Application

UNITRONIC® BUS AS-INTERFACE PUR is a field-bus cable 91Y11Y-FL 2 x 1,5 with 2 cores for **AS-INTERFACE (Aktuator- Sensor Interface)**. Networking system for the lower field area.

The data transmission for AS-Interface telegrams and power supply for AS-I slaves, master, repeater, extender and sensors is done via this unscreened, geometrically-coded two-core flat cable. Contacting the conductors without stripping the insulation by insulation-displacement-system of AS-I modules.

The cable is intended for fixed and flexible installations. It is applicable for constantly moving employment in power chain systems.

The cable ist halogen free and flame retardant.
