplier, LAPP must have frequent sales of the goods that mean that the accepted returned article can be sold within 6 months.
- The invoice value must exceed SEK 500.

Or

- Liability must be able to be attributed to LAPP due to incorrect dispatch or manufacturing faults.
