FLEXIMARK® Fiber Marking

For fiber optic installations

LAPP

LAPP

Marking system that simplifies the identification of fiber optic installations.

FLEXIMARK® Fiber Marking

FLEXIMARK® delivers a variety of marking systems. Choose from preprinted labels, adapted for fiber optic identification standards, or blank labels for own use with laser printer or portable labeller. The choices are many. You can also order customized labeling to streamline the identification work on site, for example at larger volumes. FLEXIMARK® fiber marking products are available in several designs, colours and sizes.

FLEXIMARK® Marking System

Fleximark AB is a production plant within the LAPP Group, located in Sweden, Europe. Fleximark develops and produces FLEXIMARK® Marking systems with quality, precision and reliability for any industry, market

and solution. Through a close cooperation with customers and endusers all over the world, Fleximark has learned the importance of the environment where the marking is used in. Fleximark and FLEXIMARK® Marking systems makes your everyday work easier and more efficient. FLEXIMARK® is one of eight brands within the LAPP Group.

About LAPP

Headquartered in Stuttgart, Germany, LAPP is a leading supplier of integrated solutions and branded products in the field of cable and connection technology. The company's portfolio includes standard and highly flexible cables, industrial connectors and cable entry systems, customized system solutions, automation technology and robotics

solutions for the intelligent factory of the future, as well as technical accessories. LAPP's core market is in the industrial machinery and plant engineering sector. Other key markets are in the food industry as well as the energy and the mobility sector.
LAPP has remained in continuous family ownership since it was founded in 1959. In the 2019/20 business year, it generated consolidated revenue of 1,128 million euros. LAPP (including also non-consolidated entities) currently employs approximately 4,575 people across the world, has 20 production sites and around 43 sales companies. It also works in cooperation with around 100 foreign representatives."

PRODUCT CHARACTERISTICS

Automation

Good chemical resistance

Mechanical and Plant Engineering

Assembly time

FLEXIMARK® Fiber marking

- Suitable for fiber optic cables with maximum diameter 2.4 mm.
- Supplied on preprinted sheets in accordance with standards for fiber optic identification.
- Available in colours: Blue, green, red, yellow and white.
- Quick mounting.

Approvals:
BYGGVARUBEDÖMNINGEN

Info

Available in several colours for quick and easy identification.

Technical data

	Dimensions: Cable area: 0.25 - 16 mm² Sheet size: (WxL) 80-100 x 210 mm
RAL	Colours: White, Yellow, Blue, Green, Red
	Material: Polyester, Halogen-free
	Temperature range: -40°C to +125°C
